Subject to the disposition of an appeal, upon the expiration of six (6) months after an order terminating parental rights is issued under this subsection, the order cannot be questioned by any person, in any manner, or upon any ground, including fraud, misrepresentation, failure to give any required notice, or lack of jurisdiction of the parties or of the subject matter.

(6) Notice of the proceeding shall be given to every person identified as the natural father or a possible natural father in the manner appropriate under rules of civil procedure for the service of process in a civil action in this state, or in any manner the court directs. Proof of giving the notice shall be filed with the court before the petition is heard. If no person has been identified as the natural father or a possible father, the court, on the basis of all information available, shall determine whether publication or public posting of notice of the proceeding is likely to lead to identification and, if so, shall order publication or public posting at times and in places and manner it deems appropriate.

Each applicant city shall compute its operating deficit and rate of usage for a fiscal year immediately following the end of such year, and shall apply allocations received against that deficit. One-half (½) of the funds appropriated for the purposes of section 11-4513 shall be paid by the state treasurer to the counties of the state in the manner provided in section 84-1840(1)(a). "**91A-3-706. Duty of personal representative; supplementary inventory and appraisement; employment of appraiser; copy to department of revenue.** Within three (3) months after his appointment, a personal representative, who is not a special administrator or a successor to another representative who has previously discharged this duty, shall prepare and file or mail an inventory, which inventory shall include listing of all property which the decedent owned, had an interest in or control over, individually, in common, or jointly, or otherwise had at the time of his death; or had possessory or dispository rights over at the time of his death or had disposed of for less than its fair market value within three (3) years of his death; or which was affected by his death for the purpose of inheritance or estate taxes. The inventory shall include a statement of the full and true value of the decedent's interest in every item listed in such inventory. In this connection the personal representative shall appoint *one (1) or more* qualified and disinterested persons to assist him in ascertaining the fair market value as of the date of the decedent's death of all assets included in the estate. Different persons may be employed to appraise different kinds of assets included in the estate. The names and addresses of any appraiser shall be indicated on the inventory with the item or items he appraised.

The personal representative shall send a copy of the inventory to interested persons who request it, *or* he *may* file the original of the inventory with the court. In any event, a copy of the inventory and statement of value shall be mailed to the department of revenue."

Section 5. There is a new R.C.M. section numbered 91A-3-1012 which reads as follows:

91A-3-1012. Final accounting to close estate. Before an estate may be finally closed and the personal representative relieved of his duties and obligations, he shall either file with the court or deliver to all interested persons an accounting under oath showing the amount of money received and expended by him, the amount of all claims presented against the estate and the names of the claimants and all other matters necessary to show the state of its affairs. Any interested person at any time during the course of the administration of an estate may for good cause shown require further accountings. Section 6. There is a new R.C.M. section numbered 91A-3-715.1 that reads as follows:

Section 7. Section 91A-3-806, R.C.M. 1947, is amended to read as follows:

"**91A-3-806. Allowance of claims.** (1) As to claims presented in the manner described in section 91A-3-804 within the time limit prescribed in 91A-3-803, the personal representative may mail a notice to any claimant stating that the claim has been disallowed. If, after allowing or disallowing a claim, the personal representative changes his decision concerning the claim, he shall notify the claimant. The personal representative may not change a disallowance of a claim after the time for the claimant to file a petition for allowance or to commence a proceeding on the claim has run and the claim has been barred. Every claim which is disallowed in whole or in part by the personal representative is barred so far as not allowed unless the claimant files a petition for allowance in the court or commences a proceeding against the personal representative not later than sixty (60) days after the mailing of the notice of disallowance or partial allowance if the notice warns the claimant of the impending bar. Failure of the personal representative to mail notice to a claimant of action on his claim for sixty (60) days after the time for original presentation of the claim has expired has the effect of a notice of *disallowance.*

(2) Upon the petition of the personal representative or of a claimant in a proceeding for the purpose, the court may allow in whole or in part any claim or claims presented to the personal representative or filed with the clerk of the court in due time and not barred by subsection (1) of this section. Notice in this proceeding shall be given to the claimant, the personal representative and those other persons interested in the estate as the court may direct by order entered at the time the proceeding is commenced.

(3) A judgment in a proceeding in another court against a personal representative to enforce a claim against a decedent's estate is an allowance of the claim.

(4) Unless otherwise provided in any judgment in another court entered against the personal representative, allowed claims bear interest at the legal rate for the period commencing sixty (60) days after the time for original presentation of the claim has expired unless based on a contract making a provision for interest, in which case they bear interest in accordance with that provision."

Section 8. Section 91A-3-1010, R.C.M. 1947, is amended to read as follows:

"**91A-3-1010. Lien of state on estate property for unpaid inheritance taxes.** All property which is affected by the death of the decedent and on which inheritance, estate or death taxes are due under the laws of this state is subject to the lien of the state of Montana until such taxes have been paid. This lien follows all property sold in the course of administration or distributed under this code until such time as all inheritance

HeinOnline -- 1975 vol. II 1405 1975

taxes have been paid and a receipt showing payment thereof has been filed with the clerk of court, subject to applicable statutes of limitations on state inheritance tax liens. The department of revenue may issue a consent to transfer any real or personal property in the estate of a decedent free of the lien for unpaid inheritance taxes upon proper application and under such rules and regulations as the department shall prescribe.

Section 9. Section 91-4468, R.C.M. 1947, is amended to read as follows:

"**91-4468. Personal representative to furnish information — department to determine tax — appeal.** The personal representative, or should the personal representative fail to do so, any interested person, shall make application to the state department of revenue for determination of any tax due upon the estate of a decedent. The applicant shall furnish to the department of revenue the inventory and appraisement required by section 91A-3-706 of this act and of any supplemental inventory under section 91A-3-707 of this act together with a statement, under oath or affirmation, of any property owned by the decedent at the time of his death situated outside of this state and without its jurisdiction. *The applicant shall, upon request of the department, furnish the department with the final accounting of such personal representative.* If the decedent died testate, the personal representative shall likewise furnish the department with a certified copy of the last will of the decedent. If the decedent died intestate, the personal representative shall provide the department with a sworn statement setting forth the names, ages, and residences of the heirs at law of decedent. In all cases, the personal representative shall set forth the proportion of the entire estate inherited by or devised to each of said persons, and the relation, if any, which each devisee, heir, or transferee sustained to the decedent or person from whom the transfer was made. The information so provided shall not be binding upon the department in case it believes the same to be erroneous or untrue. From the information so furnished the department and such other information as it may be able to obtain with reference thereto, the department shall, with reasonable diligence, proceed to ascertain and determine the amount of tax, if any, due under the provisions of the inheritance tax laws of the state of Montana, and a copy of such determination shall be mailed to the personal representative and to the clerk of the appropriate district court. If no tax is due, the department shall likewise so inform the clerk of district court and the personal representative. Should the personal representative or any person affected by the determination of inheritance tax feel aggrieved by the department's determination, he may, within sixty (60) days after the filing of the copy of such determination with the clerk of district court, appeal the determination to the appropriate district court, by serving upon the department his objections to such determination and by filing such notice, after so serving the same, in the office of the clerk of such court. The court shall set a day for hearing such appeal upon ten (10) days' notice to all interested parties, and at the time and place set shall hear the appeal, upon all papers and records which may be properly presented before it, and shall as soon as possible thereafter issue its order determining the amount of such inheritance tax, if it finds a tax to be due."

HeinOnline -- 1975 vol. II 1406 1975

CHAPTER NO. 517

AN ACT PROVIDING FOR THE SUSPENSION OF ACTION ON CERTAIN APPLICATIONS FOR CERTIFICATES OF ENVIRONMENTAL COMPATIBILITY AND PUBLIC NEED DURING WHICH TIME A COMPREHENSIVE MONTANA ENERGY POLICY AND PLAN SHALL BE FORMULATED; AND PROVIDING FOR AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. There is a new R.C.M. section numbered 70-825 that reads as follows:

70-825. Statement of legislative findings and policy. The legislature, noting the apparent federal initiative for energy conversion facilities and further noting their complex economic, social and environmental impacts as well as the lack of clearly defined state energy conversion objectives, policies, and plans, finds that energy conversion facility siting must be restrained until such state objectives, policies, and plans are defined, developed, and subjected to citizen participation and review. The legislature further finds that action on individual utility siting applications without a comprehensive program could lead to economic, social, and environmental disruption in their cumulative impact. The legislature pursuant to its mandate and authority under Article IX of the Montana constitution declares that it is the policy of this state that until a comprehensive state energy conversion policy and plan is developed and accepted, the siting of certain energy conversion facilities shall be suspended.

Section 2. There is a new R.C.M. section numbered 70-826 that reads as follows:

70-826. Definitions. Unless the context clearly requires otherwise, in this act:

(1) "Board" means the board of natural resources and conservation.

(2) "Application" means an application for a certificate of environmental compatibility and public need under the Montana Utility Siting Act of 1973 for only a utility facility:

(a) designated for, or capable of, generating at fifty (50) megawatts of electricity or more or any addition thereto (except pollution control facilities approved by the department of health and environmental sciences added to an existing plant) having an estimated cost in excess of two hundred fifty thousand dollars ($250,000), or

HeinOnline -- 1975 vol. II 1407 1975

(b) designed for, or capable of, producing one hundred million (100,000,000) cubic feet of gas per day or more, or any addition thereto, having an estimated cost in excess of two hundred fifty thousand dollars ($250,000), or

(c) designed for, or capable of, producing fifty thousand (50,000) barrels of liquid hydrocarbon products per day or more or any addition thereto having an estimated cost in excess of two hundred fifty thousand dollars ($250,000), or

(d) designed for or capable of enriching uranium minerals.

(3) "Department" means the department of natural resources and conservation.

(4) "Certificate" means certificate of environmental compatibility and public need.

Section 3. There is a new R.C.M. section numbered 70-827 that reads as follows:

70-827. Suspension of action. (1) Once the next board has granted a certificate for a utility facility as described in section 70-826 the department shall not accept or act upon any application until:

(a) the governor of the state of Montana has prepared and submitted directly to the next legislature a long-term, comprehensive state energy conversion policy and plan including but not limited to alternative long-term growth goals, a statewide siting inventory, and a proposed siting policy for the coordinated siting of energy conversion facilities to meet Montana's energy needs,

(b) the next legislature of the state of Montana has had an opportunity to respond to the policy and plan with appropriate legislation.

(2) Provided that this act does not apply to any application accepted by the department prior to passage and approval of this act.

Section 4. There is a new R.C.M. section numbered 70-828 that reads as follows:

70-828. Other application suspensions. The board may suspend action on applications not meeting the definition of application in section 70-826 if it determines, after a public hearing conducted under the contested case procedures of the Montana Administrative Procedure Act, that the cumulative impact of those applications, if granted, would be contrary to the policies and purposes of this act.

Section 5. There is a new R.C.M. section numbered 70-829 that reads as follows:

70-829. Positive action allowed. The board may take action on applications meeting the definition of application in section 70-826 if it determines, after a public hearing conducted under the contested case procedures of the Montana Administrative Procedure Act, that (1) the facility is required to meet state energy needs, or (2) upon a clear and convincing showing by the applicant the burden imposed on interstate commerce

HeinOnline -- 1975 vol. II 1408 1975

outweighs the adverse impacts of the proposed facility on the public health, safety, general welfare and environment of the state of Montana.

Section 6. **Severability.** If a part of this act is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of this act is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.

Section 7. **Effective date.** This act is effective on passage and approval.

Approved April 29, 1975.

(b) calculate the ANB for the regularly enrolled full-time pupils enrolled in the seventh (7th) and eighth (8th) grades of the junior high school;

(20) For the purpose of establishing the maximum-budget- without-a-vote amount for current year special education program for a school district, the superintendent of public instruction will determine the total estimated cost of the special education program for the school district on the basis of a special education program budget submitted by the district. The budget will be prepared on forms provided by the superintendent of public instruction and will set out for each program

(a) the estimated allowable costs associated with operating the program where allowable costs are as defined in section 75-7813.1;

(b) the number of pupils expected to be enrolled in the program; and

(c) any other data required by the superintendent of public instruction for budget justification purposes and to administer the provisions of this act. The total amount of allowable costs approved by the superintendent of public instruction shall be the special education maximum-budget-without-a-vote amount for current year special education program purposes. The total amount of allowable costs that are approved for the special education budget shall not, under any condition, be less than the maximum-budget-without-a-vote amount for one regular ANB for each special full-time pupil in the school district.

(21) If a special education program is implemented or expanded during a given school term too late to be included in the determination of the district maximum-budget-without-a-vote for the school year as prescribed in this chapter, then subject to the approval of the program by the superintendent, under the emergency budget provisions of section 75-6723 (5), allowable costs approved under the budgeting provisions of section 75-6905 (20) for the operation of the program during the given year may be added to the maximum-budget-without-a-vote amount for special education for the subsequent school year. Such costs must be recorded as "previous year special education expenses" in the school district budget for the subsequent school year.

(22) The sum of the previous year special education expenses as defined in subsection (21) above, and the maximum-budget-without-a-vote for current year special education as defined in subsection (20) shall be the special education budget for accounting purposes.

The maximum-budget-without-a-vote for special education will be added to the maximum-budget-without-a-vote of the regular program ANB defined in sections 75-6902 and 75-6903 to obtain the total maximum-budget-without-a-vote for the district."

AN ACT PROVIDING FOR SMALL CLAIMS COURTS IN THE STATE OF MONTANA.

Be it enacted by the Legislature of the State of Montana:

Section 1. There is a new R.C.M. section numbered 93-322 that reads as follows:

93-322. Small claims court authorized. There may be created within the jurisdiction of the district court of any county of the state of Montana a separate court, known as the "Small Claims Court".

Section 2. There is a new R.C.M. section numbered 93-323 that reads as follows:

93-323. Creation of small claims court. A small claims court may be created by a resolution passed by the board of county commissioners after consultation with the district court judges of the judicial district in which such county is located, or by county initiative as provided in Title 37, chapter 3, R.C.M. 1947. Upon such order or passage of the resolution or initiative, the judge of the appropriate judicial district shall, by court order, establish a small claims court under the provisions of this act. When the order is filed with the clerk of the district court of the appropriate county the clerk of the district court becomes the clerk of the small claims court.

Section 3. There is a new R.C.M. section numbered 93-324 that reads as follows:

93-324. Duration of small claims court. A small claims court created under this act continues in existence until abolished by the same means by which it was formed under section 93-323. Any small claims court may be abolished by county initiative as provided in section 93-323.

Section 4. There is a new R.C.M. section numbered 93-325 that reads as follows:

93-325. Appointment of judge—salary—qualifications. (1) The judges of the judicial district in which a small claims court has been created shall appoint a judge of the small claims court who shall:

(c) be paid a salary set by the district court judge; and

(d) be an attorney licensed to practice law in the state of Montana.

(2) The judge of the district court may appoint more than one (1) small claims court judge for any small claims court and the salary shall be prorated among the judges appointed.

HeinOnline -- 1975 vol. II 1414 1975

93-326. Location—office hours—duties of judge. The small claims court shall be located in the appropriate district and shall be open as required by the district judge. In the event that more than one (1) small claims court judge has been appointed, the judges so appointed may divide their responsibility hereunder. The small claims court judge shall assist any claimant in preparing an affidavit or may direct the clerk of court to provide such assistance.

Section 6. There is a new R.C.M. section numbered 93-327 that reads as follows:

93-327. Multi-county small claims courts. Where there is more than one county in the judicial district and the county commissioners of more than one county in that district create small claims courts, the district judges may provide that the same judge of small claims court may preside over more than one of the small claims courts in the judicial district. In such cases the salary of the small claims court judge shall be prorated among the counties in which he presides. The judge shall be entitled to collect mileage for the distance actually traveled when required to convene small claims court in more than one county, pursuant to section 59-801.

Section 7. There is a new R.C.M. section numbered 93-328 that reads as follows:

93-328. Act to be liberally construed. It is the purpose of this act to provide a speedy remedy in claims falling hereunder, and to promote a forum in which such claims may be heard and disposed of without the necessity of formal trial. For this reason, the provisions hereof should be liberally construed to provide an informal, but equitable, means of justice, and the judges appointed hereunder are required to assist all parties before them to obtain substantial justice.

Section 8. There is a new R.C.M. section numbered 93-329 that reads as follows:

93-329. Jurisdiction. (1) The small claims court has original jurisdiction in all actions for the recovery of money or specific personal property when such action arises out of a contract, express or implied, and the amount of the claim, exclusive of costs, does not exceed one thousand five hundred dollars ($1,500) and the defendant can be served within the county or counties for which the small claims court has been created. More than one (1) claim may be joined, if all claims joined would separately meet the requirements for jurisdiction in the small claims court and the total value of money claimed or property sought does not exceed one thousand five hundred dollars ($1,500).

(2) A district court judge may require any action filed in district court to be removed to the small claims court, if the amount in controversy does not exceed one thousand five hundred dollars ($1,500). The small claims court shall hear any action so removed from the district court.

Section 9. There is a new R.C.M. section numbered 93-330 that reads as follows:

HeinOnline -- 1975 vol. II 1415 1975

93-330. Parties—representation. (1) Parties in the small claims court may be individuals, partnerships, corporations, unions, associations, or any other kind of organization or entity.

(3) An individual shall represent himself in the small claims court. A partnership shall be represented by a partner or one of its employees. A union shall be represented by a union member or union employee. A corporation shall be represented by one of its employees. An association shall be represented by one of its members or by an employee of the association. Any other kind of organization or entity shall be represented by one of its members or employees.

(6) Notwithstanding any other provision of this section, an executor or administrator of a decedent's estate, a guardian, or a conservator may be a party in the small claims court.

(b) state that if the defendant fails to appear at the hearing and has not satisfied the claim, judgment will be entered against him in the amount or for the relief claimed, for costs; and

(c) be signed by the clerk of court and bear the seal of the court.

HeinOnline -- 1975 vol. II 1417 1975

the defendant and a copy of it along with a copy of the affidavit shall be served upon the defendant by the sheriff in the same manner provided by law for service of process in civil actions in district court. The provisions of law relating to sheriff's fees are applicable to this section.

Section 14. There is a new R.C.M. section numbered 93-335 that reads as follows:

93-335. Hearing date—how set. The date for the appearance of the defendant to be set forth in the order shall be determined by the clerk of court in accordance with rules adopted by the small claims judge, and shall not be more than thirty (30) nor less than ten (10) days from the date of the order. Service of the order and copy of the affidavit shall be made upon the defendant not less than seven (7) days prior to the date set for his appearance by the order. If the order is not timely served, plaintiff may have a new appearance date set by the clerk and a new order issued and delivered to the sheriff, and, if necessary, repeated orders may be issued at any time within one year after the commencement of the action.

Section 15. There is a new R.C.M. section numbered 93-336 that reads as follows:

93-336. Return of service. The sheriff, after effecting service, shall make return upon the original order and file it with the clerk of court.

93-337. Defendant's counterclaim—answer. (1) If the defendant wishes to assert a counterclaim against the plaintiff he shall file a written answer setting forth his counterclaim against the plaintiff and shall cause the answer to be served upon the plaintiff not less than seventy-two (72) hours before the date set for the hearing. Service shall be made in the same manner in which service is made upon the defendant.

(2) A counterclaim or set-off may not exceed one thousand five hundred dollars ($1,500). If a counterclaim or set-off is asserted in excess of one thousand five hundred dollars ($1,500), the jurisdiction of the small claims court over the plaintiff's claim is not defeated, but the court shall limit its determination of the counterclaim or set-off only to the question of whether plaintiff's claim is discharged thereby, leaving defendant to prosecute the balance of his claim in appropriate district court action.

Section 17. There is a new R.C.M. section numbered 93-338 that reads as follows:

93-338. Attachment—execution. Attachment or prejudgment garnishment is not available in actions brought in small claims court. Proceedings to enforce or collect a judgment are governed by the laws relating to executions upon district court judgments.

Section 18. There is a new R.C.M. section numbered 93-339 that reads as follows:

93-339. Proceedings informal—court reporters. If the action is

HeinOnline -- 1975 vol. II 1418 1975

tried to the court, the proceedings shall be informal to the extent possible in order to dispense speedy justice to the parties. A reporter is not necessary unless the judge finds the issues sufficiently complex that a record is desirable, in which case he shall make arrangements with a court reporter of the district court to take the testimony. The judge shall make findings of fact sufficient to establish in full the basis of his judgment, and shall file them with his judgment. If a jury is empaneled, it shall try all issues of fact, and in such case there shall be a court reporter.

Section 19. There is a new R.C.M. section numbered 93-340 that reads as follows:

93-340. Small claims jury—waiver—request. The plaintiff, by filing the affidavit for a proceeding in small claims court waives the right to jury trial. Defendant may request a jury provided such request is made not less than forty-eight (48) hours prior to the date set for hearing. If defendant pleads a counterclaim or set-off, he, too, waives a jury trial. If a jury is requested, it shall be empaneled in the same fashion as provided for district court juries in civil cases involving less than ten thousand dollars ($10,000).

Section 20. There is a new R.C.M. section numbered 93-341 that reads as follows:

93-341. Evidence—subpoena power. Both parties have the right to offer evidence, written and oral, and the judge may direct the production of evidence as he deems appropriate. The small claims court has the subpoena power granted to district courts in civil cases.

Section 21. There is a new R.C.M. section numbered 93-342 that reads as follows:

93-342. Entry of judgment. Upon the conclusion of a case tried to the court the judge shall make his findings and enter judgment. Judgment shall be entered upon a jury verdict in the same manner as is provided for district court jury trials.

Section 22. There is a new R.C.M. section numbered 93-343 that reads as follows:

93-343. Appeals. If either party is dissatisfied with the judgment of the small claims court he may appeal to the district court of the county where the judgment was rendered, in the same fashion as appeals in other civil actions. Any such appeal shall be tried de novo.

In the event that the parties are represented by counsel on appeal, the judge may grant the prevailing party, in addition to costs, reasonable attorney fees.

Section 23. There is a new R.C.M. section numbered 93-344 that reads as follows:

93-344. Fees—cost. (1) The clerk of court shall collect a fee of five dollars ($5):

(a) from the plaintiff upon the filing of the affidavit;

HeinOnline -- 1975 vol. II 1419 1975

(b) from the defendant upon the filing of a written answer.

(2) The laws relating to paupers' affidavits apply to actions before the small claims courts.

(3) The prevailing party in an action before the small claims court is entitled to costs.

Section 24. It is the intent of the legislature that if a part of this act is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of this act is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.

Approved April 29, 1975.

The petition of nomination of which this certificate forms a part shall, if found insufficient, be returned to ...., at ...., Montana.

(4) Clerk to furnish forms. It shall be the duty of the county clerk to furnish upon application a reasonable number of forms of individual certificates of the above character. If the district lies in more than one county, the county clerk whose county contains the largest percentage of the territory of said district shall fulfill this function.

(5) Certificates. Each certificate must be a separate paper. All certificates must be of uniform size as determined by the county clerk. Each certificate must contain the name of one signer thereto and no more. Each certificate shall contain the name of one candidate and no more. Each signer must be a qualified elector owning *real property* or residing within said district, must not at the time of signing a certificate have his name signed to any other certificate for any other candidate for the same office, or, in case there are several places to be filled in the same office, signed to more certificates for candidates for that office than there are places to be filled in such office. may be presented to the county clerk not earlier than forty-five (45) days nor later than thirty (30) days before the election. The county clerk shall endorse thereon the date upon which the petition was presented to him. If the district lies in more than one county, such petition for nomination shall be presented to the county clerk whose county contains the largest percentage of the territory of said district and said county clerk shall fulfill all duties assigned to county clerks in elections under this act.

(7) Examination of petition. When a petition of nomination is presented for filing to the county clerk, he shall forthwith examine the same, and ascertain whether or not it conforms to the provisions of this section. If found not to conform thereto, he shall then and there in writing designate on said petition the defect or omission or reason why such petition cannot be filed, and shall return the petition to the person named as the person to whom the same may be returned in accordance with this section. The petition may then be amended and again presented to the clerk as in the first instance. The clerk shall forthwith proceed to examine the petition as hereinbefore provided. If necessary, the board of commissioners shall provide extra help to enable the clerk to perform satisfactorily and promptly the duties imposed by this section.

(8) Signer may withdraw name. Any signer to a petition of nomination and certificate may withdraw his name from the same by filing with the county clerk a verified revocation of his signature before the filing of his petition by the clerk, and not otherwise. He shall then be at liberty to sign a petition for another candidate for the same office.

(9) Candidate may withdraw. Any person whose name has been presented under this section as a candidate may, not later than twenty-five (25) days before the day of election, cause his name to be withdrawn from nomination by filing with the county clerk a request therefor in writing, and no name so withdrawn shall be printed upon the ballot. If, upon such withdrawal, the number of candidates remaining does not exceed the number to be elected, then other nominations may be made by filing petitions therefor not later than twenty-five (25) days prior to such election.

(10) Petition filed. If either the original or amended petition of nomination be found sufficiently signed as hereinbefore provided, the clerk shall file the same twenty-five (25) days before the date of the election. When a petition of nomination shall have been filed by the clerk it shall not be withdrawn or added to and no signatures shall be revoked thereafter.

(11) Petitions preserved. The county clerk shall preserve in his office for a period of two years, all petitions of nomination and all certificates belonging thereto, filed under this section.

(12) List of candidates. Immediately after such petitions are filed, the county clerk shall enter the names of the candidates in a list, with the offices to be filled, and shall not later than twenty (20) days before the election certify such list as being the list of candidates nominated as required by the provisions of this act, and the board of commissioners of each county in which the district lies shall cause said certified list of names and the offices to be filled, to be published in the proclamation calling the election at least ten (10) successive days before the election in at least one (1) but not more than three (3) newspapers of general circulation published in each county in which such district is located. Such

HeinOnline -- 1975 vol. II 1425 1975

proclamation shall conform in all respects to the general state law governing the conduct of general elections now or hereafter in force, applicable thereto, except as otherwise herein provided.

(13) Ballots. Form. The county clerk shall cause the ballots to be printed and bound and numbered as provided by said general state law, except as otherwise required in this act. The ballots shall contain the list of names and the respective offices as published in the proclamation and shall be in substantially the following form:

GENERAL (OR SPECIAL) DISTRICT ELECTION

.... District,

(Inserting date thereof.)

Instructions to Voters: To vote, stamp or write a cross (x) opposite the name of the candidate for whom you desire to vote. All marks otherwise made are forbidden. All distinguishing marks are forbidden and make the ballot void. If you wrongly mark, tear or deface this ballot, return it to the inspector of election, and obtain another.

(14) How printed. All ballots printed shall be precisely on the same size, quality, tint of paper, kind of type, and color of ink, so that without the number it would be impossible to distinguish one ballot from another; and the names of all candidates printed upon the ballot shall be in type of the same size and style. A column may be provided on the right-hand side for questions to be voted upon at district election, as provided for under this act. The names of the candidates for each office shall be arranged in alphabetical order, and nothing on the ballot shall be indicative of the source of the candidacy or of the support of any candidate.

(15) No candidate omitted. The name of no candidate who has been duly and regularly nominated, and who has not withdrawn his name as herein provided shall be omitted from the ballot.

(16) Office. The offices to be filled shall be arranged in the following order: "For director vote for (giving number)."

(17) Voting squares. Half-inch square shall be provided at the right of the name of each candidate wherein to mark the cross.

(18) Spaces below printed names. Half-inch spaces shall be left below the printed names of candidates for each office, equal in number to the number to be voted for, wherein the voter may write the name of any person or persons for whom he may wish to vote.

(19) Votes necessary to elect. In case there is but one person to be elected to an office, the candidate receiving a majority of the votes cast for all the candidates for that office, shall be declared elected; in case there are two or more persons to be elected to an office, as that of director, then those candidates equal in number to the number to be elected, who receive the highest number of votes for such office shall be declared elected.

(20) Failure to qualify. If a person elected fails to qualify, the office shall be filled as if there were a vacancy in such office, as hereinafter provided.

HeinOnline -- 1975 vol. II 1426 1975

(21) Mode of appointment by mayor. The mode of appointment of director or directors by a mayor, or by a board of commissioners, shall be by certificate of appointment signed by said mayor or mayors, or issued by said board of commissioners, and transmitted to the board of directors of said district.

(22) Informality not to invalidate. No informality in conducting district elections shall invalidate the same, if they have been conducted by directors to fill a vacancy, or appointed by a mayor or by this act."

Section 3. Section 16-4508, R.C.M. 1947, is amended to read as follows:

"**16-4508. General law to govern.** The provisions of the law relating to the qualifications of electors, the manner of voting, the duties of election officers, the canvassing of returns, and all other particulars in respect to the management of general elections, so far as they may be applicable, shall govern all district elections, except as in this act otherwise provided; provided, however, that where a corporation owns real property within the boundaries of the district, the president, vice-president or secretary of such corporation shall be entitled to cast a vote on behalf of the corporation; provided also that an elector owning real property within the district need not reside within the district in order to vote, and provided that the board of commissioners shall canvass the returns of the first election and that thereafter, except as herein provided, the board of directors shall meet as a canvassing board and duly canvass the returns within four (4) days after any district election, including any district bond election. If the district lies in more than one county, the board of commissioners whose county contains the largest percentage of the territory of said district shall canvass the returns of the first election."

Section 4. Section 16-4520, R.C.M. 1947, is amended to read as follows:

"**16-4520. Publication.** Such notice shall be published for ten (10) consecutive days in a daily newspaper or in two (2) issues of a weekly newspaper published in each county wherein such district is located, which newspaper or newspapers shall be designated by the board of directors. Every qualified elector, owning or residing upon real property, within such voting precincts, but no others, shall be entitled to vote at such election. All the expenses of holding such election shall be borne by the district."

The* department *may initiate the proceedings,* and the court may in its discretion grant a temporary injunction. *The* proceedings shall be *conducted* in the district court of the county where the land is located.

after being notified to do *so* by the department, the department may complete, direct, or authorize the disposal of *the* slash at the expense of the owner of the timber or other forest products cut or produced from the land upon which *the* fire hazard remains undisposed of.

(3) The cost and expense of *the* disposal, plus twenty per cent (20%) of the cost and expense of *the* disposal as a penalty, *constitutes* a lien upon the forest products so cut or produced from *the* land. (d) an employment agency to *fail or refuse to refer for employment, to classify* or otherwise *to* discriminate against *any individual* because *of sex, marital status, age, physical or mental handicap, race, creed, color or national origin, unless based upon a bona fide occupational qualification;*

(1) A person who seeks to be exempted from the requirements of section 64-306 may petition the commission for a declaratory ruling as provided in section 82-4218 of the Montana Administrative Procedure Act. If the commission finds that reasonable grounds for granting an exemption exist it may issue a ruling exempting the petitioner from the particular provision. This section, however, shall be strictly construed and the burden shall be on the petitioner to demonstrate that an exemption should be granted.

(2) The state, employers, labor organizations, and employment agencies shall maintain records on age, sex, and race that are required to administer the civil rights law and regulations. These records are confidential and available only to federal and state personnel legally charged with administering federal civil rights laws and regulations. Any complaint not filed within the time set forth herein may not be considered by the commission.*

(3) At any time after a complaint is filed under this act, alleging an unlawful discriminatory practice, the commission may file a petition in the district court in the county in which the subject of the complaint occurs, or in the county in which a respondent resides or transacts business, seeking appropriate temporary relief against this practice, including an order restraining the respondent from interfering in any manner with an order the commission may enter with respect to the complaint. The court has the power to grant the temporary relief or restraining order it considers just and proper. However, no relief or order extending beyond fourteen (14) days may be granted except by consent of the respondent *or* upon a finding by the court that there is reasonable cause to believe that the respondent has engaged in discriminatory practices.

(4) The *commission staff* shall informally investigate the matters set out in a filed complaint promptly and impartially. If the *staff* determines that the allegations are supported by substantial evidence, it shall immediately try to eliminate the discriminatory practice by conference, conciliation, and persuasion.

(5) If the informal efforts to eliminate the alleged discrimination are unsuccessful, the *staff* shall inform the commission of the failure and the commission shall cause written notice to be served together with a copy of the complaint, requiring the person, employer, business, corporation or agency charged in the complaint to answer the allegations of the complaint at a hearing before the commission. The hearing shall be held by the commission in the county where the unlawful conduct is alleged to have occurred unless the person, employer, business, corporation, organization, agency or the commission requests a change of venue for good cause shown. The case in support of the complaint may be presented before the commission by the *staff,* the complainant or by an attorney representing the complainant. The hearing and any subsequent proceedings under the act except as permitted under section 64-310 shall be held in accordance with the Montana Administrative Procedure Act.

(b) require any reasonable measure to correct the discriminatory practice and to rectify any harm, pecuniary or otherwise, to the person discriminated against;

(c) require a report on the manner of compliance.

(2) The order may not require the payment of any punitive damages as defined by the Revised Codes of Montana.

(3) If the commission finds that a person against whom a complaint was filed has not engaged in the discriminatory practice alleged in the complaint, it shall issue and cause to be served on the complainant an order dismissing the complaint.

(4) Whenever a commission order or conciliation agreement requires inspection by the commission staff for a period of time to determine if the respondent is complying with that order or agreement, the period of time shall be no more than three (3) years."

Section 8. Section 64-310, R.C.M. 1947, is amended to read as follows:

"64-310. Injunction to enforce commission order. *If the commission's order is not obeyed, the commission staff shall* petition the district court in the county where the discriminatory practice occurred or in which the respondent resides or transacts business to enforce the commission's order by injunction."

Section 9. Section 64-311, R.C.M. 1947, is amended to read as follows:

"64-311. Staff may include attorney. (1) The *staff* may *include* an attorney as legal counsel. He shall advise the commission in legal matters arising in the discharge of its duties, shall assist in the preparation and presentation of complaints to the commission, and shall represent the commission in legal actions to which it is a party. The attorney general shall perform this function at the request of the commission."

Section 10. Section 64-312, R.C.M. 1947, is amended to read as follows:

"64-312. Unlawful to violate act — penalty. (1) It is unlawful for a person to aid, abet, incite, compel or coerce the doing of an act forbidden under this act or to attempt to do so.

HeinOnline -- 1975 vol. II 1439 1975

(2) No person or institution may discharge or discriminate against any *other person* because he or she has made a complaint, assisted with an investigation or *proceeding under this act or in any other manner opposed any practice made unlawful under this act.*

(3) A person, employer, business, organization, corporation or agency, both public and private, who or which willfully engages in an unlawful discriminatory practice prohibited by this act or willfully resists, prevents, impedes, or interferes with the commission, the department or any of its authorized representatives in the performance of duty under this act or who or which willfully violates an order of the commission or violates this act in any other manner, is guilty of a misdemeanor and is punishable by a fine of not more than five hundred dollars ($500) or by imprisonment for not more than six (6) months or both."

Section 11. There is a new R.C.M. section numbered 64-313 that reads as follows:

64-313. Powers of commission — subpoena. (1) The commission may subpoena witnesses, take the testimony of any person under oath, administer oaths and in connection therewith, require the production for examination of books, papers, or other tangible evidence relating to a matter either under investigation by the commission staff or in question before the commission. The commission may delegate the foregoing powers to a person within the staff for the purpose of investigating a complaint.

(2) Subpoenas issued pursuant to this section may be enforced as provided in section 82-4220 of the Montana Administrative Procedure Act.

Section 12. There is a new R.C.M. section numbered 64-314 that reads as follows:

Any person subject to this section refusing to comply with an order of the commission respecting the posting of notice is guilty of a misdemeanor, punishable by a fine of not more than fifty dollars ($50).

Section 13. There is a new R.C.M. section numbered 64-315 that reads as follows:

64-315. Commission to adopt rules. The commission shall adopt procedural and substantive rules necessary to implement this act. Rule making procedures shall comply with the requirements of the Montana Administrative Procedure Act.

CHAPTER NO. 525

AN ACT REVISING THE TAXATION OF COAL PRODUCTION; PROVIDING FOR A SEVERANCE TAX ON COAL PRODUCED AT A PERCENTAGE OF VALUE; DELETING COAL FROM THE PROVISIONS TAXING THE NET PROCEEDS OF MINES; PROVIDING FOR TAXATION OF THE GROSS PROCEEDS FROM COAL AS AN ELEMENT IN THE PROPERTY TAX SYSTEM; PROVIDING FOR CERTAIN ROYALTIES; AMENDING SECTIONS 84-301, 84-302, 84-1309.1, AND 84-5402; AND REPEALING SECTIONS 84-1301 THROUGH 84-1309, 84-1310, AND 84-1311, R.C.M. 1947.

Be it enacted by the Legislature of the State of Montana:

Section 1. There is a new R.C.M. section numbered 84-1312 that reads as follows:

84-1312. Legislative findings and declarations of purpose. (1) The legislature finds that while coal is extracted from the earth like metal minerals, there are differences between coal and metal minerals such that they should be classified in different categories for taxation purposes. The legislature finds that while coal can be utilized like petroleum products, there are differences between coal and petroleum such that they should be classified in different categories for taxation purposes. The legislature further finds that:

(a) coal is the only mineral which can supply energy while being easily found in abundance in Montana;

(b) coal is the only mineral which is so often marketed through sales contracts of many years' duration;

(c) coal, unlike most minerals, varies widely in composition and consequent value when marketed;

(d) coal in Montana is subject to regional and national demands for development which could affect the economy and environment of a larger portion of the state than any other mineral development has done;

(e) coal in Montana, when sub-bituminous and recoverable by strip mining, is in sufficient demand that at least one-third (⅓) of the price it commands at the mine may go to the economic rents of royalties and production taxes;

(f) coal in the lignite form is in less demand and producers of lignite are able to pay lesser amounts of royalty and production tax than producers of sub-bituminous can pay;

(g) coal produced in underground mines has higher production costs and underground producers are able to pay lesser amounts of royalty and production tax than strip-mine producers can pay;

(h) coal production in Montana has been subject to an uncoordinated array of taxes which overlap one another and yield revenue in an inconsistent and unpredictable manner.

HeinOnline -- 1975 vol. II 1441 1975

(2) The legislature declares that the purposes of this chapter are:

(a) to allow the severance taxes on coal production to remain a constant percentage of the price of coal;

(b) to stabilize the flow of tax revenue from coal mines to local governments through the property taxation system;

(c) to simplify the structure of coal taxation in Montana, reducing tax overlap and improving the predictability of tax projections; and

(d) to accomplish the foregoing purposes by establishing categories of taxation which recognize the unique character of coal as well as the variations found within the coal industry.

Section 2. There is a new R.C.M. section numbered 84-1313 that reads as follows:

84-1313. Definitions. As used in this chapter: (1) "Contract sales price" means either (a) the price of coal extracted and prepared for shipment f.o.b. mine, excluding that amount charged by the seller to pay taxes paid on production, or (b) a price imputed by the department under section 84-1318.

(2) "Energy conversion process" includes any process by which coal in the solid state is transformed into slurry, gas, electric energy, or any other form of energy.

(3) "Produced" means severed from the earth.

(4) "Strip mining" or "surface mining" is defined in section 50-1036.

(5) "Underground mining" means a coal mining method utilizing shafts and tunnels, and not regulated under section 50-1039.

(6) "Ton" means two thousand (2,000) pounds.

(7) "Department" means the department of revenue.

(8) "Taxes paid on production" include any tax paid to the federal, state, or local governments upon the quantity of coal produced as a function of either the volume or the value of production, and do not include any tax upon the value of mining equipment, machinery, or buildings and lands, any tax upon a person's net income derived in whole or in part from the sale of coal, or any license fee.

Section 3. There is a new R.C.M. section numbered 84-1314 that reads as follows:

84-1314. Severance tax — rates imposed — exemptions. A severance tax is imposed on each ton of coal produced in the state, in accordance with the following schedule:

Heating quality (Btu per pound of coal):	Surface Mining	Underground Mining
Under 7,000	12 cents or 20% of value	5 cents or 3% of value

HeinOnline -- 1975 vol. II 1442 1975

7,000-8,000	22 cents or 30% of value	8 cents or 4% of value
8,000-9,000	34 cents or 30% of value	10 cents or 4% of value
Over 9,000	40 cents or 30% of value	12 cents or 4% of value

The formula which yields the greater amount of tax in a particular case shall be used at each point on this schedule. "Value" means the contract sales price. A person is not liable for any severance tax upon the first five thousand (5,000) tons of coal he produces in a quarter-year.

Section 4. There is a new R.C.M. section numbered 84-1315 that reads as follows:

84-1315. Quarterly statement and payment of tax. Each coal mine operator shall compute the severance tax due on each quarter-year's worth of production on forms prescribed by the department. The statement shall indicate the tonnage produced, the average Btu value of the production, the contract sales price received for the production, and such other information as the department may require. The completed form in duplicate, with the tax payment, shall be delivered to the department not later than thirty (30) days following the close of the quarter. The form shall be verified by an officer of the coal mine operator. A person operating more than one coal mine in this state may include all of his mines in one statement. The department may grant a reasonable extension of time for filing statements and payment of taxes due upon good cause shown therefor.

Section 5. There is a new R.C.M. section numbered 84-1316 that reads as follows:

84-1316. Penalty for delinquent tax. The department shall add to the amount of all delinquent severance taxes a penalty of ten percent (10%) of the delinquent amount plus interest at the rate of one percent (1%) per month or fraction thereof computed on the total amount of severance tax and penalty. Interest shall be computed from the date the severance tax was due to the date of payment. The department shall mail to the person required to file a quarterly report and pay any severance tax, a letter setting forth the amount of tax, penalty and interest due, and the letter shall further contain a statement that if payment is not made within fifteen (15) days a lien may be filed as set forth in section 84-1323. The penalty amount may be waived by the department if reasonable cause for the failure or neglect to file the quarterly statement is provided to the department.

Section 6. There is a new R.C.M. section numbered 84-1317 that reads as follows:

84-1317. Annual testing of samples. The Montana state bureau of mines and geology shall test coal production subject to this chapter and may make rules governing the collection of test data. A person subject to this chapter shall submit to the bureau on or before August 1 each year a sample of mine run "as is" coal from each mine producing that year. Additional samples shall be submitted at the request of the bureau.

HeinOnline -- 1975 vol. II 1443 1975

The bureau shall compute the Btu per pound of each sample received and forward this information to the department prior to September 1 each year.

Section 7. There is a new R.C.M. section numbered 84-1318 that reads as follows:

84-1318. When value of coal may be imputed — procedure. In a case where

(a) the operator of a coal mine is using the produced coal in an energy conversion or other manufacturing process, or

(b) a person sells coal under a contract which is not an arm's-length agreement, or

(c) a person neglects or refuses to file a statement and tax return under this chapter, the department may impute a value to the coal which approximates market value f.o.b. mine. When imputing value, the department may apply the factors used by the federal government under 26 U.S.C. section 613, or that provision as it may be labelled or amended, in determining gross income from mining, or the department may apply any other or additional criteria it considers appropriate. Each subject taxpayer shall, upon request by the department, furnish a copy of its federal income tax return, with any amendments, filed for the year in which the value of coal is being imputed and copies of the contracts under which it is selling coal at the time. When the department's estimate of market value is contested in any proceeding, the burden of proof is on the contesting party.

Section 8. Section 84-1309.1, R.C.M. 1947, is renumbered 84-1319, and is amended to read as follows:

"**84-1319. Disposal of license or severance taxes.** License *or severance* taxes collected under the provisions of this chapter *or such sections as may enact a severance tax on coal in 1975* are allocated as follows:

(1) To the county *for such purposes as the governing body of that county may determine* from which coal was mined *for each calendar year prior to January 1, 1980,* three cents (3¢) per ton *or four percent (4%) of the severance tax paid on the coal mined in that county, whichever is higher and for each calendar year following December 31, 1979, this amount shall be three cents (3¢) per ton or three and one-half percent (3 ½%) of the severance tax on the coal mined in that county, whichever is higher.*

(2) To the earmarked revenue fund, such portions of the severance tax as may be authorized by laws enacted in 1975.

(3) All other revenues from license *or severance* taxes collected under the provisions of this chapter shall be deposited to the credit of the general fund of the state."

Section 9. There is a new R.C.M. section numbered 84-1320 that reads as follows:

84-1320. Reporting gross proceeds from coal. Each person engaged

HeinOnline -- 1975 vol. II 1444 1975

in mining coal must, on or before March 31 each year file with the department a statement of the gross yield from each coal mine owned or worked by such person in the preceding calendar year, and the value thereof. The statement shall be in the form prescribed by the department of revenue, which may be coordinated with the form used under section 84-1316, and must be verified by an officer of the firm. The statement shall include:

(1) The name and address of the owner or lessee or operator of the mine.

(2) The location of the mine.

(3) The tons of ore extracted, treated, and sold from the mine during the taxable period.

(4) The gross yield or value in dollars and cents derived from the contract sales price.

Section 10. There is a new R.C.M. section numbered 84-1321 that reads as follows:

84-1321. Transmission of gross proceeds from coal to county assessor. On or before July 1 each year the department shall transmit to the county assessor of each county in which coal mines are situated, the valuation of the gross proceeds of such mines for the purpose of taxation, as the same have been determined by the department. The county assessor shall immediately enter the same upon a suitable assessment roll, the form of which shall be prescribed by the department.

Section 11. There is a new R.C.M. section numbered 84-1322 that reads as follows:

84-1322. Taxation of gross proceeds from coal. The county assessor shall prepare from the reported gross proceeds from coal a tax roll, which he shall transmit to the county treasurer on or before September 15 each year. The county treasurer shall proceed to give full notice thereof to each coal producer and to collect the taxes due within sixty (60) days after mailing.

Section 12. There is a new R.C.M. section numbered 84-1323 that reads as follows:

84-1323. Lien of tax — enforcement of payment. The tax on gross proceeds from coal shall be levied as taxes on other forms of property, and this tax and the severance tax on coal production are each a lien upon the coal mine and a prior lien upon all personal property and improvements used to produce the coal. These taxes may be collected by the seizure and sale of the personal property on which the tax is a lien, as provided under sections 84-4202 through 84-4211, or by suit under sections 84-4301 through 84-4302.

Section 13. There is a new R.C.M. section numbered 84-1324 that reads as follows:

84-1324. Penalties for neglect or false statement. A person who fails, neglects, or refuses to file any statement required under this

HeinOnline -- 1975 vol. II 1445 1975

chapter, or who makes a false statement commits a misdemeanor. A person convicted under this section shall be fined not to exceed one thousand dollars ($1,000) or be imprisoned in the county jail for any term not to exceed six (6) months, or both.

Section 14. Section 84-301, R.C.M. 1947, is amended to read as follows:

"**84-301. Classification of property for taxation.** For the purpose of taxation the taxable property in the state shall be classified as follows:

Class One. The annual net proceeds of all mines and mining claims, *except coal mines,* after deducting only the expenses specified and allowed by section 84-5403; also where the right to enter upon land, to explore or prospect, or dig for oil, gas, coal or mineral is reserved in land or received by mesne conveyance (exclusive of leasehold interests), devise or succession by any person or corporation, the surface title to which has passed to or remains in another, the state department of revenue shall determine the value of the right to enter upon said tract of land for the purpose of digging, exploring, or prospecting for gas, oil, coal or minerals, and the same shall be placed in this classification for the purpose of taxation.

Class Two. All agricultural and other tools, implements and machinery, gas and other engines and boilers, threshing machines and outfits used therewith, automobiles, motor trucks and other power-driven cars, vehicles of all kinds except mobile homes, boats and all watercraft, harness, saddlery and robes and except as provided in Class Five (b) of this section, all poles, lines, transformers, transformer stations, meters, tools, improvements, machinery and other property used and owned by all persons, firms, corporations, and other organizations which are engaged in the business of furnishing telephone communications, exclusively to rural areas, or to rural areas and cities and towns provided that any such city or town has a population of eight hundred (800) persons or less; and provided further, that the average circuit miles for each station on the system is more than one and one-quarter (1 ¼) miles.

Class Three. Livestock, poultry and unprocessed products of both; stocks of merchandise of all sorts, together with furniture and fixtures used therewith, except mobile homes; *the annual gross proceeds of underground coal mines;* and all office or hotel furniture and fixtures.

(d) The dwelling house, and the lot on which it is erected, owned and occupied by any resident of the state, who has been honorably discharged from active service in any branch of the armed forces, who is rated one hundred per cent (100%) disabled due to a service-connected disability by the United States veterans administration or its successors.

In the event of the veteran's death, the dwelling house, and the lot on which it is erected, so long as the widow remains unmarried and the owner and occupant of the property, shall remain within this classification.

New industry shall mean any person, corporation, firm, partnership, association, or other group which establishes a new plant or plants in this state for the operation of a new industrial endeavor, as distinguished from a mere expansion, reorganization, or merger of an existing industry or industries. Provided, however, that new industrial property shall be limited to industries that manufacture, mill, mine, produce, process or fabricate materials, or do similar work in which capital and labor are employed and in which materials unserviceable in their natural state are extracted, processed or made fit for use or are substantially altered or treated so as to create commercial products or materials; and in no event shall the term new industrial property be included to mean property used by retail or wholesale merchants, commercial services

And provided further, that new industrial property shall not be included to mean property which is used or employed in any industrial plant which has been in operation in this state for three (3) years or longer. Any person, corporation, firm, partnership, association or other group seeking to qualify its property for inclusion in this class shall make application to the state department of revenue in such manner and form as may be required by said department.

Provided, further, that one who applies for classification of property under this class must make an affidavit to the state department of revenue on a form as may be provided by the state department of revenue supplied without cost to the applicant, as to his income, if applicable, as to his retirement benefits, if applicable, or, as to his marital status, if applicable, and to the fact that he or she actually occupies such improvements with right of the county welfare board to investigate the applicant, on the completion of the form, as to answers given on the form. Provided, further, that the value of said property shall not increase during the life of the recipient of retirement benefits or widow or widower covered under this class. For purposes of the affidavit required for classification of property under this class, it shall be sufficient if the applicant signs a statement swearing to or affirming the correctness of the information supplied, whether or not the statement is signed before a person authorized to administer oaths, and mails the application and statement to the department of revenue. This signed statement shall be treated as a statement under oath or equivalent affirmation for purposes of section 94-7-203, R.C.M. 1947, relating to the criminal offense of false swearing.

CHAPTER NO. 526

AN ACT AMENDING SECTIONS 53-438 AND 40-4403, R.C.M. 1947, TO INCREASE THE MINIMUM PROOF OF FINANCIAL RESPONSIBILITY FROM TEN THOUSAND DOLLARS TO TWENTY-FIVE THOUSAND DOLLARS BECAUSE OF BODILY INJURY TO OR DEATH OF ONE PERSON IN ANY ONE ACCIDENT, TO INCREASE FROM TWENTY THOUSAND DOLLARS TO FIFTY THOUSAND DOLLARS THE AMOUNT REQUIRED FOR BODILY INJURY TO OR DEATH OF TWO (2) OR MORE PERSONS IN ANY ONE ACCIDENT, AND TO INCREASE THE UNINSURED MOTORIST REQUIREMENT.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 53-438, R.C.M. 1947, is amended to read as follows:

"**53-438. Motor vehicle liability policy defined.** (a) A "motor vehicle liability policy" as said term is used in this act shall mean an owner's or operator's policy of liability insurance, certified as provided in section 53-436 or section 53-437 as proof of financial responsibility and issued, except as otherwise provided in section 53-437, by an insurance carrier duly authorized to transact business in this state, to or for the benefit of the person named therein as insured.

(b) Such owner's policy of liability insurance:

1. shall designate by explicit description or by appropriate reference all motor vehicles with respect to which coverage is thereby to be granted; and

2. shall insure the person named therein and any other person, as insured, using any such motor vehicle or motor vehicles with the express or implied permission of such named insured, against loss from the liability imposed by law for damages arising out of the ownership, maintenance

HeinOnline -- 1975 vol. II 1451 1975

or use of such motor vehicle or motor vehicles within the United States of America or the Dominion of Canada, subject to limits exclusive of interest and costs, with respect to each such motor vehicle, as follows: *twenty-five thousand dollars ($25,000)* because of bodily injury to or death of one person in any one accident and subject to said limit for one person, *fifty thousand dollars ($50,000)* because of bodily injury to or death of two or more persons in any one accident, and five thousand dollars ($5,000) because of injury to or destruction of property of others in any one accident.

(c) Such operator's policy of liability insurance shall insure the person named as insured therein against loss from the liability imposed upon him by law for damages arising out of the use by him of any motor vehicle not owned by him, within the same territorial limits and subject to the same limits of liability as are set forth above with respect to an owner's policy of liability insurance.

(d) Such motor vehicle liability policy shall state the name and address of the named insured, the coverage afforded by the policy, the premium charged therefor, the policy period and the limits of liability, and shall contain an agreement or be endorsed that insurance is provided thereunder in accordance with the coverage defined in this act as respects bodily injury and death or property damage, or both, and is subject to all the provisions of this act.

(e) Such motor vehicle liability policy need not insure any liability under any workmen's compensation law nor any liability on account of bodily injury to or death of an employee of the insured while engaged in the employment, other than domestic, of the insured, or while engaged in the operation, maintenance or repair of any such motor vehicle nor any liability for damage to property owned by, rented to, in charge of or transported by the insured.

(f) Every motor vehicle liability policy shall be subject to the following provisions which need not be contained therein:

1. the liability of the insurance carrier with respect to the insurance required by this act shall become absolute whenever injury or damage covered by said motor vehicle liability policy occurs; said policy may not be canceled or annulled as to such liability by any agreement between the insurance carrier and the insured after the occurrence of the injury or damage; no statement made by the insured or on his behalf and no violation of said policy shall defeat or void said policy;

2. the satisfaction by the insured of a judgment for such injury or damage shall not be a condition precedent to the right or duty of the insurance carrier to make payment on account of such injury or damage;

3. the insurance carrier shall have the right to settle any claim covered by the policy, and if such settlement is made in good faith, the amount thereof shall be deductible from the limits of liability specified in subdivision 2 of subsection (b) of this section;

4. the policy, the written application therefor, if any, and any rider or endorsement which does not conflict with the provisions of the act shall constitute the entire contract between the parties.

HeinOnline -- 1975 vol. II 1452 1975

(g) No motor vehicle policy shall be subject to cancellation, termination, or premium increase, due to injury or damage incurred by the insured or operator unless the insured or operator be found to have violated a traffic law or ordinance of the state or a city, be found negligent or contributorily negligent in a court of law, or by the arbitration proceedings contained in chapter 201 of Title 93, R.C.M. 1947, or pays damages to another party whether by settlement or otherwise. In no event may a premium be increased during the term of the policy unless there is a change in exposure.

(h) Any policy which grants the coverage required for a motor vehicle liability policy may also grant any lawful coverage in excess of or in addition to the coverage specified for a motor vehicle liability policy and such excess or additional coverage shall not be subject to the provisions of this act. With respect to a policy which grants such excess or additional coverage the term "motor vehicle liability policy" shall apply only to that part of the coverage which is required by this section.

(i) Any motor vehicle liability policy may provide that the insured shall reimburse the insurance carrier for any payment the insurance carrier would not have been obligated to make under the terms of the policy except for the provisions of this act.

(j) Any motor vehicle liability policy may provide for the prorating of the insurance thereunder with other valid and collectible insurance.

(k) The requirements for a motor vehicle liability policy may be fulfilled by the policies of one or more insurance carriers which policies together meet such requirements.

(1) Any binder issued pending the issuance of a motor vehicle liability policy shall be deemed to fulfill the requirements for such a policy.

(m) A reduced limits endorsement shall not be issued by any company to be attached to any policy issued in compliance with this section."

Section 2. Section 40-4403, R.C.M. 1947, is amended to read as follows:

"**40-4403. Motor vehicle liability policies to include uninsured motorist coverage — rejection of coverage by insured.** No automobile liability or motor vehicle liability policy insuring against loss resulting from liability imposed by law for bodily injury or death suffered by any person arising out of the ownership, maintenance, or use of a motor vehicle, shall be delivered or issued for delivery in this state, with respect to any motor vehicle registered or principally garaged in this state, unless coverage is provided therein or supplemental thereto, in limits for bodily injury or death set forth in section *53-438*, under provisions filed with and approved by the insurance commissioner, for the protection of persons insured thereunder who are legally entitled to recover damages from owners or operators of uninsured motor vehicles because of bodily injury, sickness or disease, including death, resulting therefrom; provided, that the named insured shall have the right to reject such coverage; and, provided further, that unless the named insured requests such coverage in writing, such coverage need not be provided in or supplemental to a

HeinOnline -- 1975 vol. II 1453 1975

renewal policy where the named insured had rejected the coverage in connection with the policy previously issued to him by the same insurer."

Approved May 1, 1975.

CHAPTER NO. 527

AN ACT TO PROTECT LAKESHORES BY REQUIRING A PERMIT FOR ANY WORK WHICH WOULD ALTER OR DIMINISH A LAKE; REQUIRING LOCAL GOVERNING BODIES TO ADOPT REGULATIONS GOVERNING THE ISSUANCE OF SUCH PERMITS; PROVIDING FOR VARIANCES, JUDICIAL REVIEW, AND FUNDING; AND PROVIDING AN EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. There is a new R.C.M. section numbered 89-3701 that reads as follows:

89-3701. Declaration of policy. The legislature finds and declares that the natural lakes of Montana are high in scenic and resource values and that the conservation and protection of these lakes is important to the continued value of lakeshore property as well as to the state's residents and visitors who use and enjoy the lakes. The legislature further declares that local governments should play the primary public roles in establishing policies to conserve and protect lakes. Local governments do not have adequate statutory powers to protect their lake areas, and it is the purpose of this act to confer such powers on local governments, provided that such powers are exercised to maintain public health, welfare, and safety.

Section 2. There is a new R.C.M. section numbered 89-3702 that reads as follows:

89-3702. Definitions. As used in this act—

(1) "Lake" means a body of standing water, and the area within its lakeshore, occurring naturally rather than by virtue of constructed impoundments (although a natural lake whose level is raised and whose area is increased by the construction of impoundments includes the additional level and area), having a water surface area of at least one hundred sixty (160) acres for at least six (6) months in a year of average precipitation as such averages are determined by the United States Geological Survey, not used exclusively for agricultural purposes, and navigable by canoes and small boats. A local governing body may by resolution change the minimum size in the definition of a lake so that this act may apply to natural lakes in the county no smaller than twenty (20) acres in water surface area.

(2) "Lakeshore" is the perimeter of a lake when the lake is at mean annual high water elevation, including the land within twenty (20) horizontal feet from that high water elevation.

HeinOnline -- 1975 vol. II 1454 1975

(3) "Mean annual high water elevation" is the mean average of the highest elevation of a lake in each of at least five (5) consecutive years, excluding any high levels caused by erratic or unusual weather or hydrological conditions. A highest elevation caused by operation of a dam or other impoundment counts toward the establishment of the mean annual high water elevation.

(4) "Local governing body" or "governing body" is that unit of local government authorized to administer the Montana Subdivision and Platting Act on the land adjoining a lake or part of a lake subject to this act.

Section 3. There is a new R.C.M. section numbered 89-3703 that reads as follows:

89-3703. Work for which permit required. A person who proposes to do any work which will alter or diminish the course, current, or cross-sectional area of a lake or its lakeshore must first secure a permit for the work from the local governing body. Without limitation, the following activities are, when conducted below mean annual high water elevation, examples of work for which a permit is required: construction of channels and ditches; dredging of lake bottom areas to remove muck, silt, or weeds; lagooning; filling; constructing breakwaters of pilings; wharves and docks.

Section 4. There is a new R.C.M. section numbered 89-3704 that reads as follows:

89-3704. Criteria for issuance of permits. (1) Before January 1, 1976, every governing body having jurisdiction over an area containing a lake shall adopt regulations, in the form of criteria, for the issuance or denial of permits for work in lakes. Where a planning board has been created under section 11-3801 for an area containing a lake, the governing body shall seek the recommendations of the planning board as to the regulations to be adopted under this act.

(2) The regulations shall favor issuance if the proposed work will not, during either its construction or its utilization:

(a) materially diminish water quality,

(b) materially diminish habitat for fish or wildlife,

(c) interfere with navigation or other lawful recreation,

(d) create a public nuisance, or

(e) create a visual impact discordant with natural scenic values, as determined by the local governing body, where such values form the predominant landscape elements.

(3) The local governing body may provide a summary procedure to permit work which it finds has a minimal or insignificant impact on a lakeshore.

(4) A governing body whose area contains more than one lake may adopt regulations in differing form for the various lakes, recognizing the physical and social differences between lakes.

HeinOnline -- 1975 vol. II 1455 1975

(5) The requirements of subsection (2) of this section are minimum requirements and do not restrict a local governing body from adopting such stricter or additional regulations as may be authorized by other statutes.

(6) The department of natural resources and conservation may, upon petition of five (5) owners or thirty percent (30%) of the owners of land abutting a lake, whichever is smaller, adopt such regulations for the particular lake. The department may then exercise the powers conferred upon a local governing body by this act until the governing body adopts the necessary regulations.

Section 5. There is a new R.C.M. section numbered 89-3705 that reads as follows:

89-3705. Application for permits — procedure. A person seeking a permit for work in a lake shall apply to the local governing body, and shall pay an application fee of ten dollars ($10) to the governing body. Where a planning board has been created under section 11-3801 for the area containing the lake in question, the governing body shall seek the recommendation of the planning board as to the compliance of the proposed work with the criteria for the issuance of a permit. The planning board shall report its recommendations to the governing body as to whether the proposed work conforms to the criteria for issuance of a permit, and may require the applicant to submit additional information before the board reports its recommendations. In areas where a planning board is not established, the functions of a planning board under this section shall be exercised by the local governing body.

Section 6. There is a new R.C.M. section numbered 89-3706 that reads as follows:

89-3706. Consideration of applications by governing body. Unless the applicant agrees to an extension of time, the governing body shall grant or deny permission for the work within ninety (90) days of receiving an application for a permit. If the governing body finds that the proposed work conforms to the criteria for issuing a permit it shall issue a permit or conditional permit. If the governing body finds that the work does not conform to the criteria, it shall deny the application.

Section 7. There is a new R.C.M. section numbered 89-3707 that reads as follows:

89-3707. Variance procedure. A governing body which proposes to grant a variance from its regulations under this act shall first prepare an environmental impact statement at the expense of the applicant which conforms to the requirements of regulations adopted pursuant to this act, distribute this statement to interested residents, and conduct a public hearing on the proposed action.

Section 8. There is a new R.C.M. section numbered 89-3708 that reads as follows:

89-3708. Restoration — property rights. (1) A person who performs work in a lake after the effective date of this act without a permit for

HeinOnline -- 1975 vol. II 1456 1975

that work shall, if required by the local governing body or the district court, restore the lake to its condition before he disturbed it.

(2) Work or development authorized or approved under this act shall not create a vested property right in the permitted development, other than in the physical structure, if any, so developed.

Section 9. There is a new R.C.M. section numbered 89-3709 that reads as follows:

89-3709. Cooperation between governing bodies. If a lake, as defined by this act, is located under the jurisdiction of more than one governing body, the governing bodies are empowered and encouraged to enter into agreements to effectuate the purposes of this act, and establish compatible criteria for denial or issuance of permits.

Section 10. There is a new R.C.M. section numbered 89-3710 that reads as follows:

89-3710. Judicial enforcement and review. The district court may hear and decide the following cases arising under this act within the district:

(1) A complaint and petition of a governing body or an interested person for an order to restore a lake to its previous condition or to enjoin further work in a lake.

(2) A petition of an interested person for review of a final action of a governing body upon an application for a permit.

(3) A petition of an interested person for review of an action of a governing body in adopting or amending regulations.

Section 11. There is a new R.C.M. section numbered 89-3711 that reads as follows:

89-3711. Penalty. A person who violates an order issued under this act or who knowingly violates a regulation made under this act commits a misdemeanor, and on conviction may be sentenced to thirty (30) days in the county jail or fined five hundred dollars ($500), or both. Fines collected under this section shall be paid to the general fund of the county where the offense was committed for the purpose of administering this act.

Section 12. **Severability.** If a part of this act is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of this act is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.

Section 13. There is a new R.C.M. section numbered 89-3712 that reads as follows:

89-3712. Funding. In compliance with section 43-517, R.C.M. 1947, the administration of this act is declared a public purpose of a city or county which may be paid out of permit application fees collected under section 89-3705 and federal revenue sharing moneys.

Section 14. **Effective date.** This act is effective upon passage and approval.

Approved May 1, 1975.

Section 2. Section 69-5003, R.C.M. 1947, is amended to read as follows:

(2) A county clerk and recorder may not accept a subdivision plat for filing until:

(a) the person wishing to file the plat has obtained approval of the local health officer having jurisdiction and has filed the approval with the department; and

Within sixty (60) days of this submission, based upon its receipt by the department, the department shall notify the developer if the material submitted is satisfactory to determine if sanitary restrictions are necessary and if not what additional information is required for subsequent action by the department.

(b) If additional information is necessary to determine if sanitary restrictions are necessary no further processing will be made on the request until the mission information is made available to the department by the developer.

(c) The department must notify the developer within thirty (30) days if his submission of additional requested material is satisfactory. If the material is not satisfactory, the provision of subsection (b) shall apply.

(d) After the department has notified the developer that they have all the necessary information required for review, the department must give final action of the proposed plan within sixty (60) days, unless an environmental impact statement is required, at which time this deadline may be increased to one hundred twenty (120) days.

HeinOnline -- 1975 vol. II 1462 1975

(4) A person may not construct or use any facilities which deviate from the plans and specifications filed with the department until the department has approved the deviation."

Section 3. Section 69-5005, R.C.M. 1947, is amended to read as follows:

CHAPTER NO. 531

AN ACT AMENDING SECTION 41-701, R.C.M. 1947; PROVIDING FOR PROCEDURES FOR COMPLIANCE WITH SECTION 41-701, PROVIDING PROCEDURES TO INSURE PAYMENT OF STANDARD PREVAILING RATES OF WAGES UNDER PUBLIC WORKS CONTRACTS; PROVIDING FOR PUBLIC POSTING OF A STATEMENT OF WAGES; AND PROVIDING PENALTIES FOR NONPAYMENT; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 41-701, R.C.M. 1947, is amended to read as follows:

"**41-701. Preference of Montana labor in public works—wage scale—not to conflict with federal statutes.** In all contracts hereafter let for state, county, municipal, school, heavy highway or municipal construction, services, repair and maintenance work under any of the laws of this state there shall be inserted in each of said contracts a provision by which the contractor must give preference to the employment of bona fide Montana residents in the performance of said work, and that the said contractor must further pay the standard prevailing rate of wages including fringe benefits for health and welfare and pension contributions, and travel allowance provisions in effect and applicable to the county or locality in which the work is being performed. "Standard prevailing rate of wages including fringe benefits for health and welfare and pension contributions, and travel allowance provisions, applicable to the county or locality in which the work is being performed," means those wages including fringe benefits for health and welfare and pension contributions, and travel allowance provisions which are paid in the county or locality by other contractors for work of a similar character performed in that county or locality by each craft, classification or type of *worker* needed to complete a contract under this act. When work of a similar character is not being performed in the county or locality, the standard prevailing rate of wages including fringe benefits for health and welfare and pension contributions, and travel allowance provisions shall be those rates established by collective bargaining agreements in effect in the county or locality for each craft, classification or type of *worker* needed to complete the contract. No contract shall be let to any person, firm, association or corporation refusing to execute an agreement with the above-mentioned provisions in it; provided that, in contracts involving the expenditure of federal aid funds this act shall not be enforced in such a manner as to conflict with or be contrary to the federal statutes prescribing a labor preference to honorably discharged soldiers, sailors and marines, and prohibiting as unlawful any other preference or discrimination among citizens of the United States. All public works contracts under this act shall be approved in writing by the legal adviser of the contracting state, county, municipal corporation, school district, assessment district or special improvement district body or officer prior to execution by the contracting public officer

HeinOnline -- 1975 vol. II 1466 1975

or officers. Whenever the employer is not signatory party to a collective bargaining agreement, those moneys designated as negotiated fringe benefits shall be paid to the employee as wages.

(1) The Montana commissioner of labor may determine the standard prevailing rate of wages in the county or locality in which the contract is to be performed. The commissioner shall undertake to keep and maintain copies of collective bargaining agreements and other information from which rates and jurisdictional areas applicable to public works contracts under this act may be ascertained.

(2) Contractors, subcontractors, and employers who are performing work or providing services under public works contracts as provided in this act shall post in a prominent and accessible site on the project or work area, not later than the first day of work, a legible statement of all wages to be paid to the employees employed on such site or work area.

(3) Any contractor, subcontractor or employer who shall pay workers or employees at less than the standard prevailing wage as established under the public works contract shall forfeit to the contracting agency the sum of twenty-five dollars ($25) a day for each worker so underpaid. Whenever it shall appear to the contracting agency or to the Montana commissioner of labor that there are insufficient monies due to the contractor or the employer under the terms of the contract to cover such penalties, the Montana commissioner of labor may within ninety (90) days after the filing of notice of completion of the project and its acceptance by the contracting agency, maintain an action in district court to recover all such penalties and forfeitures due. Nothing in this section shall prevent the individual worker who has been underpaid from maintaining an action for recovery of the wages due under the contract as provided in chapter 13 of this Title.

(4) The provisions of this act do not apply in those instances where the standard prevailing rate of wages is determined pursuant to federal law.

(5) In no instances where this act is applicable shall the standard prevailing rate of wage be determined to be greater than the applicable rate of wage in the area for the particular work in question as negotiated under existing and current collective bargaining agreements."

Section 2. This act is effective on its passage and approval.

Approved May 1, 1975.

CHAPTER NO. 533

AN ACT RELATING TO THE RENEWABLE RESOURCE DEVELOPMENT PROGRAM OF THE STATE, PROVIDING THE METHOD OF ACCOUNTING FOR FUNDS APPROPRIATED FOR THE PROGRAM, PROVIDING FOR THE CREATION OF STATE DEBT BY THE ISSU-

HeinOnline -- 1975 vol. II 1468 1975

ANCE OF BONDS IN ANTICIPATION OF THE RECEIPT OF SUCH FUNDS, SUPPORTED BY THE PLEDGE OF THE FULL FAITH AND CREDIT OF THE STATE, PROVIDING FOR MAKING RENEWABLE RESOURCE DEVELOPMENT LOANS AND GRANTS, AND APPROPRIATING COAL TAX REVENUES AND GENERAL FUND MONEY FOR THESE PURPOSES.

Be it enacted by the Legislature of the State of Montana:

Section 1. There is a new R.C.M. section numbered 89-3601 that reads as follows:

89-3601. Policy. In the development of the natural resources of the state it is essential to distinguish between those which are and those which are not renewable; to make proper charges through taxation and otherwise for the depreciation of nonrenewable resources; and to invest a proper proportion of the tax and other revenues from nonrenewable resources in the replacement thereof with developments of renewable natural resources that will preserve for the citizens the benefit of the state's natural heritage and to ensure that the quality of existing public resources such as land, air, water, fish, wildlife and recreational opportunities are not significantly diminished by developments supported by this act. In order to finance such developments it is necessary to borrow in anticipation of the receipt of the revenues, so that replacement will not lag behind consumption. The purpose of this act is to provide a procedure for borrowing in the most economical way for this purpose, and to authorize the creation of debt to finance the first stage of the program, and to describe the types of projects, loans, and grants to be included in the program.

Section 2. There is a new R.C.M. section numbered 89-3602 that reads as follows:

89-3602. Definitions. Unless the context requires otherwise, in this act:

(1) "Renewable resource development program" means such developments in the public interest of renewable natural resources of the state as shall from time to time be acquired, constructed, and financed from funds appropriated to the accounts referred to in this section, and from the proceeds of bonds issued in anticipation of the receipt of these funds. Renewable resource developments shall, whenever practicable, be multiple use projects, and shall not significantly diminish the quality of existing public resources such as land, air, water, fish, wildlife and recreational opportunities.

(2) "Renewable resource development bonds" mean all series of bonds authorized by law to be issued pursuant to section 89-3606 to finance any part of the renewable resource development program, or to refund any such bonds.

(3) "Renewable resource development account", or "clearance fund account", mean a separate account which is created within the bond and

HeinOnline -- 1975 vol. II 1469 1975

insurance clearance fund established in section 79-410, and shall be segregated by the treasurer from all other money in that or any other fund in the state treasury and used only to pay costs of the renewable resource development program, upon order of the department of administration or the board of natural resources and conservation under authority and within limitations provided by law.

(4) "Renewable resource development bond account", or "sinking fund account", mean a separate account which is created within the sinking fund established in section 79-410, and shall be segregated by the treasurer from all other money in that or any other fund in the treasury and used only as provided for herein.

(5) "Treasurer" means the state treasurer.

Section 3. There is a new R.C.M. section numbered 89-3603 that reads as follows:

89-3603. Renewable resource development loans. (1) The board of natural resources and conservation is authorized upon proper application and upon recommendation of the department of natural resources and conservation to make loans from the renewable resource development account established by this act to farmers and ranchers of the state of Montana who, without regard to their form of business organization:

(a) are citizens of the United States and are citizens and residents of the state of Montana;

(b) have sufficient farming or ranching training and experience which, in the opinion of the department, is sufficient to assure the likelihood of the success of the proposed operations; and

(c) are or will become owner-operators of farms or ranches.

(2) The department shall solicit and consider in its evaluation of proposed projects the views of interested and affected departments, boards, agencies and other subdivisions of state and federal government and of other interested and affected persons.

(3) The board may make the renewable resource development loans provided for by this section for any worthwhile project for the conservation, management, utilization, development, or preservation of the land, water, fish, wildlife, recreational, and other renewable resources in the state; and for the refinancing of existing indebtedness incurred in the expansion or rehabilitation of projects for those purposes.

(4) The board shall make no renewable resource development loan which exceeds the lesser of one hundred thousand dollars ($100,000), or eighty percent (80%) of the fair market value of the security given therefor. In determining the fair market value for the security given for any loan, the department shall consider appraisals made by qualified appraisers and such other factors it considers important.

(5) The period for repayment of loans pursuant to this act may not exceed thirty (30) years.

(6) The board shall from time to time establish by rule the interest

HeinOnline -- 1975 vol. II 1470 1975

rate at which loans may be made under this act, provided that in no case may the rate be greater than one (1) percentage point greater than the prevailing interest rate on the renewable resource development bonds provided for in this act.

(7) The state shall have a lien upon a project constructed with money from the renewable resource development account for the amount of the loan, together with the interest thereon. This lien may attach to all project facilities, equipment, easements, real property and property of any kind of nature owned by the debtor, including all water rights. The board shall file either a financing statement or a real estate mortgage covering the loan, its amount, terms and a description of the project with the county recorder of each county in which the project or any part thereof is located. The county recorder shall record the lien in a book kept for the recording of liens and it shall be indexed as other liens are required by law to be indexed. The lien shall be valid until paid in full or otherwise discharged. The lien shall be foreclosed in accordance with applicable state law governing foreclosure of mortgages and liens.

(8) The board may adopt rules as required to govern the terms and conditions for making loans, security instruments, and agreements pursuant to this act.

(9) No member, officer, attorney, or other employee of the board or the department shall, directly or indirectly, be the beneficiary of or receive any fee, commission, gift, or other consideration for or in connection with any transaction or business under this act other than such salary, fee, or other compensation as he may receive as such member, officer, attorney, or employee. Any person violating any provision of this section shall, upon conviction thereof be punished by a fine of not more than two thousand dollars ($2,000) or imprisonment for not more than two (2) years or both.

(10) The department shall administer the loans made by the board pursuant to this act, and may accept and utilize voluntary and uncompensated services, and, with the consent of the agency concerned, utilize the officers, employees, equipment, and information of any agency of the federal government, or of any agency of Montana government, or of any political subdivision within Montana.

Section 4. There is a new R.C.M. section numbered 89-3604 that reads as follows:

89-3604. State renewable resource development grants. (1) The department of administration may recommend to the governor that grants from the renewable resource development account provided for by this act be made to any department, agency, board, commission, or other division of state government. Unless specifically authorized by the legislature, no bond proceeds shall be used for the purpose of making grants; grants may only be made in such sums as may be deposited in the sinking fund account from the collection of the strip coal mines license tax payable under the provisions of section 84-1302 as provided in section 89-3607.

(2) The department shall solicit and consider in its evaluation of proposed projects the views of interested and affected departments, boards,

HeinOnline -- 1975 vol. II 1471 1975

agencies and other subdivisions of state and federal government and of other interested and affected persons.

(3) The governor shall submit those grant proposals having his approval to the legislature by the twentieth day of any legislative session. Those grant proposals approved by the legislature shall be administered by the department.

(4) The grants provided for by this section may be made for the purchase, lease, or construction of projects for the conservation, management, utilization, development or preservation of the land, water, fish, wildlife, recreational and other renewable resources in the state; for the purpose of feasibility and design studies for such projects; for development of plans for the rehabilitation, expansion or modification of existing projects; and for such other and further similar purposes as the legislature may approve.

(5) The department may adopt rules as required to govern the terms and conditions for making grants pursuant to this section.

Section 5. There is a new R.C.M. section numbered 89-3605 that reads as follows:

89-3605. State and local renewable resource development loans. (1) The department of administration may recommend to the governor that loans be made from the renewable resource development account established by this act to any department, agency, board, commission or other division of state government, or to any city, county, or other political subdivision or local government body of the state.

(2) The department shall solicit and consider in its evaluation of proposed projects the views of interested and affected departments, boards, agencies and other subdivisions of state and federal government and of other interested and affected persons.

(3) The governor shall submit those loan proposals having his approval to the legislature by the twentieth day of any legislative session. Those loan proposals approved by the legislature shall be administered by the department.

(4) The provisions of section 89-3603, subsection (2) and subsections (4) through (9) shall govern and apply to the local renewable resource loans herein provided for.

(5) Both the loans provided for by this section and the grants provided for by section 89-3604 may be submitted to the governor and approved by the legislature as may be necessary to jointly finance any project.

Section 6. There is a new R.C.M. section numbered 89-3606 that reads as follows:

89-3606. Renewable resource development bonds. (1) Within the limits authorized by section 89-3609, and within the further limitations in this section, the state board of examiners may issue and sell bonds of the state in such manner as it considers necessary and proper to finance the renewable resource development program. The full faith and credit

HeinOnline -- 1975 vol. II 1472 1975

and taxing powers of the state shall be pledged for the prompt and full payment of all bonds so issued and interest and redemption premiums payable thereon according to their terms.

(2) Each series of such bonds shall be issued by the state board of examiners upon request of the department of administration or the board of natural resources and conservation, in such denominations and forms, whether payable to bearer with attached interest coupons or registered as to principal or as to both principal and interest, with such provisions for conversion or exchange and for the issuance of notes in anticipation of the issuance of definitive bonds, bearing interest at such rate or rates, maturing at such time or times not exceeding thirty (30) years from date of issue, subject to optional or mandatory redemption at such earlier times and prices and upon such notice, with such provisions for payment and discharge by the deposit of funds or securities in escrow for that purpose, and payable at the office of such banking institution or institutions within or outside the state, as the board shall determine subject to the limitations contained in this section.

(3) In the issuance of each series of such bonds the interest rates and the maturities and any mandatory redemption provisions thereof shall be established in such manner that the funds then specifically pledged and appropriated by law to the sinking fund account will in the judgment of the board be received in an amount sufficient in each year to pay all principal, redemption premiums, and interest due and payable in that year with respect to that and all prior series of such bonds, except outstanding bonds as to which the obligation of the state has been discharged by the deposit of funds or securities sufficient for their payment in accordance with the terms of the resolutions by which they are authorized to be issued.

(4) In all other respects the state board of examiners is authorized to prescribe the form and terms of the bonds, and shall do whatever is lawful and necessary for their issuance and payment. Such bonds and any interest coupons appurtenant thereto shall be signed by the members of the state board of examiners, and the bonds shall be issued under the great seal of the state of Montana. The bonds and coupons may be executed with facsimile signatures and seal in the manner and subject to the limitations prescribed by law. The state treasurer shall keep a record of all such bonds issued and sold.

(5) All proceeds of bonds issued hereunder, other than refunding bonds, shall be deposited in the clearance fund account, except that any principal and accrued interest received in repayment of the loans provided for in this act shall be deposited in the sinking fund account. All proceeds of refunding bonds shall be deposited in the sinking fund account and applied to the payment and redemption of outstanding bonds issued hereunder as directed by the board, whether at maturity or on any previous date on which they may be prepaid according to their terms.

(6) The state board of examiners is authorized to issue refunding bonds at such times and in such amounts, if any, as may be necessary to pay principal or interest due which cannot be paid from funds then on hand in the sinking fund account. It may also issue refunding bonds to refund

HeinOnline -- 1975 vol. II 1473 1975

outstanding bonds before maturity, for the purpose of extending the maturities thereof so far as determined by the board to be necessary to assure that the funds then pledged to the sinking fund account will be sufficient for payment of principal and interest due in subsequent years. It may also issue refunding bonds to refund outstanding bonds before maturity for the purpose of reducing the interest cost or the total amount of principal and interest payable thereon.

(7) No refunding bonds may be issued and sold more than three (3) months before all bonds refunded thereby mature or are called for redemption unless the proceeds thereof, with any other funds in the sinking fund account which are needed and available for the purpose, or securities purchased from such proceeds and other funds, are deposited with a suitable banking institution within or outside the state, in escrow for the retirement of the refunded bonds at maturity or at a prior date or dates on which they have been called for redemption in accordance with their terms, in an amount and in a manner sufficient under the provisions securing the refunded bonds so that the state's obligation to pay the same, from sources other than the escrow fund, is discharged.

(8) No new debt may be created by the issuance of refunding bonds in accordance with this section, but such refunding bonds shall evidence the debt previously created and shall be secured by the pledge of the full faith and credit and taxing powers of the state and by the further provisions of this act in the same manner as the bonds refunded thereby.

Section 7. There is a new R.C.M. section numbered 89-3607 that reads as follows:

89-3607. Sinking fund account. (1) The state may by enactment of the legislature or the people levy, impose, assess, and pledge and appropriate to the sinking fund account any tax, charge, fee, rental or other income from any designated source. The state reserves the right to modify from time to time the nature and amount of special taxes and other revenues pledged and appropriated to the sinking fund account, provided that the aggregate resources so pledged and appropriated are determined by the legislature to be sufficient for the prompt and full payment of the principal of and interest and redemption premiums when due on all bonds payable from that account, and provided that the pledge of the full faith and credit and taxing powers of the state for the security of all such bonds shall be and remain irrevocable until they are fully paid.

(2) Money in the sinking fund account shall be used first to pay interest, principal and redemption premiums when due and payable with respect to renewable resource development bonds; second to accumulate a reserve for the further security of such payments, to the amount required each month to meet those payments due within twelve (12) months thereafter; and third to restore the reserve to this amount after each payment.

(3) After the reserve provided for in subsection (2) above is in the sinking fund, money at any time received in the sinking fund in excess of that amount shall be transferred by the treasurer to the clearance fund account. If the balance at any time on hand in the sinking fund is not

HeinOnline -- 1975 vol. II 1474 1975

sufficient for compliance with subsection (2), and is not restored to the required amount within three (3) months thereafter, from funds specifically pledged and appropriated to the sinking fund account, the treasurer shall transfer thereto from the general fund an amount sufficient to restore the required balance.

(4) The state pledges and appropriates and directs to be credited to the sinking fund account as received two and one-half percent (2 ½%) of all money from time to time received from the collection of the strip coal mines license tax payable under the provisions of section 84-1302, or the equivalent provision of any severance tax enacted in lieu of such license tax, and such additional amount thereof, if any, as may be required from time to time to provide sufficient funds for the purposes stated in subsection (2) above; provided that no more than two and one-half percent (2 ½%) of such tax collections shall be deemed to be pledged for the purpose of section 89-3606, subsection (3).

(2) The state pledges and appropriates and directs to be credited from the general fund to the clearance fund account three hundred ninety thousand, nine hundred seventy-four dollars ($390,974) for its initial funding to be used and administered as provided for in this act. When sufficient funds have been accumulated in the clearance fund account from bond proceeds or as otherwise provided for in this act, the legislature directs that three hundred ninety thousand, nine hundred seventy-four dollars ($390,974) be appropriated from the clearance fund account and credited to the general fund.

(3) The costs of the board of examiners, the board of natural resources and conservation, the department of natural resources and conservation, and the department of administration incurred in the administration of this act shall be met from the clearance fund account monies which shall from time to time as needed be transferred to an earmarked revenue fund established for that purpose.

(4) The board of examiners, the department of natural resources and the department of administration may, within the limits of appropriation made therefore, make necessary expenditures for the purchase or hire of such personnel, facilities, and services as they may from time to time find necessary for the proper administration of this act.

(5) The general fund appropriation provided for by subsection (2) of this section as the initial funding for the programs provided for by this act shall be appropriated and used as follows for the biennium ending June 30, 1977:

Section 1. Section 93-9913, R.C.M. 1947, is amended to read as follows:

"**93-9913. The date with respect to which compensation shall be assessed.** For the purpose of assessing compensation the right thereto shall be deemed to have accrued at the date of the service of the summons, and its actual value as of that date shall be the measure of compensation for all property to be actually taken, and the basis of depreciation in value of property not actually taken, but injuriously affected. If an order be made letting the plaintiff into possession, as provided in section 93-9920, the full amount finally awarded shall draw *interest at the rate of ten percent (10%) per annum* from the date on which the property owner surrenders possession of the property in accordance with the terms of such order to the earlier of the following dates:

Upon a redemption by a debtor, or *the debtor's spouse*, the person to whom the payment was made must execute and deliver to him or her a certificate of redemption, acknowledged or proved before an officer authorized to take acknowledgments of conveyances of real property. Such certificate must be filed and recorded in the office of the county clerk of the county in which the property is situated, and the county clerk must note the record thereof in the margin of the record of the certificate of sale.

(3) If a stockholder of a corporation redeems, the corporation, within one (1) year after the date of sale, may redeem by paying to the redemptioner, or the sheriff for his benefit, the amount paid to effect the redemption, with interest thereon at the rate of one-half of one per cent (½%) per month from the date of redemption until the date of such payment, together with any taxes or assessments that may have been paid by the redemptioner, with like interest thereon. When a stockholder redeems, any other stockholder or stockholders may, at any time after such redemption, and within sixty (60) days after the expiration of one (1) year from the date of sale, contribute to the redemption by paying to the redeeming stockholder, or depositing with the sheriff for his benefit, a sum which bears the same proportion to the amount necessary to redeem which the number of shares owned by such contributing stockholder or stockholders bears to the number of shares of such corporation outstanding, with interest on such sum from the date of redemption until the date of contribution at the rate of one-half of one per cent (½%) per month, together with a like proportion of the taxes or assessments paid by such redeeming stockholder, with like interest thereon, and if the corporation does not redeem the property within the time and in the manner and form as aforesaid, the said redeeming and contributing stockholders shall be entitled to receive a sheriff's deed for such property so redeemed, and shall succeed to the said property as tenants in common in such proportions, respectively, as they shall respectively pay or contribute to such redemption as aforesaid. The redeeming or contributing stockholder shall, in all cases when applying to redeem or contribute as aforesaid, present an affidavit, setting forth the number of shares of stock owned by him, and to the best of his knowledge, the number of shares of stock of the corporation outstanding.

(4) If the *spouse* of a judgment debtor redeem, the *judgment debtor*, within one year after the date of sale, may redeem by paying the *spouse* or *the spouse's* successors in interest or the sheriff for *the* benefit *of the spouse or the successors in interest of the spouse*, the amount paid to effect the redemption, with interest thereon at the rate of one-half of one per cent (½%) per month from the date of redemption until the date of such payment, together with any taxes or assessments that may have been paid by the *spouse* or *the* successors in interest *of the spouse*, with like interest thereon."

48-304. Formalities. Marriage is a personal relationship between a man and a woman arising out of a civil contract to which the consent of the parties is essential. (3) Upon receipt of the marriage certificate, the clerk of the district court shall register the marriage.

(c) for lack of capacity to consent because of force, duress or fraud, no later than two (2) years after the petitioner obtained knowledge of the described condition;

(d) for the reason set forth in subsection (1)(b), by either party, no later than four (4) years after the petitioner obtained knowledge of the described condition;

HeinOnline -- 1975 vol. II 1518 1975

(e) for the reason set forth in subsection (1)(c), by the underaged party, his parent or guardian, prior to the time the underaged party reaches the age at which he could have married without satisfying the omitted requirement.

(3) A declaration of invalidity for the reason set forth in subsection (1)(d) may be sought by either party, the legal spouse in case of a bigamous marriage, the county attorney, or a child of either party, at any time prior to the death of one (1) of the parties.

(4) Children born of a marriage declared invalid are legitimate.

(5) Unless the court finds, after a consideration of all relevant circumstances, including the effect of a retroactive decree on third parties, that the interests of justice would be served by making the decree not retroactive, it shall declare the marriage invalid as of the date of the marriage. The provisions of this act relating to property rights of the spouses, maintenance, support, and custody of children on dissolution of marriage are applicable to nonretroactive decrees of invalidity.

Section 12. There is a new R.C.M. section numbered 48-312 that reads as follows:

48-312. Putative spouse. Any person who has cohabited with another to whom he is not legally married in the good faith belief that he was married to that person is a putative spouse until knowledge of the fact that he is not legally married terminates his status and prevents acquisition of further rights. A putative spouse acquires the rights conferred upon a legal spouse, including the right to maintenance following termination of his status, whether or not the marriage is prohibited (section 48-310) or declared invalid (section 48-311). If there is a legal spouse or other putative spouses, rights acquired by a putative spouse do not supersede the rights of the legal spouse or those acquired by other putative spouses, but the court shall apportion property, maintenance, and support rights among the claimants as appropriate in the circumstances and in the interests of justice.

Section 13. There is a new R.C.M. section numbered 48-313 that reads as follows:

48-313. Application. All marriages contracted within this state prior to the effective date of this act, or outside the state, that were valid at the time of the contract or subsequently validated by the laws of the place in which they were contracted or by the domicil of the parties, are valid in this state.

Section 14. There is a new R.C.M. section numbered 48-314 that reads as follows:

48-314. Validity of common law marriage. Common law marriages are not invalidated by this act. Declarations of marriage pursuant to sections 48-130 through 48-132 are not invalidated by this act.

Section 15. There is a new R.C.M. section numbered 48-315 that reads as follows:

HeinOnline -- 1975 vol. II 1519 1975

48-315. Application of the Montana rules of civil procedure to proceedings under this act. (1) The Montana rules of civil procedure apply to all proceedings under this act, except as otherwise provided in this act.

(2) A proceeding for dissolution of marriage, legal separation, or declaration of invalidity of marriage shall be entitled "In re the Marriage of _____ and _____". A custody or support proceeding shall be entitled "In re the (Custody) (Support) of _____".

(3) The initial pleading in all proceedings under this act shall be denominated a petition. A responsive pleading shall be denominated a response. Other pleadings, and all pleadings in other matters under this act, shall be denominated as provided in the Montana rules of civil procedure.

(4) In this act, "decree" includes "judgment".

(5) A decree of dissolution or of legal separation, if made, shall not be awarded to one of the parties, but shall provide that it affects the status previously existing between the parties in the manner decreed.

Section 16. There is a new R.C.M. section numbered 48-316 that reads as follows:

48-316. Dissolution of marriage—legal separation. (1) The district court shall enter a decree of dissolution of marriage if:

(a) the court finds that one of the parties, at the time the action was commenced, was domiciled in this state, or was stationed in this state while a member of the armed services, and that the domicil or military presence has been maintained for ninety (90) days next preceding the making of the findings;

(b) the court finds that the marriage is irretrievably broken, which findings shall be supported by evidence

(i) that the parties have lived separate and apart for a period of more than one hundred eighty (180) days next preceding the commencement of this proceeding, or

(ii) that there is serious marital discord which adversely affects the attitude of one or both of the parties towards the marriage;

(c) the court finds that the conciliation provisions of the Montana Conciliation Law and of section 48-319 either do not apply or have been met; and

(d) to the extent it has jurisdiction to do so, the court has considered, approved, or made provision for child custody, the support of any child entitled to support, the maintenance of either spouse, and the disposition of property; or provided for a separate, later hearing to complete these matters.

(2) If a party requests a decree of legal separation rather than a decree of dissolution of marriage, the court shall grant the decree in that form unless the other party objects.

HeinOnline -- 1975 vol. II 1520 1975

Section 17. There is a new R.C.M. section numbered 48-317 that reads as follows:

48-317. Procedure—commencement—pleadings—abolition of existing defenses. (1) All proceedings under this act are commenced in the manner provided by the Montana rules of civil procedure.

(2) The verified petition in a proceeding for dissolution of marriage or legal separation shall allege that the marriage is irretrievably broken and shall set forth:

(a) the age, occupation, and residence of each party and his length of residence in this state;

(b) the date of the marriage and the place at which it was registered;

(c) that the jurisdictional requirements of section 48-316 exist and that the marriage is irretrieveably broken in that either

(i) the parties have lived separate and apart for a period of more than one hundred eighty (180) days next preceding the commencement of this proceeding, or

(ii) that there is serious marital discord which adversely affects the attitude of one or both of the parties towards the marriage, and that there is no reasonable prospect of reconciliation;

(d) the names, ages, and addresses of all living children of the marriage, and whether the wife is pregnant;

(e) any arrangements as to support, custody, and visitation of the children and maintenance of a spouse; and

(f) the relief sought.

(3) Either or both parties to the marriage may initiate the proceeding.

(4) If a proceeding is commenced by one of the parties, the other party must be served in the manner provided by the Montana rules of civil procedure and may within twenty (20) days after the date of service file a verified response. No decree may be entered until twenty (20) days after the date of service.

(5) Previously existing defenses to divorce and legal separation, including but not limited to condonation, connivance, collusion, recrimination, insanity, and lapse of time, are abolished.

(6) The court may join additional parties proper for the exercise of its authority to implement this act.

Section 18. There is a new R.C.M. section numbered 48-318 that reads as follows:

48-318. Temporary order or temporary injunction. (1) In a proceeding for dissolution of marriage or for legal separation, or in a proceeding for disposition of property or for maintenance or support following dissolution of the marriage by a court which lacked personal jurisdiction over the absent spouse, either party may move for temporary maintenance

HeinOnline -- 1975 vol. II 1521 1975

or temporary support of a child of the marriage entitled to support. The motion shall be accompanied by an affidavit setting forth the factual basis for the motion and the amounts requested.

(2) As a part of a motion for temporary maintenance or support or by independent motion accompanied by affidavit, either party may request the court to issue a temporary injunction for any of the following relief:

(a) restraining any person from transferring, encumbering, concealing, or otherwise disposing of any property except in the usual course of business or for the necessities of life, and, if so restrained, requiring him to notify the moving party of any proposed extraordinary expenditures made after the order is issued;

(b) enjoining a party from molesting or disturbing the peace of the other party or of any child;

(c) excluding a party from the family home or from the home of the other party upon a showing that physical or emotional harm would otherwise result;

(d) enjoining a party from removing a child from the jurisdiction of the court; and

(e) providing other injunctive relief proper in the circumstances.

(3) The court may issue a temporary restraining order without requiring notice to the other party only if it finds on the basis of the moving affidavit or other evidence that irreparable injury will result to the moving party if no order is issued until the time for responding has elapsed.

(4) A response may be filed within twenty (20) days after service of notice of motion or at the time specified in the temporary restraining order.

(5) On the basis of the showing made and in conformity with sections 48-322 and 48-323, the court may issue a temporary injunction and an order for temporary maintenance or support in amounts and on terms just and proper in the circumstance.

(6) A temporary order or temporary injunction:

(a) does not prejudice the rights of the parties or the child which are to be adjudicated at subsequent hearings in the proceeding;

(b) may be revoked or modified before final decree on a showing by affidavit of the facts necessary to revocation or modification of a final decree under section 48-330; and

(c) terminates when the final decree is entered or when the petition for dissolution or legal separation is voluntarily dismissed.

Section 19. There is a new R.C.M. section numbered 48-319 that reads as follows:

48-319. Irretrievable breakdown. (1) If both of the parties by petition or otherwise have stated under oath or affirmation that the marriage

HeinOnline -- 1975 vol. II 1522 1975

is irretrievably broken, or one of the parties has so stated and the other has not denied it, the court, after hearing, shall make a finding whether the marriage is irretrievably broken.

(2) If one of the parties has denied under oath or affirmation that the marriage is irretrievably broken, the court shall consider all relevant factors, including the circumstances that gave rise to filing the petition and the prospect of reconciliation, and shall:

(a) make a finding whether the marriage is irretrievably broken; or

(b) continue the matter for further hearing not fewer than thirty (30) nor more than sixty (60) days later, or as soon thereafter as the matter may be reached on the court's calendar, and may suggest to the parties that they seek counseling. The court at the request of either party shall, or on its own motion may, order a conciliation conference. At the adjourned hearing the court shall make a finding whether the marriage is irretrievably broken.

(3) A finding of irretrievable breakdown is a determination that there is no reasonable prospect of reconciliation.

(4) Nothing in this section shall be interpreted to affect the provisions of sections 36-201 through 36-205, known as the Montana Conciliation Law.

Section 20. There is a new R.C.M. section numbered 48-320 that reads as follows:

48-320. Separation agreement. (1) To promote amicable settlement of disputes between parties to a marriage attendant upon their separation or the dissolution of their marriage, the parties may enter into a written separation agreement containing provisions for disposition of any property owned by either of them, maintenance of either of them, and support, custody, and visitation of their children.

(2) In a proceeding for dissolution of marriage or for legal separation, the terms of the separation agreement, except those providing for the support, custody, and visitation of children, are binding upon the court unless it finds, after considering the economic circumstances of the parties and any other relevant evidence produced by the parties, on their own motion or on request of the court, that the separation agreement is unconscionable.

(3) If the court finds the separation agreement unconscionable, it may request the parties to submit a revised separation agreement or may make orders for the disposition of property, maintenance, and support.

(4) If the court finds that the separation agreement is not unconscionable as to disposition of property or maintenance, and not unsatisfactory as to support:

(a) unless the separation agreement provides to the contrary, its terms shall be set forth in the decree of dissolution or legal separation and the parties shall be ordered to perform them, or

(b) if the separation agreement provides that its terms shall not be

HeinOnline -- 1975 vol. II 1523 1975

set forth in the decree, the decree shall identify the separation agreement and state that the court has found the terms not unconscionable.

(5) Terms of the agreement set forth in the decree are enforceable by all remedies available for enforcement of a judgment, including contempt, and are enforceable as contract terms.

(6) Except for terms concerning the support, custody, or visitation of children, the decree may expressly preclude or limit modification of terms set forth in the decree if the separation agreement so provides. Otherwise, terms of a separation agreement set forth in the decree are automatically modified by modification of the decree.

Section 21. There is a new R.C.M. section numbered 48-321 that reads as follows:

48-321. Disposition of property. (1) In a proceeding for dissolution of a marriage, legal separation, or disposition of property following a decree of dissolution of marriage or legal separation by a court which lacked personal jurisdiction over the absent spouse or lacked jurisdiction to dispose of the property, the court, without regard to marital misconduct, shall, and in a proceeding for legal separation may, finally equitably apportion between the parties the property and assets belonging to either or both however and whenever acquired, and whether the title thereto is in the name of the husband or wife or both. In making apportionment the court shall consider the duration of the marriage, and prior marriage of either party, antenuptial agreement of the parties, the age, health, station, occupation, amount and sources of income, vocational skills, employability, estate, liabilities, and needs of each of the parties, custodial provisions, whether the apportionment is in lieu of or in addition to maintenance, and the opportunity of each for future acquisition of capital assets and income. The court shall also consider the contribution or dissipation of value of the respective estates, and the contribution of a spouse as a homemaker or to the family unit. In disposing of property acquired prior to the marriage; property acquired by gift, bequest, devise or descent; property acquired in exchange for property acquired before the marriage or in exchange for property acquired by gift, bequest, devise, or descent; the increased value of property acquired prior to marriage; and property acquired by a spouse after a decree of legal separation, the court shall consider those contributions of the other spouse to the marriage, including the non-monetary contribution of a homemaker; the extent to which such contributions have facilitated the maintenance of this property and whether or not the property disposition serves as an alternative to maintenance arrangements.

(2) In a proceeding, the court may protect and promote the best interests of the children by setting aside a portion of the jointly and separately held estates of the parties in a separate fund or trust for the support, maintenance, education, and general welfare of any minor, dependent, or incompetent children of the parties.

Section 22. There is a new R.C.M. section numbered 48-322 that reads as follows:

48-322. Maintenance. (1) In a proceeding for dissolution of marriage

HeinOnline -- 1975 vol. II 1524 1975

or legal separation, or a proceeding for maintenance following dissolution of the marriage by a court which lacked personal jurisdiction over the absent spouse, the court may grant a maintenance order for either spouse only if it finds that the spouse seeking maintenance:

(a) lacks sufficient property to provide for his reasonable needs, and

(b) is unable to support himself through appropriate employment or is the custodian of a child whose condition or circumstances make it appropriate that the custodian not be required to seek employment outside the home.

(2) The maintenance order shall be in such amounts and for such periods of time as the court deems just, without regard to marital misconduct, and after considering all relevant facts including:

(a) the financial resources of the party seeking maintenance, including marital property apportioned to him, and his ability to meet his needs independently, including the extent to which a provision for support of a child living with the party includes a sum for that party as custodian;

(b) the time necessary to acquire sufficient education or training to enable the party seeking maintenance to find appropriate employment;

(c) the standard of living established during the marriage;

(d) the duration of the marriage;

(e) the age, and the physical and emotional condition of the spouse seeking maintenance; and

(f) the ability of the spouse from whom maintenance is sought to meet his needs while meeting those of the spouse seeking maintenance.

Section 23. There is a new R.C.M. section numbered 48-323 that reads as follows:

48-323. Child support. In a proceeding for dissolution of marriage, legal separation, maintenance, or child support, the court may order either or both parents owing a duty of support to a child to pay an amount reasonable or necessary for his support, without regard to marital misconduct, after considering all relevant factors including:

(1) the financial resources of the child;

(2) the financial resources of the custodial parent;

(3) the standard of living the child would have enjoyed had the marriage not been dissolved;

(4) the physical and emotional condition of the child, and his educational needs; and

(5) the financial resources and needs of the noncustodial parent.

Section 24. There is a new R.C.M. section numbered 48-324 that reads as follows:

48-324. Representation of child. The court may appoint an attorney

HeinOnline -- 1975 vol. II 1525 1975

to represent the interests of a minor dependent child with respect to his support, custody, and visitation. The court shall enter an order for costs and fees in favor of the child's attorney. The order shall be made against either or both parents, except that, if the responsible party is indigent, the costs shall be waived.

Section 25. There is a new R.C.M. section numbered 48-325 that reads as follows:

48-325. Payment of maintenance or support to court. (1) Upon its own motion or upon motion of either party, the court may order at any time that maintenance or support payments be made to the clerk of the district court as trustee for remittance to the person entitled to receive the payments.

(2) The clerk of the district court shall maintain records listing the amount of payments, the date payments are required to be made, and the names and addresses of the parties affected by the order.

(3) The parties affected by the order shall inform the clerk of the district court of any change of address or of other condition that may affect the administration of the order.

Section 26. There is a new R.C.M. section numbered 48-326 that reads as follows:

48-326. Assignments. The court may order the person obligated to pay support or maintenance to make an assignment of a part of his periodic earnings or trust income to the person entitled to receive the payments. The assignment is binding on the employer, trustee, or other payor of the funds two (2) weeks after service upon him of notice that it has been made. The payor shall withhold from the earnings or trust income payable to the person obligated to support the amount specified in the assignment and shall transmit the payments to the person specified in the order. The payor may deduct from each payment a sum not exceeding one dollar ($1) as reimbursement for costs. An employer shall not discharge or otherwise discipline an employee as a result of a wage or salary assignment authorized by this section.

Section 27. There is a new R.C.M. section numbered 48-327 that reads as follows:

48-327. Costs—attorney's fees. The court from time to time after considering the financial resources of both parties may order a party to pay a reasonable amount for the cost to the other party of maintaining or defending any proceeding under this act and for attorney's fees, including sums for legal services rendered and costs incurred prior to the commencement of the proceeding or after entry of judgment. The court may order that the amount be paid directly to the attorney, who may enforce the order in his name.

Section 28. There is a new R.C.M. section numbered 48-328 that reads as follows:

48-328. Decree. (1) A decree of dissolution of marriage or of legal separation is final when entered, subject to the right of appeal. An appeal

HeinOnline -- 1975 vol. II 1526 1975

from the decree of dissolution that does not challenge the finding that the marriage is irretrievably broken does not delay the finality of that provision of the decree which dissolves the marriage beyond the time for appealing from that provision, and either of the parties may remarry pending appeal.

(2) No earlier than six (6) months after entry of a decree of legal separation, the court on motion of either party shall convert the decree to a decree of dissolution of marriage.

(3) The clerk of court shall give notice of the entry of a decree of dissolution or legal separation:

(a) if the marriage is registered in this state, to the clerk of the district court of the county where the marriage is registered who shall enter the fact of dissolution or separation in the book in which the marriage license and certificate are recorded; or

(b) if the marriage is registered in another jurisdiction, to the appropriate official of that jurisdiction, with the request that he enter the fact of dissolution in the appropriate record.

(4) Upon request by a wife whose marriage is dissolved or declared invalid, the court may, and if there are no children of the parties shall, order her maiden name or a former name restored.

Section 29. There is a new R.C.M. section numbered 48-329 that reads as follows:

48-329. Independence of provisions of decree or temporary order. If a party fails to comply with a provision of a decree or temporary order or injunction, the obligation of the other party to make payments for support or maintenance or to permit visitation is not suspended; but he may move the court to grant an appropriate order.

Section 30. There is a new R.C.M. section numbered 48-330 that reads as follows:

48-330. Modification and termination of provisions for maintenance, support, and property disposition. (1) Except as otherwise provided in subsection (6) of section 48-320, the provisions of any decree respecting maintenance or support may be modified by a court only as to installments accruing subsequent to the motion for modification and either:

(a) upon a showing of changed circumstances so substantial and continuing as to make the terms unconscionable; or

(b) upon written consent of the parties. The provisions as to property disposition may not be revoked or modified by a court, except:

(i) upon written consent of the parties, or

(ii) if the court finds the existence of conditions that justify the reopening of a judgment under the laws of this state.

(2) Unless otherwise agreed in writing or expressly provided in the decree, the obligation to pay future maintenance is terminated upon the

HeinOnline -- 1975 vol. II 1527 1975

death of either party or the remarriage of the party receiving maintenance.

(3) Unless otherwise agreed in writing or expressly provided in the decree, provisions for the support of a child are terminated by emancipation of the child but not by the death of a parent obligated to support the child. When a parent obligated to pay support dies, the amount of support may be modified, revoked, or commuted to a lump sum payment, to the extent just and appropriate in the circumstances.

Section 31. There is a new R.C.M. section numbered 48-331 that reads as follows:

48-331. Jurisdiction—commencement of proceedings. (1) A court of this state competent to decide child custody matters has jurisdiction to make a child custody determination by initial or modification decree if:

(a) this state

(i) is the home state of the child at the time of commencement of the proceedings, or

(ii) had been the child's home state within six (6) months before commencement of the proceeding and the child is absent from this state because of his removal or retention by a person claiming his custody or for other reason, and a parent or person acting as parent continues to live in this state; or

(b) it is in the best interest of the child that a court of this state assume jurisdiction because

(i) the child and his parents, or the child and at least one contestant, have a significant connection with this state, and

(ii) there is available in this state substantial evidence concerning the child's present or future care, protection, training, and personal relationships; or

(c) the child is physically present in this state and

(i) has been abandoned or

(ii) it is necessary in an emergency to protect him because he has been subjected to or threatened with mistreatment or abuse or is neglected or dependent; or

(d) (i) no other state has jurisdiction under prerequisites substantially in accordance with paragraphs (a), (b), or (c), or another state has declined to exercise jurisdiction on the ground that this state is the more appropriate forum to determine custody of the child, and

(ii) it is in his best interest that the court assume jurisdiction.

(2) Except under paragraphs (c) and (d) of subsection (1), physical presence in this state of the child, or of the child and one of the contestants, is not alone sufficient to confer jurisdiction on a court of this state to make a child custody determination.

HeinOnline -- 1975 vol. II 1528 1975

(3) Physical presence of the child, while desirable, is not a prerequisite for jurisdiction to determine his custody.

(4) A child custody proceeding is commenced in the district court:

(a) by a parent, by filing a petition

(i) for dissolution or legal separation; or

(ii) for custody of the child in the county in which he is permanently resident or found; or

(b) by a person other than a parent, by filing a petition for custody of the child in the county in which he is permanently resident or found, but only if he is not in the physical custody of one of his parents.

(5) Notice of a child custody proceeding shall be given to the child's parent, guardian, and custodian, who may appear, be heard, and file a responsive pleading. The court, upon a showing of good cause, may permit intervention of other interested parties.

Section 32. There is a new R.C.M. section numbered 48-332 that reads as follows:

48-332. Best interest of child. The court shall determine custody in accordance with the best interest of the child. The court shall consider all relevant factors including:

(1) the wishes of the child's parent or parents as to his custody;

(2) the wishes of the child as to his custodian;

(3) the interaction and interrelationship of the child with his parent or parents, his siblings, and any other person who may significantly affect the child's best interest;

(4) the child's adjustment to his home, school, and community; and

(5) the mental and physical health of all individuals involved.

Section 33. There is a new R.C.M. section numbered 48-333 that reads as follows:

48-333. Temporary orders. (1) A party to a custody proceeding may move for a temporary custody order. The motion must be supported by an affidavit as provided in section 48-340. The court may award temporary custody under the standards of section 48-332 after a hearing, or, if there is no objection, solely on the basis of the affidavits.

(2) If a proceeding for dissolution of marriage or legal separation is dismissed, any temporary custody order is vacated unless a parent or the child's custodian moves that the proceeding continue as a custody proceeding and the court finds, after a hearing, that the circumstances of the parents and the best interest of the child requires that a custody decree be issued.

(3) If a custody proceeding commenced in the absence of a petition for dissolution of marriage or legal separation under subsection (a)(ii) or (b) of section 48-331 is dismissed, any temporary custody order is vacated.

HeinOnline -- 1975 vol. II 1529 1975

Section 34. There is a new R.C.M. section numbered 48-334 that reads as follows:

48-334. Interviews. (1) The court may interview the child in chambers to ascertain the child's wishes as to his custodian and as to visitation. The court may permit counsel to be present at the interview. The court shall cause a record of the interview to be made and to be part of the record in the case.

(2) The court may seek the advice of professional personnel, whether or not employed by the court on a regular basis. The advice given shall be in writing and made available by the court to counsel upon request. Counsel may examine as a witness any professional personnel consulted by the court.

Section 35. There is a new R.C.M. section numbered 48-335 that reads as follows:

48-335. Investigations and reports. (1) In contested custody proceedings, and in other custody proceedings if a parent or the child's custodian so requests, the court may order an investigation and report concerning custodial arrangements for the child. The investigation and report may be made by the county welfare department.

(2) In preparing his report concerning a child, the investigator may consult any person who may have information about the child and his potential custodial arrangements. Upon order of the court, the investigator may refer the child to professional personnel for diagnosis. The investigator may consult with and obtain information from medical, psychiatric, or other expert persons who have served the child in the past without obtaining the consent of the parent or the child's custodian; but the child's consent must be obtained if he has reached the age of sixteen (16) unless the court finds that he lacks mental capacity to consent. If the requirements of subsection (3) are fulfilled, the investigator's report may be received in evidence at the hearing.

(3) The court shall mail the investigator's report to counsel and to any party not represented by counsel at least ten (10) days prior to the hearing. The investigator shall make available to counsel and to any party not represented by counsel the investigator's file of underlying data, and reports, complete texts of diagnostic reports made to the investigator pursuant to the provisions of subsection (2), and the names and addresses of all persons whom the investigator has consulted. Any party to the proceeding may call the investigator and any person whom he has consulted for cross-examination. A party may not waive his right of cross-examination prior to the hearing.

Section 36. There is a new R.C.M. section numbered 48-336 that reads as follows:

48-336. Hearings. (1) Custody proceedings shall receive priority in being set for hearing.

(2) The court may tax as costs the payment of necessary travel and other expenses incurred by any person whose presence at the hearing the court deems necessary to determine the best interest of the child.

HeinOnline -- 1975 vol. II 1530 1975

(3) The court without a jury shall determine questions of law and fact. If it finds that a public hearing may be detrimental to the child's best interest, the court may exclude the public from a custody hearing, but may admit any person who has a direct and legitimate interest in the particular case or a legitimate educational or research interest in the work of the court.

(4) If the court finds it necessary to protect the child's welfare that the record of any interview, report, investigation, or testimony in a custody proceeding be kept secret, the court may make an appropriate order sealing the record.

Section 37. There is a new R.C.M. section numbered 48-337 that reads as follows:

48-337. Visitation. (1) A parent not granted custody of the child is entitled to reasonable visitation rights unless the court finds, after a hearing, that visitation would endanger seriously the child's physical, mental, moral, or emotional health.

(2) The court may modify an order granting or denying visitation rights whenever modification would serve the best interest of the child; but the court shall not restrict a parent's visitation rights unless it finds that the visitation would endanger seriously the child's physical, mental, moral, or emotional health.

Section 38. There is a new R.C.M. section numbered 48-338 that reads as follows:

48-338. Judicial supervision. (1) Except as otherwise agreed by the parties in writing at the time of the custody decree, the custodian may determine the child's upbringing, including his education, health care, and religious training, unless the court after hearing, finds, upon motion by the noncustodial parent, that in the absence of a specific limitation of the custodian's authority, the child's physical health would be endangered or his emotional development significantly impaired.

(2) If both parents or all contestants agree to the order, or if the court finds that in the absence of the order the child's physical health would be endangered or his emotional development significantly impaired, the court may order the county welfare department to exercise continuing supervision over the case to assure that the custodial or visitation terms of the decree are carried out.

Section 39. There is a new R.C.M. section numbered 48-339 that reads as follows:

48-339. Modification. (1) No motion to modify a custody decree may be made earlier than two (2) years after its date, unless the court permits it to be made on the basis of affidavits that there is reason to believe the child's present environment may endanger seriously his physical, mental, moral, or emotional health.

(2) The court shall not modify a prior custody decree unless it finds, upon the basis of facts that have arisen since the prior decree or that

HeinOnline -- 1975 vol. II 1531 1975

were unknown to the court at the time of entry of the prior decree, that a change has occurred in the circumstances of the child or his custodian, and that the modification is necessary to serve the best interest of the child. In applying these standards the court shall retain the custodian appointed pursuant to the prior decree unless:

(a) the custodian agrees to the modification;

(b) the child has been integrated into the family of the petitioner with consent of the custodian; or

(c) the child's present environment endangers seriously his physical, mental, moral, or emotional health, and the harm likely to be caused by a change of environment is outweighed by its advantages to him.

48-340. Affidavit practice. A party seeking a temporary custody order or modification of a custody decree shall submit together with his moving papers an affidavit setting forth facts supporting the requested order or modification and shall give notice, together with a copy of his affidavit, to other parties to the proceeding, who may file opposing affidavits. The court shall deny the motion unless it finds that adequate cause for hearing the motion is established by the affidavits, in which case it shall set a date for hearing on an order to show cause why the requested order or modification should not be granted.

Section 41. There is a new R.C.M. section numbered 48-341 that reads as follows:

48-341. Application. (1) This act applies to all proceedings commenced on or after its effective date.

(2) This act applies to all pending actions and proceedings commenced prior to its effective date with respect to issues on which a judgment has not been entered. Pending actions for divorce or separation are deemed to have been commenced on the basis of irretrievable breakdown. Evidence adduced after the effective date of this act shall be in compliance with this act.

(3) This act applies to all proceedings commenced after its effective date for the modification of a judgment or order entered prior to the effective date of this act.

(4) In any action or proceeding in which an appeal was pending or a new trial was ordered prior to the effective date of this act, the law in effect at the time of the order sustaining the appeal or the new trial governs the appeal, the new trial, and any subsequent trial or appeal.

Section 42. **Act supersedes other laws or regulations.** If any provision of this act is in conflict with any other law of this state, or any rule or regulation promulgated thereunder, this act shall govern and control,

HeinOnline -- 1975 vol. II 1532 1975

and such other law, rule, or regulation shall be deemed superseded for the purpose of this act.

Section 43. **Severability.** If any provision of this act or application thereof to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of the act are severable.

Section 44. Section 48-130, R.C.M. 1947, is amended to read as follows:

"**48-130. Declaration of marriage without solemnization—how made.** Persons desiring to consummate a marriage by written declaration in this state without the solemnization provided for in section *48-309* must prior to executing the declaration, secure the premarital test certificate required by *this act*, which shall be firmly attached to the declaration and shall be filed by the clerk of the district court in the county where the contract was executed. Be it enacted by the Legislature of the State of Montana:

Section 1. Section 16-2618, R.C.M. 1947, is amended to read as follows:

"16-2618. Deposit of public funds by county, city and town treasurers. (1) It shall be the duty of all county, city and town treasurers to deposit all public moneys in their possession and under their control in any solvent banks, building and loan associations or savings and loan associations located in the county, city or town of which such treasurer is an officer, subject to national supervision or state examination as the *local governing body* may designate, and no other. The treasurer shall take from such bank, building and loan association or savings and loan association such security as the *local governing body* may prescribe, approve and deem fully sufficient and necessary to insure the safety and prompt payment of all such deposits, together with the interest on any time or savings deposits, provided that said *local governing body* is hereby authorized to deposit such public moneys not necessary for immediate use by such county, city or town with any bank, building and loan association or savings and loan association authorized herein above in a savings or time deposit; provided that the bank or banks or building and loan association or savings and loan association in which the money is deposited shall pay on the moneys no less than the rate of interest as is paid on money

HeinOnline -- 1975 vol. II 1538 1975

from private sources on the same terms. Refusal of any bank, building and loan association or savings and loan association to pay said interest rate shall constitute a waiver of that institution's right to participate in the *deposit of public funds* as set forth in this act, and provided that said *local governing body* is hereby authorized to invest such public moneys not necessary for immediate use by such county, city or town, in direct obligations of the United States government, payable within not to exceed one hundred eighty (180) days from the time of such investment.

(2) Said *local governing body* may require security for only any such portion of deposits as is not guaranteed or insured according to law. Such security shall consist of cashier's check or checks issued by the Federal Reserve Bank, bonds of the United States government and its dependents, bonds guaranteed by the United States government or its dependents, bonds and warrants of the state of Montana, bonds and warrants of any county of the state of Montana, and bonds of any city, town or school district of the state of Montana, which are a general obligation of such county, city, town or school district, bonds of the Federal Land Banks, Federal Intermediate Credit Bank debentures, Federal Home Loan Bank notes and bonds, Bank for Co-operatives' debentures, Federal National Mortgage Association notes, bonds and guaranteed certificates of participation, obligations of or fully guaranteed by the Government National Mortgage Association, Farmers' Home Administration insured notes, notes fully guaranteed as to principal and interest by the Small Business Administration, Federal Housing Administration debentures, general obligation bonds of other states and counties of other states and bonds issued in the United States of America, which are quoted on the New York market which shall be acceptable at not to exceed ninety per centum (90%) of such market quotation.

(3) When negotiable securities are furnished, such securities may be placed in trust and the trustee's receipt may be accepted in lieu of the actual securities when such receipt is in favor of the treasurer, his successors and the state of Montana, and the form of receipt and the trustee have been approved by the department of intergovernmental relations. All warrants or other negotiable securities must be properly assigned or endorsed in blank. It shall be the duty of the *appropriate governing body* upon the acceptance and approval of any of the above-mentioned bonds or securities, to make a complete minute entry of such acceptance and approval upon the record of their proceedings, and such bonds and securities shall be reapproved at least quarter annually thereafter.

(4)(a) Demand deposits shall be placed only in banks. When more than one bank is available in any county, for the deposit of such county funds, or in any city or town for the deposit of such city or town funds, such demand deposits shall be distributed ratably among all of such banks qualifying therefor, substantially in proportion to paid-in capital and surplus of each such bank willing to receive such demand deposits under the terms of this act, and it shall be the duty of said county, city or town treasurer to prorate all such demand deposits among all of the banks qualified to receive the same as in this act provided, to the end that an equitable distribution of such demand deposits shall be maintained.

(b) Such public moneys not necessary for immediate use by such

HeinOnline -- 1975 vol. II 1539 1975

county, city or town which are not invested in direct obligations of the United States government as authorized herein *may* be placed in time or savings deposits with any bank, building and loan association or savings and loan association in the county, city or town. When more than one bank, building and loan association or savings and loan association is available in any county, for the deposit of such county funds, or in any city or town for the deposit of such city or town funds, such funds *may* be distributed ratably among all of such banks, building and loan associations and savings and loan associations qualifying therefor, substantially in proportion to the total property taxes paid in such county or the county in which such city or town is located during the preceding year, including taxes on shares of bank stock, by each such bank, building and loan association or savings and loan association willing to receive such time or savings deposits under the terms of this act.

(c) In lieu of a ratable distribution among banks, building and loan associations, and savings and loan associations within the county, city or town, the local governing body may solicit bids without advertising from any bank, building and loan association, or savings and loan association in a county having at least two such financial institutions. Such institutions may request in writing that they be listed for solicitation on bids for public moneys not necessary for immediate use by the unit of local government. In counties having less than two such institutions, the local governing body may solicit bids from, and deposit public moneys in, such institutions in neighboring counties unless the local financial institution agrees to pay the same rate of interest bid by the neighboring financial institutions. The governing body may solicit bids by notice sent by mail to the investment institutions whose names are listed as provided herein. The provisions of this section shall be considered as meeting the requirements of section 16-2618 (4)(b).

(5) Whenever it shall come to the attention of the department of intergovernmental relations that the funds of any county, city or town are not properly *deposited* as provided in this act, the department of intergovernmental relations shall order the treasurer of such county, city or town to *deposit* said funds in accordance herewith, and if such treasurer shall refuse or neglect to comply with such order, it shall be the duty of the department of intergovernmental relations to institute proceedings against such treasurer at the cost of the county, city or town of which such treasurer is an officer, on the official bond of such treasurer. Any banks, building and loan associations or savings and loan associations receiving such deposits, shall, through its president and cashier or secretary, make a statement quarter annually of account, under oath, showing all such moneys that have been deposited with such bank, building and loan association or savings and loan association during the quarter, the amount of daily balance in dollars, and the amount of interest by such banks, building and loan associations or savings and loan associations credited or paid therefor, and showing that neither such bank, building and loan association or savings and loan association nor any officer thereof, nor any person for it, has paid or given any consideration or emolument whatsoever to the treasurer or to any other person other than the interest provided for herein, for or on account of the making of such deposits, with any such bank, building and loan association or savings

HeinOnline -- 1975 vol. II 1540 1975

and loan association. All such deposits shall be subject to withdrawal by the treasurer in such amounts as may be necessary from time to time, and no deposit of funds shall be made, or permitted to remain in any bank, building and loan association or savings and loan association, until the security for such deposits shall have been first approved by the *local governing body* and delivered to the treasurer.

(6) Except as provided in subsection (8) of this section, all interest paid and collected on such deposits or investments shall be credited to the general fund of the county, city or town to whose credit such funds are deposited. Where moneys shall have been deposited in accordance with the provisions of this act, the treasurer shall not be liable for loss on account of any such deposit that may occur through damage by the elements or for any other cause or reason occasioned through means other than his own neglect, fraud, or dishonorable conduct.

(7) Any bank, building and loan association or savings and loan association pledging securities as provided in this act at any time it deems advisable or desirable may substitute like securities for all or any part of the securities pledged. The collateral so substituted shall be approved by the governing body of the county, city or town at its next official meeting. Such securities so substituted shall at the time of substitution be at least equal in principal amount to the securities for which substitution is made. In the event that the securities so substituted are held in trust, the trustee shall, on the same day the substitution is made, forward by registered or certified mail to the county, city or town and to the depository bank, building and loan association or savings and loan association, a receipt specifically describing and identifying both the securities so substituted and those released and returned to the depository bank, building and loan association or savings and loan association.

(8) Whenever in the judgment of the trustees of any common school district, high school district, or county high school it would be advantageous to invest any money of such school or school district in savings or time deposits in a state or national bank, building and loan association or savings and loan association insured by the F.D.I.C. or the F.S.L.I.C., or in direct obligations of the United States government, payable within one hundred eighty (180) days from the time of investment, such governing body may in its discretion direct the county treasurer to make such investments. All interest collected on such deposits or investments shall be credited to the fund from which the money was withdrawn, provided that nothing in this act shall be interpreted to conflict with section 16-2050."

Approved May 12, 1975.

CHAPTER NO. 540

AN ACT AUTHORIZING A BOARD OF COUNTY COMMISSIONERS TO CLASSIFY AND MANAGE COUNTY OWNED LANDS AND TO RETAIN, LEASE, OR DISPOSE OF INTERESTS IN SUCH LANDS;

HeinOnline -- 1975 vol. II 1541 1975

REPEALING SECTIONS 84-4193, 84-4194, AND 84-4198, R.C.M. 1947.

Be it enacted by the Legislature of the State of Montana:

Section 1. There is a new R.C.M. section numbered 84-4190.1 that reads as follows:

84-4190.1. Purpose. The purpose of this act is to authorize a board of county commissioners to establish criteria for the classification of unsold tax deed lands and other county owned lands, however acquired, and to classify such lands for retention or disposal in accordance with such criteria so that county owned lands shall be used in the best interests of the county and for the public benefit and welfare, to encourage the application of a "multiple use" principle in the utilization and administration of such lands so that the administration of lands classified for retention can be coordinated with land use planning, zoning, grazing and agricultural land improvement, fish and wildlife habitat improvement and enhancement, recreation, access to other intermingled or adjacent multiple use areas, and for any other appropriate uses which are in the best interests of the county or which will advance the public benefit and welfare, and to grant sufficient powers to the board of county commissioners to enable the board to achieve the foregoing purpose.

Section 2. There is a new R.C.M. section numbered 84-4190.2 that reads as follows:

84-4190.2. Definitions. As used in this act:

(1) "Multiple use" means the management of the various surface and subsurface resources so that they are utilized in the combination that will best meet the present and future needs of the county; the most judicious use of the land for some or all of these resources or related services over areas large enough to provide sufficient latitude for periodic adjustments in use to conform to changing needs and conditions; the use of some land for less than all of the resources; and harmonious and coordinated management of the various resources, each with the other, without impairment of the productivity of the land, with consideration being given to the relative values of the various resources, and not necessarily the combination of uses that will give the greatest dollar return or the greatest unit output; and the use of said lands, where possible, to afford access in multiple use areas to federal and state lands.

(2) "Board" means the board of county commissioners.

Section 3. There is a new R.C.M. section numbered 84-4192.1 that reads as follows:

84-4192.1. Powers and duties of board regarding county lands. (1) Any lands previously or hereafter offered for sale by the county commissioners of any county under section 84-4190, and not sold at such sale, or any lands concerning which the preferential right to purchase has been terminated and barred under the provisions of section 84-4190, and any other lands owned by the county, however acquired may, in the discretion and at the election of the board, be administered by the board under

HeinOnline -- 1975 vol. II 1542 1975

this section. The board may, in its discretion, elect to exercise all or any of the powers and authority granted to it by this act, and to the extent it so elects, the provisions of this act shall be controlling and shall supersede all conflicting provisions of other acts. The board may:

(a) establish criteria for the classification of such lands;

(b) classify such lands, surface and subsurface, for retention or disposal, and for such purposes and uses as the board may determine are in the best interests of the county, and for the public benefit and welfare, and in so doing, the board shall consider the multiple use potential of said lands, and the potential of said lands as access to other intermingled or adjacent multiple use lands or areas;

(c) grant permits or licenses to use the lands in such manner as the board may determine and in the best interests of the county, and for the public benefit and welfare, fix the terms, conditions, and price of such permits or licenses;

(d) enter into cooperative use agreements with individuals, groups of individuals, corporations, associations, cooperative state grazing districts, the state of Montana, the United States of America, and any state or federal subdivision, department, bureau, commission, or agency, including, but not limited to, the Montana department of fish and game, the bureau of land management, conservation districts, and the Montana department of state lands;

(e) trade or exchange such lands with individuals or other governmental agencies, state or federal, such trades or exchanges to be made pursuant to terms, conditions, and procedures adopted by the board;

(8) When considered in the best interests of the county, the board may enter into agreements for the pooling of acreage with others for unit operations for the production of oil or gas, or both, and for the apportionment of oil or gas royalties, or both, on acreage or other equitable basis, and may modify existing leases and leases hereafter entered into with respect to delay rentals, delay drilling penalties and royalties in accordance with such pooling agreements, and such unit plans of operation; provided, however, that such agreements shall not change the percentages of royalties to be paid to the county from the percentages as fixed in its leases.

(9) All proceeds from any use or disposition of lands pursuant to the terms of this act shall be apportioned and distributed according to the provisions of section 84-4195.

Section 8. **Severability.** If a part of this act is invalid, all valid parts that are severable from the invalid part remain in effect. (4) Renewal will be every two years beginning on July 1 of the appropriate year.

(5) A suspended license is subject to expiration and may be renewed as provided in this section, but such renewal does not entitle the licensee while the license remains suspended to engage in the licensed activity, or in any other activity or conduct which violates the order or judgment by which the license was suspended.

(6) A license revoked on disciplinary grounds is subject to expiration, and it may not be renewed. If it is reinstated after its expiration, the licensee, as a condition of reinstatement, shall pay a reinstatement fee in an amount equal to the renewal fee in effect on the last preceding regular renewal date before the date on which it is reinstated, plus the delinquency fee, if any, accrued at the time of its revocation.

CHAPTER NO. 548

AN ACT TO ENCOURAGE INVESTMENT IN NONFOSSIL FORMS OF ENERGY GENERATION AND IN ENERGY CONSERVATION IN BUILDINGS THROUGH TAX INCENTIVES AND CAPITAL AVAILABILITY, AMENDING SECTIONS 84-202 AND 84-301, R.C.M. 1947.

Be it enacted by the Legislature of the State of Montana:

Section 1. There is a new R.C.M. section numbered 84-7401 that reads as follows:

84-7401. Statement of purpose. The purpose of this act is to encourage the use of alternative energy sources and the conservation of energy through incentive programs. Such incentives are to be made available to the energy user on a basis which requires him to take the initiative in obtaining a particular incentive. This act is not intended to require an assessor to revalue property except upon receipt of a properly documented and approved application. This act allows but does not require a public utility to extend credit for energy conservation investments.

Section 2. There is a new R.C.M. section numbered 84-7402 that reads as follows:

84-7402. Definitions. As used in this act:

(1) "Building" means a single or multiple dwelling, including a mobile home, or a building used for commercial, industrial, or agricultural purposes, which is enclosed with walls and a roof.

(2) "Capital investment" means any material or equipment purchased and installed in a building, or land, with or without improvements.

HeinOnline -- 1975 vol. II 1582 1975

(3) "Energy conservation purpose" means one or more of the following results of an investment: reducing the waste or dissipation of energy, or reducing the amount of energy required to accomplish a given quantity of work.

(4) "Recognized nonfossil forms of energy generation" means a system for the utilization of solar heat, wind, solid wastes, or the decomposition of organic wastes, for capturing energy or converting energy sources into usable sources, for the production of electric power from solid wood wastes, and also means a small system for the utilization of water power by means of an impoundment not over twenty (20) acres in surface area.

Section 3. There is a new R.C.M. section numbered 84-7403 that reads as follows:

84-7403. Tax treatment of certain energy-related investments. (1) Upon application by a taxpayer, approved under section 84-7404, a capital investment by the taxpayer in a recognized nonfossil form of energy generation shall be treated by the department of revenue as:

(a) property exempt from taxation, to the extent the appraised value of the investment does not exceed one hundred thousand dollars ($100,000), or

(b) class seven property, as defined in sections 84-301 and 84-302, for such portion of the appraised value of the investment that exceeds one hundred thousand dollars ($100,000).

(2) Upon application by a taxpayer, approved under section 84-7404, a capital investment in a building by the taxpayer for an energy conservation purpose shall be treated by the department of revenue as class eight property, as defined in sections 84-301 and 84-302, to the extent the appraised value of the investment does not exceed twenty percent (20%) of the appraised value of the building in which the investment is made.

Section 4. There is a new R.C.M. section numbered 84-7404 that reads as follows:

84-7404. Application for special energy investment taxation. The department of revenue shall provide forms on which a taxpayer may apply for tax treatment under section 84-7403. Application shall be made to the department. The department shall approve an application which demonstrably promotes energy conservation or utilizes a recognized nonfossil form of energy generation. The department may refer an application involving energy generation to the department of natural resources and conservation for its advice, and the department of natural resources and conservation shall respond within sixty (60) days. The department may refer an application involving energy conservation to the department of administration for its advice, and the department of administration shall respond within sixty (60) days. The department of revenue may deny an application which it finds to be impractical or ineffective.

Section 5. There is a new R.C.M. section numbered 84-7405 that reads as follows:

HeinOnline -- 1975 vol. II 1583 1975

84-7405. Capital may be lent by utilities — tax credit for interest differential. (1) A public utility providing electricity or natural gas may install or pay for the installation of energy conservation materials in a dwelling. The utility may agree with the occupant of the dwelling that the occupant shall reimburse the utility for its expenditure in periodic installment payments added to the occupant's regular bill for electricity or natural gas. The utility may charge interest not exceeding the equivalent of a rate of seven percent (7%) per year on the declining balance of the sum advanced.

(2) A public utility lending money under this section may compute the difference between interest it actually receives on such transactions and the interest which would have been received at the prevailing average interest rate for home improvement loans, as prescribed in rules made by the public service commission. The utility may apply the difference so computed as a credit against its tax liability for the electrical energy producer's license tax under section 84-1601 or for the corporation license tax under section 84-1501.

(3) The public service commission may make rules to implement this section.

Section 6. There is a new R.C.M. section numbered 84-7406 that reads as follows:

84-7406. Limitations. Tax treatment under section 84-7403 is limited to:

(1) capital investments made after January 1, 1975, and

(2) persons and firms not primarily engaged in the provision of gas or electricity derived from fossil fuel extraction or conventional hydroelectric development, and

(3) a ceiling of one hundred thousand dollars ($100,000) in tax savings per year to any one person or firm.

Section 7. Section 84-202, R.C.M. 1947, is amended to read as follows:

"84-202. **Exemptions from taxation.** (1) The property of the United States, the state, counties, cities, towns, school districts, municipal corporations, public libraries, such other property as is used exclusively for agricultural and horticultural societies, for educational purposes, places of actual religious worship, hospitals and places of burial not used or held for private or corporate profit, and institutions of purely public charity, evidence of debt secured by mortgages of record upon real or personal property in the state of Montana, and public art galleries and public observatories not used or held for private or corporate profit, are exempt from taxation, but no more land than is necessary for such purpose is exempt; provided, the term "institutions of purely public charity" as used in this act shall include organizations owning and operating facilities for the care of the retired or aged or chronically ill which are not operated for gain or profit; provided, that the terms public art galleries and public observatories used in this act shall mean only such art galleries and observatories whether of public or private ownership, as are open to the public, without charge or fee at all reasonable hours, and are used for

Any person, corporation, firm, partnership, association, or other group seeking to qualify its property for inclusion in this class shall make application to the state department of revenue in such manner or form as may be required by the department.

(4) All unprocessed, perishable fruits and vegetables in farm storage and owned by the producer are exempt from taxation.

(5) A capital investment in a recognized nonfossil form of energy generation is exempt to the extent provided under section 84-7403."

CHAPTER NO. 549

AN ACT ESTABLISHING A PROCEDURE FOR THE ECONOMIC DEVELOPMENT OF MONTANA THROUGH LOCAL GOVERNMENTAL CONTROL, BASED ON LAND GROWTH PATTERNS ESTABLISHED THROUGH ECONOMIC VALUE AS A SUPPLEMENT TO ZONING WITH ECONOMIC INDUCEMENTS AND PENALTIES; PROVIDING AUTHORIZATION TO LOCAL GOVERNMENTS TO DEVELOP PLANNED DEVELOPMENT PROCEDURES; AND PROVIDING STANDARDS OF LAND USAGE; AND PROVIDING AN EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. There is a new R.C.M. section numbered 84-7501 that reads as follows:

HeinOnline -- 1975 vol. II 1588 1975

84-7501. Citation. This act may be cited as "The Montana Economic Land Development Act".

Section 2. There is a new R.C.M. section numbered 84-7502 that reads as follows:

84-7502. Policy. The legislature finds that we as a state are currently facing problems in our economic development that will not only cause concern to our state's future but also cutbacks in our state's growth and currently lack to proper development. Inasmuch as many of these economic concerns are based on land use decisions, the state should develop a land use policy which will direct Montana's land use growth through the enactment of a program which will:

(1) enable local control and local decisions to be foremost in determining the state growth pattern;

(2) allow taxation on land and structures to be based on proper land utilization; providing for tax incentives for proper land utilization and tax increases for land developmental abuse;

(3) create a land use policy which does not block economic progress, but rather the development of a program which will meet the social and economic standards necessarily brought about through economic progress;

(4) develop a program which protects our state's beauty and natural features as well as our heritage of agricultural wealth by curbing urban sprawl; and

(5) institute a land use system growth program which supplements zoning and which is structured through local control, and one which is not to be final in action, but rather one of continuing action, whereby land use decisions can continually be reevaluated and one which would curb unnecessary governmental regulations.

Section 3. There is a new R.C.M. section numbered 84-7503 that reads as follows:

84-7503. Purpose. Montanans are faced with a nation hungry for timber, coal, minerals, and recreation opportunities, causing a future in Montana whose heritage appears headed for rapid development and growth. This act, therefore, is designed to meet Montana's needs in a unique way; by reducing the need for zoning and other land control measures and placing our future development under a free market system controlled not by land regulation, but by economics. Specific goals are:

(1) to protect prime agricultural land as it is the backbone of today's Montana economy and the heart of tomorrow's need for a well-fed and healthy economy, keeping Montana's position, in the future, as the breadbasket of the nation;

(2) to encourage urban growth in an inward pattern, rather than a sprawl development, yet through the use of open space provide a greater percentage of open land and a higher density on developed land within the urban area;

HeinOnline -- 1975 vol. II 1589 1975

(3) to guide industrial and commercial development in Montana;

(4) to develop a program which is controlled and directed on a local level, within the actual land use direction and classification left wherever possible with the local land owner; and

(5) in general, to provide for Montana a land use directional policy which will not regulate our future but rather motivate it into a pattern of desirable economic growth based on the development of private enterprise.

84-7504. Definitions. As used in this act:

HeinOnline -- 1975 vol. II 1590 1975

(23) "Commercial land" means land used for business purposes other than land herein defined as agricultural land, industrial land, residential land, and recreational land.

Section 5. There is a new R.C.M. section numbered 84-7505 that reads as follows:

84-7505. Operation. (1) Within two (2) years of the passage of this act the governing body shall set standards wherein their jurisdictional area is classified into general areas described in this section unless the existing classification system conforms to the provisions of this act. The preparation of a plan by the governing body shall be made after the following steps have been taken regarding the lands in their jurisdictional areas:

(a) a complete inventory of the land and its usage by the governing body, including:

(i) land types, based on federal standards;

(ii) the floodplain of all streams and rivers;

(iii) current vegetation patterns, i.e., cropland, irrigated land, rangeland, nonproductive land;

(iv) developed land; and

(v) all federal, state, or Indian land.

Decisions shall be coordinated with the department of revenue.

(2) After collection of this data it shall be displayed in public for a minimum of thirty (30) days. During the period the material is displayed there shall be notification made of a public meeting at which time the materials will be displayed, described, and the method of classification will be explained to the general public. Any changes of land classification suggested shall be taken under advisement by the governing body and at their discretion be encompassed into the land classification.

HeinOnline -- 1975 vol. II 1592 1975

This plan shall then be submitted to the state administration agency not later than January 2, 1978. If a city or county has failed to prepare this plan within the required time, the department of community affairs or its agent shall prepare the plan.

(6) In preparing the plan, the following categories shall be used:

(a) agricultural;

(b) recreational;

(c) residential;

(d) commercial;

(f) open space.

Section 6. There is a new R.C.M. section numbered 84-7506 that reads as follows:

84-7506. County option. After the provisions of section 84-7505 have been complied with and all public hearings held, the local governing body may proceed directly into further implementation provided in section 84-7507 or hold an election of electors within the affected land area. If the voters reject further implementation of the classification plan, the plan may not be implemented and no new election on that plan or any other plan may be held for the period of one (1) year.

Section 7. There is a new R.C.M. section numbered 84-7507 that reads as follows:

84-7507. Classification. The department of revenue shall conduct hearings upon the classifications of land according to desirable use proposed by each governing body within the county and shall, after considering the record of such hearings, make the final classification of the desirable usage of land in each county as proposed by the governing body if such proposals are in accordance with the following criteria:

HeinOnline -- 1975 vol. II 1593 1975

(1) Taxable land shall be classified as agricultural when such action would:

(a) encourage the preservation of prime agricultural soils, or

(b) encourage the preservation of those limited areas of the state which contain the proper combination of soil and topographical characteristics necessary for intense agricultural development, or

(c) discourage those uses and activities which are incompatible with the rural character of a district, or

(d) provide minimal development standards which would assure the continuation of the open and rural character of the district and permit only those uses and activities which are compatible with this rural character.

(2) Taxable land shall be classified as recreational when such action would:

(a) discourage those uses and activities which would create congestion, noise, or hazards incompatible with recreation activities established on the land, or

(b) encourage the continuation or initiation of outdoor recreation on suitable lands.

(3) Taxable land shall be classified as residential when such action would:

(a) conserve the character of established residential neighborhoods as has been done by municipal zoning, or

(b) encourage the growth of cities and towns in efficient patterns while discouraging wasteful urban sprawl, or

(c) open new lands to residential areas provided such usage is accompanied by utility expansion, streets, and other needed and related facilities such as schools and commercial developments, if such development is considered necessary by the governing body.

(4) Taxable land shall be classified as industrial when such action would:

(a) be in character with existing uses, or

(b) shield the surrounding area from noise, glare, pollution, or other actions or activities objectionable to the general public, or

(c) provide areas of land contiguous rather than spread over the community or area and located in such locations where the prevailing wind and water flow pattern is favorable to the inhabitants of the area.

(5) Taxable land shall be classified as commercial when:

(a) it would be in character with existing uses, or

(b) it is located in such a pattern or manner to provide needed services to a growing community, or

HeinOnline -- 1975 vol. II 1594 1975

(c) its highest and best use is determined to be commercial, said usage being based on decisions of mutual advantage of both customers and merchants, or

(d) when the classification of the land will promote the most desirable developments in each area, conserve the value of land, and thus promote public safety, convenience, prosperity, and welfare.

(6) Taxable land may be taken from the tax base and classified open space, whether public or private, when:

(a) it is to the public benefit to provide for the preservation of permanent open space, green belts, or similar landscape features, or

(b) such action will provide land to screen or otherwise hide through visual control objectionable man-made features, or

(c) such action will provide land to encourage, assist, and provide means for more desirable urban and rural developments.

(7) Such classifications of desirable use shall be accepted by the department of revenue.

Section 8. There is a new R.C.M. section numbered 84-7508 that reads as follows:

84-7508. Management of classified area. Once land is classified into a taxable classification, it shall be managed by the governing body to encourage its continued usage in that classification. Changes in classification shall be subject to review by the department, however, the department cannot override the decision of the governing body either in connection with such changes or in connection with the original classification pursuant to section 84-7507, without cause. Items for cause are:

(1) that the intended use in the reclassification of agricultural land would not be to the benefit of the general community because it would not:

(a) assure that those portions of the state containing prime agricultural soils would be preserved for agricultural purposes, or

(b) encourage the use and preservation of those limited and irreplaceable portions of the state which contain the proper combination of soil and topographical characteristics for intense agricultural development.

(2) That the intended use in the reclassification of recreational land would not be to the benefit of the general community because it would not:

(a) protect recreational development, so far as is possible and appropriate in each area, against the establishment of uses which would create hazards, offensive noise, or offensive activities, or

(b) protect existing recreational development against congestion, so far as is possible and diminish its effectiveness as a recreational unit.

(3) That the intended use by reclassification of residential land would not be to the benefit of the general community because it would not:

HeinOnline -- 1975 vol. II 1595 1975

(a) encourage the construction of, and the continued use of, the land for various residential purposes, if in fact this was its best and natural usage, or

(b) prohibit commercial and industrial uses of the land and to prohibit any other use which would substantially interfere with the development or continuation of residential uses, or

(c) prohibit any use which because of its character or size creates requirements and costs for public services, such as police and fire protection, water supply and sewage facilities, substantially in excess of such requirements and costs if the district were developed solely for residential purposes.

(4) That the intended use by reclassification of any land category to industrial land would not be to the benefit of the general community because its reclassification would not:

(a) provide facilities to minimize traffic congestion, or

(b) provide for facilities and the operation of industries which minimize noise, glare, air pollution, water pollution, and fire and safety hazards in industrial districts, or

(c) provide beneficial, social, and economic pattern of growth for the area in which the land so classified occurs, or

(d) provide protection from offensive noise, vibration, smoke, dust, odors, heat, glare, or other objectionable influences.

(5) That the intended use by reclassification of any land category to commercial land would not be to the benefit of the general community because its reclassification would not:

(a) provide protection from offensive noise, vibration, smoke, and heavy traffic, or

(b) provide sufficient space in appropriate locations for the transaction of all types of commercial and miscellaneous service activities in beneficial relation to one another, and thus to strengthen the economic base of the community, or

(c) provide appropriate space, and in particular sufficient depth from the street, to satisfy the needs of modern commercial development, including the need for off-street parking in areas where a large proportion of customers come by automobile, or

(d) encourage the tendency of commercial development to concentrate, to the mutual advantage of both customers and merchants, and the urban pattern of growth.

(6) Once classified as open space, no land so classified may be reclassified until the provisions of section 62-605 have been met.

Section 9. There is a new R.C.M. section numbered 84-7509 that reads as follows:

HeinOnline -- 1975 vol. II 1596 1975

84-7509. Subclassification of land. Under the provisions of this act the land outside the jurisdictional boundary of a city or town, which is classified either agricultural or recreational may be subclassified by the owner subject to the terms of sections 84-7510 and 84-7511.

Section 10. There is a new R.C.M. section numbered 84-7510 that reads as follows:

84-7510. Subclassification by owners of taxable land classified as agricultural. (1) Within two (2) years following the classification of taxable land as agricultural, an owner thereof shall elect to subclassify his lands into classes A, B, C, or D, or any combination thereof. The department of revenue, upon receipt of the owner's election, shall revise the previously appraised value of such lands as follows:

Class A — appraisals shall be reduced twenty percent (20%) from their levels immediately preceding the classification;

Class B — appraisals shall be reduced ten percent (10%) from their levels immediately preceding the classification;

Class C — appraisals shall be reduced two percent (2%) from their levels immediately preceding the classification;

Class D — appraisals shall be increased ten percent (10%) from their levels immediately preceding the classification, and may be revalued in future years as provided by law to reflect market value.

(2) The owner of class A land, his heirs, successors, or assigns, may not convert the use of such lands to any nonagricultural purpose for twenty-five (25) years, nor may the subclassification be changed for twenty-five (25) years.

(3) The owner of class B land, his heirs, successors, or assigns, may not convert the use of such land to any nonagricultural purpose for ten (10) years, nor may the subclassification be changed for ten (10) years.

(4) The owner of class C land, his heirs, successors, or assigns, may change the subclassification within the agricultural classification at any time, and may petition the department of revenue at any time for reclassification into another subclassification. The department may grant this petition provided that if the subclassification is to class D, it shall not be granted until the petitioner has first paid the difference in taxes which would have been paid since the subclassification or ten (10) years, whichever is less, if during that period the land had been subclassified as class D.

(5) The owner of class D land, his heirs, successors, or assigns, may petition the department of revenue for reclassification into another category at any time, which petition shall be granted.

(6) If a voluntary subclassification of land has not been made by the owner of record within the two (2) year period, the department of revenue shall automatically place the land in class D and it shall remain in this classification unless before placing it in class D the owner of the land requests assistance from the local planning authority or the department

HeinOnline -- 1975 vol. II 1597 1975

of community affairs in determining which subclassification to elect. If this request is made by the owner of record the land will not be classified D until thirty (30) days after such assistance is provided by the local planning authority or department of community affairs.

Section 11. There is a new R.C.M. section numbered 84-7511 that reads as follows:

84-7511. Subclassification by owners of taxable land classified as recreational. (1) Within two (2) years following the classification of taxable land as recreational, in the event the land also qualifies as agricultural land, an owner thereof shall elect to subclassify any or all of his lands into class A, class B, or a combination of the two.

(2) The department shall appraise class B lands at their market value as recreational lands.

(3) The department of revenue, upon receipt of the owner's election, shall reduce the previously appraised value of class A lands by twenty-five percent (25%) and shall thereafter maintain such appraisals at seventy-five percent (75%) of the value of the land so long as it remains class A.

(4) The owner of class A land, his heirs, successors, and assigns, shall agree with the department of fish and game for a minimum of ten (10) years to permit public access across the land for outdoor recreational purposes, subject to such reasonable limitations for the protection of the land and the privacy of the persons residing thereon as the owner may stipulate. If this agreement or a renewal thereof is not in force, the subclassification of the land reverts to class B. The owner of class A recreational land, his heirs, successors, and assigns may not change the use of such land to any purpose incompatible with established recreational uses during the term of an agreement with the department of fish and game.

(5) The owner of class B land, his heirs, successors, and assigns, shall agree that in addition to meeting the standards of subsection (4) of this section, they further would agree to allow public camping and overnight stay upon their property in designated locations without charge.

(6) The department of revenue, in addition to any other tax schedule placed on the land, shall reduce the previously appraised value of class B land by forty percent (40%) and shall thereafter maintain such appraisals at sixty percent (60%) of the value of the land so long as it remains class B.

Section 12. There is a new R.C.M. section numbered 84-7512 that reads as follows:

84-7512. Valuation of residential land. After classification as residential land, whether occupied or not, the land shall not change in value for tax purposes unless it meets or is governed by the following provisions:

(1) Class A — existing residential. Tax valuation changes shall be made in the following manner:

HeinOnline -- 1975 vol. II 1598 1975

(a) If the existing usage is expanded or remodeled to expand land densities to a level ten percent (10%) higher than the property surrounding that expanded or remodeled based on a measurement of nine hundred (900) feet from the property line of the piece of property being expanded or remodeled, then the conditions of class C new residential (multifamily) shall be followed.

(b) If existing residential property is remodeled to increase its valuation, the total valuation shall be reduced for the first five (5) years after the remodeling commencing in the amount of the remodeling costs the first year and, reducing in an amount of twenty percent (20%) per year for each remaining year in the five (5) year period.

(c) Residential land whose usage is altered to one other than residential shall be valued at forty percent (40%) over the normal valuation for that usage in the state, unless the change is approved by the governing body. This increase shall apply for the first ten (10) years, after which no additional tax shall be levied. If said improvement is approved by the governing body, it shall be taxed as described in subsection (3) of this section.

(d) If residential land is transferred from this category to any class of agricultural land, after the enactment of this act, there shall be an immediate reduction of value to the appropriate subclassification of the land into which the transferred land is reclassified.

(2) Class B— new residential (single family). Any land which is converted to new residential shall be evaluated as follows:

(a) Land transferred from productive land shall be valued in accordance with the appropriate sections of this act with the following exceptions:

(i) Land indicated as a planned unit developed and approved by the governing body shall be classified for tax purposes at ten percent (10%) below the normal valuation in the area for similar developments.

(ii) Land transferred from nonproductive land to residential purposes shall be evaluated at the time of transfer in an amount to decrease the tax valuation as follows:

Land within the jurisdictional 4 ½ mile limit of a community	20% a year for a period of 5 years
Land between 4 ½ miles and 10 miles from the jurisdictional limit	10% a year for a period of 5 years
Land beyond 10 miles, measured from the (4-½) mile limit of the nearest incorporated city in a direct line	5% a year for a period of 5 years

(iii) Land taken out of production and transferred to residential shall, in addition to any other provision of this act, be increased in taxable valuation in the following amounts:

Land within the jurisdictional 4 ½ mile limit of a community	2% a year for a period of 10 years
Land between 4 ½ miles and 10 miles from the jurisdictional limit	10% a year for a period of 10 years
Land beyond the 10 mile limit, measured from the nearest incorporated city in a direct line	25% a year for a period of 10 years

(3) Class C - new residential (multifamily). Land which is transferred from any use to multifamily other than planned unit development or recreational developments as approved by the governing authority in addition to any other provision of this act shall be valued as follows:

Existing Density	Change in Density	Increase (Decrease) in Appraised Value
0 — 1	+50%	+50%
1 — 3	+40%	+25%
3.1— 9	+30%	+25%
9.1—18	+10%	+ 2%
Over 18	No change	No change

(4) Class D - commercial land. Land converted to commercial development within the classification of residential land shall be, in addition to any other portion of this act, valued as follows:

Existing Density	Change in Density	Increase (Decrease) in Appraised Value
0 — 1	+20%	+10%
1 — 3	+10%	+ 5%
3.1— 9	+ 5%	+ 2%
9.1—18	No change	No change
18.1—36	−10%	− 5%
36.1—54	−15%	−10%
54 and over	−25%	−15%

Section 13. There is a new R.C.M. section numbered 84-7513 that reads as follows:

84-7513. Valuation of commercial land. After classification as commercial, land, whether occupied or not, shall not change in value for tax purposes unless it meets or is governed by the following provisions:

(1) Class A - open undeveloped land. Open undeveloped land within the boundaries set as commercial land which has value and is not designated for usage as a parking area or park, and developed as such within two (2) years from the effective date of this act, shall be subject to taxation in the following method (after the two (2) year grace period):

1st year taxation — 1% over valuation existing at the beginning of the said two (2) years;

HeinOnline -- 1975 vol. II 1600 1975

2nd year taxation —+ 2% over the previous year's valuation;
3rd year taxation —+10% over the previous year's valuation;
3-5 years taxation—+20% over the previous year's valuation;
Over 5 years —+30% over the previous year's valuation.

(2) Class B - existing improved land. All land in a commercial class shall remain in the same taxable base until expanded or remodeled. No expansion or remodeling shall occur without approval of the governing body.

Upon remodeling or improving, it shall receive a reduction in valuation in the amount of its valuation change which shall apply as a reduction in valuation of the property for a period of five (5) years, commencing in the amount of the cost of remodeling or improving in the first year and reducing in an amount of twenty percent (20%) per year for each remaining year thereafter.

(3) Class C - existing improved land. Existing structures and buildings shall be frozen in their existing tax base for a period of ten (10) years, unless remodeled, where section 12(1)(a) shall apply. If not remodeled after ten (10) years, the following shall apply:

Commercial land location	Taxable schedule
(i) Land within and extending nine hundred (900) feet beyond that area designated by the governing authority as the central business district of a community.	Improvements shall be taxed in additional increments as follows: A ten percent (10%) increase in valuation per year until a total value for tax purposes is one hundred percent (100%) of value.

HeinOnline -- 1975 vol. II 1601 1975

(ii) Land from that designation under subsection (4) (b) (i) to the corporate boundary or city limits.	Improvements shall be taxed in additional increments as follows: A thirty-three and one-third percent (33 ⅓%) increase in valuation per year until a total value for tax purposes is one hundred percent (100%) of value.
(iii) Land lying from the corporate boundary to the four and one-half (4 ½) mile limit.	An increase in taxes over the normally assessed value of ten percent (10%) per year for a period of ten years unless given a waiver by the governing authority.
(iv) Land lying beyond the four and one-half (4 ½) mile limit.	An increase in taxes over the normally assessed value of twenty-five percent (25%) per year for fifteen (15) years unless given a waiver by the governing authority.

Section 14. There is a new R.C.M. section numbered 84-7514 that reads as follows:

84-7514. Valuation of industrial land. After being classified as industrial, land, whether occupied or not, shall not change in value for tax purposes unless it meets or is governed by the following provisions:

(1) Class A (existing industrial land). Tax valuation changes shall be made in the following manner:

(a) Class A - all lands existing at the passage of this act, in a category of developed land, which lands are to continue in their existing tax categories for ten (10) years, and which, at the end of ten (10) years, if not remodeled or cleared, are to be taxed according to commercial land class C;

(b) Class B - those lands which expand an existing facility either through the remodeling or through a value increase of 10% or more from its approved value of an existing location or the acquisition of land to expand an existing facility, or both, meeting the following requirements, shall be so classified:

(i) when the expansion has no unfavorable or adverse effects on the property surrounding the facility, and

(ii) when the immediate cost of additional local services will be covered by the tax impact of the facility, or the expanded facility will meet these needs by its own resources, and

(iii) when the new facility will create new economic opportunities for those living in the community, and

HeinOnline -- 1975 vol. II 1602 1975

(iv) when the new facility will not have an adverse effect on natural resources or scenic characteristics of the area, and

(v) when the development has been planned for and coordinated with the governing body.

(c) Class C - those lands and/or facilities which when remodeled or expanded will:

(i) cause a tax burden in the community because the expansion will require added community services to meet the impact,

(ii) not cause an unfavorable or adverse effect on the community,

(iii) the impact causes an increase in population by adding one percent (1%) or more population measured in a fifty (50) mile radius from the point of expansion, or

(iv) provide needed and desired economic impact in the community.

(d) Class D — those lands and/or facilities which when remodeled or expanded will:

(i) cause a tax burden on the community because the expansion will require additional community services to meet the impact,

(ii) cause an unfavorable or adverse effect on the community, or

(iii) cause an increase in population by adding one percent (1%) or more population to the community when measured in a fifty (50) mile radius from the point of expansion.

Section 15. There is a new R.C.M. section numbered 84-7515 that reads as follows:

84-7515. Taxation of classified industrial land. Within one (1) year after the expansion of existing industrial property into land not presently classified as industrial land, dating from the termination of the construction period the following valuation changes shall be made on the values of the land and improvements:

Location	Industrial Classification			
	CLASS A	CLASS B	CLASS C	CLASS D
Agricultural	0	+10	+ 30	+100
Recreational	+50	+75	+100	+200
Residential	0	+10	+ 30	+100
Commercial	−25	−10	0	+ 50
Industrial	−50	−25	− 10	+ 25

Expansion into open space shall not be permitted.

Section 16. There is a new R.C.M. section numbered 84-7516 that reads as follows:

84-7516. New idustrial land. New industrial land which will be of economic benefit to Montana shall be taxed and classified as follows:

(1) Class A. This classification of land shall be for those new facilities which meet the following standards:

HeinOnline -- 1975 vol. II 1603 1975

(a) An area which is planned for orderly development and has through its study shown the governing body it will meet the following minimum standards:

(i) It would have sufficient water available for its foreseeable needs.

(ii) It would not have significant adverse effects on the natural environment and would not cause undue air or water pollution.

(iii) It would not adversely affect existing land uses, scenic characteristics, natural resources or property values.

(iv) It would have or provide adequate sewage and solid waste disposal facilities.

(v) It would have, as already established, within a community, or provide if needed, to meet the following facilities to meet its anticipated population influx into the community:

(A) school, hospital and other social needs;

(B) street or highway development;

(C) parks, playgrounds and recreation developments;

(D) housing or areas for housing development;

(E) shopping facilities or see that another source develops adequate facilities to meet minimum needs.

(2) Class B. This classification of land or usage shall be for those new facilities which meet the following standards:

(a) An area which is planned for orderly development and has through its study shown the governing body it will meet the following minimum standards:

(i) It would have sufficient water available for its foreseeable needs.

(ii) It would not have significant adverse effects on the natural environment and would not cause undue air or water pollution.

(iii) It would have as already established within a community, or provide if needed, to meet the following facilities to meet its anticipated population influx into the community:

(A) school, hospital and other social needs;

(B) street and/or highway development;

(C) parks, playgrounds and recreation developments.

(3) Class C. This classification of land or usage shall be for those new facilities, which plan for the orderly growth, but make no attempt to meet proposed needs.

(4) Class D. This classification or usage governs that new usage which does not attempt to meet proposed needs, or provide a development plan accepted by the governing body.

HeinOnline -- 1975 vol. II 1604 1975

Section 17. There is a new R.C.M. section numbered 84-7517 that reads as follows:

84-7517. Taxation and classification of new industrial land. After the termination of the construction period of a new industrial facility the following adjustments in valuations shall be made. The adjustments are in addition to current evaluation standards. Classification prior to location of facility means the classification existing prior to any attempt to obtain a variance without a change in the boundary under section 84-7523 for the location of that particular facility.

Location of Facility	Classification Prior to Industrial Land Classification			
	CLASS A	CLASS B	CLASS C	CLASS D
Agricultural	+25	+35	+75	+100
Recreational	+25	+45	+85	+125
Residential	+10	+20	+50	+ 75
Commercial	−25	−15	+25	+ 50
Industrial	−50	−25	+10	+ 25

New construction on open space shall not be permitted.

Section 18. There is a new R.C.M. section numbered 84-7518 that reads as follows:

84-7518. Open space. After classification, any classified usage may be reclassified into open space for the following purposes:

(1) To assist in developing green belts and providing needed open space both the private sector and the public, may acquire or dedicate open space. If open space is acquired by the governing body, it must be:

(a) essential to the orderly growth and development of the area;

(b) in accordance with the program of comprehensive planning for the area at the time of its creation; and

(c) in accordance with the provisions of Montana law.

(2) Open space may be acquired by the governing body by purchase, trade or other means available other than condemnation. Once land is classified as open space, it must remain as such until it is determined by the governing body to be out of phase with the master plan, at which time the land may be traded for a feasible equivalent. Open space land dedicated under this act, once declared, either by the governing body or the public, may not be sold unless it meets the provisions of section 84-7519.

Section 19. There is a new R.C.M. section numbered 84-7519 that reads as follows:

84-7519. Taxation of open space. Open space shall be taxed in the following manner:

(1) If a private owner dedicates land as open space, it will remain off the tax base.

(2) Open space land dedicated in any agricultural zone may be used

HeinOnline -- 1975 vol. II 1605 1975

for agriculture as directed by the governing body, by the original owner dedicating the land and any successors in interest.

(3) No owner may classify more than ten percent (10%) of his land open space without the permission of the governing body, however, he may place any amount into recreational land as defined by this act.

(4) If timberland is removed from the tax base through this classification, it may not be harvested for profit and may be cut only for the advancement of recreational purposes.

(5) Once open space is created, acquired or classified, the owner of record must maintain the property or the open space classification may be withdrawn by the local governing body.

(6) Upon approval by the local governing body, open space may be transferred to a new use provided a payment of twice the amount of tax benefit while the land was classified as open space is paid to the local governing body.

Section 20. There is a new R.C.M. section numbered 84-7520 that reads as follows:

84-7520. Special conditions.

(1) Any land classified under this act may be, at the owner's option, reclassified at any time to a new classification within categories if allowed under the requirements of that classification as set forth in this act.

(2) Any increases in taxation to pay for the loss of revenue caused by this act shall be reflected in an increase in mill levies and not in an increase in the valuation of specific property.

(3) Any property under one (1) or more ownerships may be so classified as to meet one (1) or more of the standards of this act.

(4) Hospitals, churches, rest homes, nursing homes, governmental buildings, schools, colleges, or any charitable institution operating on a nonprofit basis under section 84-202, may be located in any area of land so classified by this act, with the exception of recreational or open space classification.

Section 21. There is a new R.C.M. section numbered 84-7521 that reads as follows:

84-7521. Rules and regulations. The state administrating agency shall adopt such rules and regulations pursuant to Montana Administrative Procedure Act, as are necessary for the administration of this act.

Section 22. There is a new R.C.M. section numbered 84-7522 that reads as follows:

84-7522. Exemptions from act. Application to those over sixty-two (62) years of age and to those existing below poverty standards. No provision of this act which has a negative or adverse taxation effect shall apply to a private residence owned by a person or persons over sixty-two (62) years of age or those in an income bracket established by the federal government to be below poverty standards.

HeinOnline -- 1975 vol. II 1606 1975

Section 23. There is a new R.C.M. section numbered 84-7523 that reads as follows:

84-7523. Changes in boundaries. After final adoption of a plan, the governing body, or any property owner may petition for a variance or a change in the boundary of any land use classification. Within ten (10) days of receipt of the petition, the governing body shall forward a copy of the petition to the affected municipal, regional, or county planning organization and the appropriate state agencies. After sixty (60) days but within one hundred twenty (120) days of the receipt of a petition, the governing body shall advertise a public hearing to be held in the county, and serve notice on the persons and agencies that have an interest in the subject of the petition, at least ten (10) days prior to the hearing date.

No petition shall be approved unless the petitioner submits proof that the area is needed for a use other than that for which the land is classified, and the following requirements have been fulfilled:

(1) The land is usable and adaptable for the use for which it is proposed to be classfied or that a new use of the land would be more beneficial to the area; and

(2) Conditions and trends of development have so changed since the adoption of the existing classification, that the proposed classification is reasonable and desirable, and the land is capable of sustaining the use proposed; and

(3) That the proposed change shall offer the community relief from impact from an outside or uncontrollable influence facing the community because of new and substantial development.

Should the governing body approve the change in classification, it shall modify the existing land use plan to reflect such changes and change any taxable valuations as may be necessary.

Section 24. There is a new R.C.M. section numbered 84-7524 that reads as follows:

84-7524. Nonconforming uses. The lawful use of land or buildings existing on the date of establishment of any classification provided for under this act may be continued although the use does not conform to this act.

Section 25. There is a new R.C.M. section numbered 84-7525 that reads as follows:

84-7525. Reappraisal by department. The appraised value of property shall always include any increases or decreases determined by the department of revenue pursuant to a reclassification plan adopted under its authority. Any increases or decreases in value specifically provided for under the terms of this act shall be made after consideration of all such reappraisals.

Section 26. **Severability.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act, or the application of the provisions to other persons or circumstances, is not affected.

HeinOnline -- 1975 vol. II 1607 1975

Section 27. There is a new R.C.M. section numbered 84-7526 that reads as follows:

84-7526. Effective dates. No portion of this act shall become effective until the provisions of section 84-7505 have been met except for those portions of land classified under the provisions of Title 11, chapter 27, R.C.M. 1947, into categories which are consistent with the provisions of this act, and as to those portions of land this act shall be effective on January 1, 1976. All appraisals and classifications made thereafter shall be made pursuant to the provisions of this act.

Section 2. An agency may request and the approving authority may approve a budget amendment to:

(1) obtain financing for a new or expanded program from funds which were not available for consideration by the legislature but which have become available from a source other than the state's general fund and other than receipts to the state from the United States government made available under the provisions of the State and Local Fiscal Assistance Act of 1972; or

(2) transfer appropriations, including general fund appropriations, between programs within a state agency; or

(3) expend remaining balances of the first fiscal year appropriations, including general fund appropriations, during the second fiscal year of the biennium. All requests for budget amendments shall be submitted through the budget director.

Section 3. In approving a budget amendment, the approving authority shall certify:

Section 10. If any section, subsection, sentence, clause, or phrase of this act is for any reason held unconstitutional, such decision shall not affect the validity of the remaining portions of this act.

Section 11. The provisions set forth in this section are limitations on the appropriations made in this act, provided, however, that these limitations do not apply to the distribution of public funds under the superintendent of public instruction. It is the purpose of the legislature in enacting this bill only to appropriate funds and to restrict and limit by its provisions the amount and conditions under which the appropriations can be expended. Except as otherwise provided in this act, the expenditures of appropriations are hereby subject to the following general and specific provisions:

(1) All expenditures of funds appropriated by this act for purpose of travel, transportation, and vacation and sick leave are subject to the provisions of law expressed in Title 59, R.C.M. 1947.

(2) All expenditures of funds appropriated by this act for the purchase of property, materials, and supplies are subject to the provisions of law expressed in Title 82, chapter 19, R.C.M. 1947.

(3) All expenditures of funds appropriated by this act shall be made in accordance with the provisions of section 82-109, R.C.M. 1947, which specifies that expenditures shall be applied against non-general fund moneys before general fund moneys.

(4) All moneys collected or received by agencies subject to this act from any source whatsoever, including federal grants for research and operations, shall be deposited in the state treasury pursuant to provisions of Title 79, R.C.M. 1947, except that the department of administration may, pursuant to section 79-603, R.C.M. 1947, permit any agency subject to this act to retain in its possession moneys that would otherwise be deposited in the state treasury.

(5) All expenditures of funds appropriated by this act shall be reported and accounted for in accordance with procedures and systems established by the department of administration pursuant to section 82-110, R.C.M. 1947.

HOUSE BILL NO. 265

AN ACT TO APPROPRIATE MONEYS TO VARIOUS STATE AGENCIES FOR THE FISCAL YEAR ENDING JUNE 30, 1975; PROVIDING FOR OTHER MATTERS RELATING TO THE APPROPRIATIONS; AND PROVIDING AN EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. For the purposes of this act, unless otherwise stated:

(1) "Agency" includes all state offices, departments, divisions, boards, commissions, councils, committees, institutions, and other entities or instrumentalities of state government.

(2) "Program" means a segment that includes a combination of planned efforts to provide a service.

(3) "Approved budget amendment" means approval by the governor, or his designated representative, of a request submitted through the budget director to:

(a) obtain financing for a new or expanded program from funds which were not available for consideration by the legislature but which have become available from a source other than the state's general fund; or

(b) transfer appropriations, including general fund appropriations, between programs within a state agency; or

(c) expend remaining balances of the first fiscal year appropriations, including general fund appropriations, during the second fiscal year of the biennium.

Section 2. The appropriations contained in this act are intended to provide only necessary and ordinary expenditures for the year for which the appropriations are made. Except for amounts subject to accrual at the end of each fiscal year, the unexpended balance of any appropriation shall revert to the fund from which it was appropriated. In case of necessity, an appropriation not expended during the first fiscal year of the biennium may be expended during the second fiscal year by approved budget amendment.

HeinOnline -- 1975 vol. II 1624 1975

Section 3. The appropriations in this act are intended to provide for all expenditures for:

(1) personal services;

(2) all other ordinary and necessary expenditures for the operation of the agency and the program to which the appropriation applies;

(3) repairs and maintenance, other than major alterations of existing buildings; and

(4) the purchase or replacement of capital items other than expenditures for the construction, improvement, or furnishing of buildings or purchase of buildings or land unless specifically authorized.

Section 4. Financing for new or expanded programs from sources other than the general fund may be made available by approved budget amendment.

Section 5. Each agency shall submit to the budget director, on or before July 1 of each fiscal year, an operational plan within the limits of appropriations which includes the position and salary of all officers and employees. The salary of the chief administrator of each agency shall be determined by the appointing authority. Informational copies of operational plan changes shall be submitted to the budget director for review.

Section 6. No new program may be established and no existing program may be expanded beyond the scope of the programs approved by the legislature in the 1975 biennial budget, unless the new program or the program expansion and its method of financing is approved by the governor, or his designated representative after presentation through the budget director.

Section 7. Transfers of appropriated funds between programs of an agency may be made only by an approved budget amendment.

Section 8. If the operation of a state agency is financed by an appropriation or appropriations from the general fund as well as by appropriation from other sources, the funds provided by appropriation from the general fund shall be decreased by the amount that the funds received from other sources exceeds the amount from other sources appropriated by the legislature in the 1975 biennial budget, provided that:

(1) the decrease does not jeopardize the receipt of the funds to be received from other sources; and

(2) this section shall not apply to any excess funds if they are to be expended for a new or expanded program approved by the governor, or his designated representative upon a request submitted to him through the budget director.

Section 9. When an agency receives federal funds as a reimbursement for the cost of administering a federal program and this cost was financed by a general fund appropriation, the federal funds shall be deposited into the general fund unless usage of the federal funds is restricted by federal provisions.

HeinOnline -- 1975 vol. II 1625 1975

Section 10. The governor may reduce any appropriation by not more than fifteen percent (15%) except appropriations for:

(1) payment of interest and retirement of the state debt;

(2) operation of the legislature;

(3) public schools;

(4) the judiciary; or

(5) salaries of elected officials, during their term of office.

Section 11. If any section, subsection, sentence, clause, or phrase of this act is for any reason held unconstitutional, such decision shall not affect the validity of the remaining portions of this act.

HOUSE BILL NO. 269

AN ACT APPROPRIATING MONEYS TO VARIOUS STATE AGENCIES FOR THE BIENNIUM ENDING JUNE 30, 1977.

Be it enacted by the Legislature of the State of Montana:

Section 1. For the purposes of this act, unless otherwise stated:

(1) "Agency" includes all state offices, departments, divisions, boards, commissions, councils, committees, institutions, and other entities or instrumentalities of the executive branch, offices of the judicial branch, and offices of the legislative branch of state government.

(2) "Approving authority" means the governor, or his designated representative, for executive branch agencies; the chief justice of the supreme court for judicial branch agencies; or the appropriate legislative committees for legislative branch agencies, unless otherwise provided by law.

Section 2. An agency may request and the approving authority may approve a budget amendment to:

(1) obtain financing for a new or expanded program from funds which were not available for consideration by the legislature but which have become available from a source other than the state's general fund and other than receipts to the state from the United States government made available under the provisions of the State and Local Fiscal Assistance Act of 1972; or

(2) transfer appropriations, including general fund appropriations, between programs within a state agency; or

(3) expend remaining balances of the first fiscal year appropriations, including general fund appropriations, during the second fiscal year of the biennium. All requests for budget amendments shall be submitted through the budget director.

Section 3. In approving a budget amendment, the approving authority shall certify:

(1) specific additional services to be provided as a result of a higher expenditure level;

(2) that no other alternative is available to provide the additional services;

(3) that the additional proposed services have not been considered and rejected by the legislature; and

(4) that no commitment, implied or otherwise, is made for increased future general fund support.

Section 4. The appropriations contained in this act are intended to

HeinOnline -- 1975 vol. II 1629 1975

provide only necessary and ordinary expenditures for the year for which the appropriations are made. The unexpended balance of any appropriation shall revert to the fund from which it was appropriated.

Section 5. Expenditures shall not exceed appropriations except as otherwise provided in this act.

Section 6. Each department, agency and program of the executive branch shall submit to the budget director by July 1 of each fiscal year a detailed budget within the limits of the appropriation which includes the position and salary of each employee. Expenditures shall be made only in accordance with budgets approved by the budget director for executive branch agencies; by the chief justice of the supreme court for judicial branch agencies; and by the appropriate legislative committees for legislative branch agencies.

Section 7. If the operation of a state agency is financed by an appropriation or appropriations from the general fund as well as by appropriation from other sources, the funds provided by appropriation from the general fund shall be decreased by the amount that the funds received from other sources exceeds the amount from other sources appropriated by the 44th Legislature, unless a budget amendment has been approved by the appropriate approving authority.

Section 8. All federal funds received as a reimbursement for the cost of administering the federal funds when the cost was financed from the general fund shall revert to the general fund.

Section 9. The governor may reduce any appropriation by not more than fifteen percent (15%) except appropriations for:

(1) payment of interest and retirement of the state debt;

(2) the legislative branch;

(3) public schools;

(4) the judicial branch; or

(5) salaries of elected officials, during their term of office.

Section 10. If any section, subsection, sentence, clause, or phrase of this act is for any reason held unconstitutional, such decision shall not affect the validity of the remaining portions of this act.

Section 11. The provisions set forth in this section are limitations on the appropriations made in this act, provided, however, that these limitations do not apply to the distribution of public funds under the superintendent of public instruction. It is the purpose of the legislature in enacting this bill only to appropriate funds and to restrict and limit by its provisions the amount and conditions under which the appropriations can be expended. Except as otherwise provided in this act, the expenditures of appropriations are hereby subject to the following general and specific provisions:

(1) All expenditures of funds appropriated by this act for purpose of travel, transportation, and vacation and sick leave are subject to the provisions of law expressed in Title 59, R.C.M. 1947.

HeinOnline -- 1975 vol. II 1630 1975

(2) All expenditures of funds appropriated by this act for the purchase of property, materials, and supplies are subject to the provisions of law expressed in Title 82, chapter 19, R.C.M. 1947.

(3) All expenditures of funds appropriated by this act shall be made in accordance with the provisions of section 82-109, R.C.M. 1947, which specifies that expenditures shall be applied against non-general fund moneys before general fund moneys.

(4) All moneys collected or received by agencies subject to this act from any source whatsoever, including federal grants for research and operations, shall be deposited in the state treasury pursuant to provisions of Title 79, R.C.M. 1947, except that the department of administration may, pursuant to section 79-603, R.C.M. 1947, permit any agency subject to this act to retain in its possession moneys that would otherwise be deposited in the state treasury.

(5) All expenditures of funds appropriated by this act shall be reported and accounted for in accordance with procedures and systems established by the department of administration pursuant to section 82-110, R.C.M. 1947.

HOUSE BILL NO. 271

AN ACT TO APPROPRIATE MONIES TO THE BOARD OF REGENTS FOR THE UNIVERSITY SYSTEM UNITS FOR THE BIENNIUM ENDING JUNE 30, 1977, AND PROVIDING FOR OTHER MATTERS RELATING TO THE APPROPRIATIONS.

Be it enacted by the Legislature of the State of Montana:

HeinOnline -- 1975 vol. II 1641 1975

Section 1. For the purposes of this act, unless otherwise stated:

(1) "University system unit" means the board of regents, office of the commissioner of higher education, the university of Montana at Missoula, Montana state university at Bozeman, Montana college of mineral science and technology at Butte, eastern Montana college at Billings, northern Montana college at Havre, western Montana college at Dillon, the agricultural station with central offices at Bozeman, the cooperative extension service with central offices at Bozeman, or the bureau of mines and geology with central offices at Butte.

(2) "Program" means a segment of a university system unit that includes a combination of planned efforts to provide a service.

(3) "Approved budget amendment" means approval by the board of regents unless otherwise provided by law, of a request to:

(a) obtain financing for new or expanded programs from funds which were not available for consideration by the legislature but which have become available from a source other than the state's general fund; or

(b) transfer not more than fifteen percent (15%) of any single university system unit's appropriations, including general fund appropriation between units and transfer appropriations between programs within a university system unit; or

(c) expend remaining balances of the first fiscal year of the biennial appropriations, including general fund appropriations, during the second fiscal year of the biennium.

Section 2. The appropriations contained in this act are intended to provide only necessary and ordinary expenditures for the year for which the appropriations are made. The unexpended balance of any appropriation shall revert to the fund from which it was appropriated. In case of necessity, an appropriation not expended during the first fiscal year of the biennium may be expended during the second fiscal year by approved budget amendment.

Section 3. Expenditures shall not exceed appropriations except as otherwise provided by approved budget amendment.

Section 4. Budgets for each new year by university system unit and program shall be approved by the board of regents and be available for review at the office of the commissioner of higher education on or before July 1 of that fiscal year. Expenditures shall be made only in accordance with approved budgets. Budgets shall reflect the position and salary of all officers and employees by program. Copies of budgets and subsequent budget amendments shall be submitted to the office of the budget director and the legislative finance committee.

Section 5. No new programs may be established and no existing programs may be expanded beyond the scope of the programs approved by the forty-fourth legislature, unless the new programs or the program expansions and their method of financing is approved in an approved budget amendment.

HeinOnline -- 1975 vol. II 1642 1975

Section 6. Transfers of appropriated funds between programs and university system units may be made only by approved budget amendment.

Section 7. If the operation of a university system unit is financed by an appropriation or appropriations from the general fund as well as by appropriations from other sources, the funds provided by appropriations from the general fund shall be decreased by the amount that the funds received from other sources exceeds the amount from other sources appropriated by the forty-fourth legislature, unless provided by approved budget amendment.

Section 8. All federal funds received as a reimbursement for the cost of administering the federal funds shall revert to the general fund if such reimbursement exceeds nine hundred eighty-three thousand dollars ($983,000).

Section 9. The governor may reduce any appropriation in this act by not more than fifteen percent (15%).

Section 10. If any section, subsection, sentence, clause, or phrase of this act is for any reason held unconstitutional, such decision shall not affect the validity of the remaining portions of this act.

Section 11. The following moneys are appropriated to the board of regents for the respective university system units for the biennium ending June 30, 1977:

Section 12. The provisions set forth in this section are limitations on the appropriations made in this act. It is the purpose of the legislature in enacting this bill only to appropriate funds and to restrict and limit by its provisions the amount and conditions under which the appropriations can be expended. Except as otherwise provided in this act, the expenditures of appropriations are hereby contingent upon the board of regents certifying to the budget director that the university units shall comply completely with the following general and specific provisions:

(1) All expenditures of funds appropriated by this act for purpose of travel, transportation, and vacation and sick leave are subject to the provisions of law expressed in Title 59, R.C.M. 1947.

(2) All expenditures of funds appropriated by this act for the purchase of property, materials and supplies are subject to the provisions of law expressed in Title 82, chapter 19, R.C.M. 1947.

(3) All expenditures of funds appropriated by this act shall be made in accordance with the provisions of section 82-109, R.C.M. 1947, which specifies that expenditures shall be applied against nongeneral fund moneys before general fund moneys.

(4) All moneys collected or received by university system units subject to this act from any source whatsoever, including federal grants for research and operations, and any moneys received from a foundation shall be deposited in the state treasury pursuant to the provisions of Title 79, R.C.M. 1947, except that the department of administration may, pursuant to section 79-603, R.C.M. 1947, permit any university system unit subject to this act to retain in its possession moneys that would otherwise be deposited in the state treasury, provided that the anonymity of private foundation donors shall be maintained and that private donations shall not be used as an offset to general fund appropriations.

(5) By July 1, 1976, all assets, liabilities, balances, receipts and expenditures of each university unit shall be accounted for in a uniform manner under a centralized accounting system which shall be totally consistent with the requirements and guidelines of the "Industry Audit Guide, Audits of Colleges and Universities" of the American Institute of Certified Public Accountants and "College and University Business Administration" prepared by the National Association of College and University Business Officers.

HeinOnline -- 1975 vol. II 1647 1975

It is the intent of the legislature that duplication of existing accounting systems not occur and that to assure a coordinated state accounting system, the department of administration and budget director assist the board of regents in developing and implementing the centralized system.

(6) Salary increases for presidents of units of the university system and for the commissioner of higher education shall not exceed five percent (5%) each year of the biennium using the respective fiscal year 74-75 salaries previously approved by the regents as the basis for determining such increases.

In the absence of such certification of compliance, the appropriations in this act are null and void.

The regents shall grant classified university employees salaries in accord with House Joint Resolution 37, forty-fourth legislature.

Approved May 1, 1975.

Section 2. The limitations on salary adjustments for state employees for state employees for the 1975 biennium contained in section 12, House Bill 747, Session Laws of 1974 are hereby removed.

Section 3. This act is effective upon passage and approval.

Approved April 21, 1975.

HOUSE BILL NO. 285

AN ACT APPROPRIATING MONEYS TO VARIOUS STATE AGENCIES FOR THE BIENNIUM ENDING JUNE 30, 1977.

Be it enacted by the Legislature of the State of Montana:

Section 1. For the purposes of this act, unless otherwise stated:

(1) "Agency" includes all state offices, departments, divisions, boards, commissions, councils, committees, institutions, and other entities or instrumentalities of the executive branch, offices of the judicial branch, and offices of the legislative branch of state government.

(2) "Approving authority" means the governor, or his designated representative, for executive branch agencies; the chief justice of the supreme court for judicial branch agencies; or the appropriate legislative committees for legislative branch agencies, unless otherwise provided by law.

Section 2. An agency may request and the approving authority may approve a budget amendment to:

(1) obtain financing for a new or expanded program from funds which were not available for consideration by the legislature but which have become available from a source other than the state's general fund and other than receipts to the state from the United States government made available under the provisions of the State and Local Fiscal Assistance Act of 1972; or

(2) transfer appropriations, including general fund appropriations, between programs within a state agency; or

(3) expend remaining balances of the first fiscal year appropriations, including general fund appropriations, during the second fiscal year of the biennium. All requests for budget amendments shall be submitted through the budget director.

Section 3. In approving a budget amendment, the approving authority shall certify

(1) specific additional services to be provided as a result of a higher expenditure level;

(2) that no other alternative is available to provide the additional services;

HeinOnline -- 1975 vol. II 1667 1975

(3) that the additional proposed services have not been considered and rejected by the legislature; and

(4) that no commitment, implied or otherwise, is made for increased future general fund support.

Section 4. The appropriations contained in this act are intended to provide only necessary and ordinary expenditures for the year for which the appropriations are made. The unexpended balance of any appropriation shall revert to the fund from which it was appropriated.

Section 5. Expenditures shall not exceed appropriations except as otherwise provided in this act.

Section 6. Each department, agency and program of the executive branch shall submit to the budget director by July 1 of each fiscal year a detailed budget within the limits of the appropriation which includes the position and salary of each employee. Expenditures shall be made only in accordance with budgets approved by the budget director for executive branch agencies; by the chief justice of the supreme court for judicial branch agencies; and by the appropriate legislative committees for legislative branch agencies.

Section 7. If the operation of a state agency is financed by an appropriation or appropriations from the general fund as well as by appropriation from other sources, the funds provided by appropriation from the general fund shall be decreased by the amount that the funds received from other sources exceeds the amount from other sources appropriated by the 44th Legislature, unless a budget amendment has been approved by the appropriate approving authority.

Section 8. All federal funds received as a reimbursement for the cost of administering the federal funds when the cost was financed from the general fund shall revert to the general fund.

Section 9. The governor may reduce any appropriation by not more than fifteen percent (15%) except appropriations for:

(1) payment of interest and retirement of the state debt;

(2) the legislative branch;

(3) public schools;

(4) the judicial branch; or

(5) salaries of elected officials, during their term of office.

Section 10. If any section, subsection, sentence, clause, or phrase of this act is for any reason held unconstitutional, such decision shall not affect the validity of the remaining portions of this act.

Section 11. The provisions set forth in this section are limitations on the appropriations made in this act, provided, however, that these limitations do not apply to the distribution of public funds under the superintendent of public instruction. It is the purpose of the legislature in enacting this bill only to appropriate funds and to restrict and limit by

its provisions the amount and conditions under which the appropriations can be expended. Except as otherwise provided in this act, the expenditures of appropriations are hereby subject to the following general and specific provisions:

(1) All expenditures of funds appropriated by this act for purpose of travel, transportation, and vacation and sick leave are subject to the provisions of law expressed in Title 59, R.C.M. 1947.

(2) All expenditures of funds appropriated by this act for the purchase of property, materials, and supplies are subject to the provisions of law expressed in Title 82, chapter 19, R.C.M. 1947.

(3) All expenditures of funds appropriated by this act shall be made in accordance with the provisions of section 82-109, R.C.M. 1947, which specifies that expenditures shall be applied against non-general fund moneys before general fund moneys.

(4) All moneys collected or received by agencies subject to this act from any source whatsoever, including federal grants for research and operations, shall be deposited in the state treasury pursuant to provisions of Title 79, R.C.M. 1947, except that the department of administration may, pursuant to section 79-603, R.C.M. 1947, permit any agency subject to this act to retain in its possession moneys that would otherwise be deposited in the state treasury.

(5) All expenditures of funds appropriated by this act shall be reported and accounted for in accordance with procedures and systems established by the department of administration pursuant to section 82-110, R.C.M. 1947.

HOUSE BILL NO. 289

AN ACT APPROPRIATING MONEYS TO VARIOUS STATE AGENCIES FOR THE BIENNIUM ENDING JUNE 30, 1977.

Be it enacted by the Legislature of the State of Montana:

Section 1. For the purposes of this act, unless otherwise stated:

(1) "Agency" includes all state offices, departments, divisions, boards, commissions, councils, committees, institutions, and other entities or instrumentalities of the executive branch, offices of the judicial branch, and offices of the legislative branch of state government.

(2) "Approving authority" means the governor, or his designated representative, for executive branch agencies; the chief justice of the supreme court for judicial branch agencies; or the appropriate legislative committees for legislative branch agencies, unless otherwise provided by law.

Section 2. An agency may request and the approving authority may approve a budget amendment to:

(1) obtain financing for a new or expanded program from funds which were not available for consideration by the legislature but which have become available from a source other than the state's general fund and other than receipts to the state from the United States government made available under the provisions of the State and Local Fiscal Assistance Act of 1972; or

(2) transfer appropriations, including general fund appropriations, between programs within a state agency; or

(3) expend remaining balances of the first fiscal year appropriations, including general fund appropriations, during the second fiscal year of the biennium. All requests for budget amendments shall be submitted through the budget director.

Section 3. In approving a budget amendment, the approving authority shall certify:

(1) specific additional services to be provided as a result of a higher expenditure level;

(2) that no other alternative is available to provide the additional services;

HeinOnline -- 1975 vol. II 1682 1975

(3) that the additional proposed services have not been considered and rejected by the legislature; and

(4) that no commitment, implied or otherwise, is made for increased future general fund support.

Section 4. The appropriations contained in this act are intended to provide only necessary and ordinary expenditures for the year for which the appropriations are made. The unexpended balance of any appropriation shall revert to the fund from which it was appropriated.

Section 5. Expenditures shall not exceed appropriations except as otherwise provided in this act.

Section 6. Each department, agency and program of the executive branch shall submit to the budget director by July 1 of each fiscal year a detailed budget within the limits of the appropriation which includes the position and salary of each employee. Expenditures shall be made only in accordance with budgets approved by the budget director for executive branch agencies; by the chief justice of the supreme court for judicial branch agencies; and by the appropriate legislative committees for legislative branch agencies.

Section 7. If the operation of a state agency is financed by an appropriation or appropriations from the general fund as well as by appropriation from other sources, the funds provided by appropriation from the general fund shall be decreased by the amount that the funds received from other sources exceeds the amount from other sources appropriated by the 44th Legislature, unless a budget amendment has been approved by the appropriate approving authority.

Section 8. All federal funds received as a reimbursement for the cost of administering the federal funds when the cost was financed from the general fund shall revert to the general fund.

Section 9. The governor may reduce any appropriation by not more than fifteen percent (15%) except appropriations for:

(1) payment of interest and retirement of the state debt;

(2) the legislative branch;

(3) public schools;

(4) the judicial branch; or

(5) salaries of elected officials, during their term of office.

Section 10. If any section, subsection, sentence, clause, or phrase of this act is for any reason held unconstitutional, such decision shall not affect the validity of the remaining portions of this act.

Section 11. The provisions set forth in this section are limitations on the appropriations made in this act, provided, however, that these limitations do not apply to the distribution of public funds under the superintendent of public instruction. It is the purpose of the legislature in enacting this bill only to appropriate funds and to restrict and limit by

HeinOnline -- 1975 vol. II 1683 1975

its provisions the amount and conditions under which the appropriations can be expended. Except as otherwise provided in this act, the expenditures of appropriations are hereby subject to the following general and specific provisions:

(1) All expenditures of funds appropriated by this act for purpose of travel, transportation, and vacation and sick leave are subject to the provisions of law expressed in Title 59, R.C.M. 1947.

(2) All expenditures of funds appropriated by this act for the purchase of property, materials, and supplies are subject to the provisions of law expressed in Title 82, chapter 19, R.C.M. 1947.

(3) All expenditures of funds appropriated by this act shall be made in accordance with the provisions of section 82-109, R.C.M. 1947, which specifies that expenditures shall be applied against non-general fund moneys before general fund moneys.

(4) All moneys collected or received by agencies subject to this act from any source whatsoever, including federal grants for research and operations, shall be deposited in the state treasury pursuant to provisions of Title 79, R.C.M. 1947, except that the department of administration may, pursuant to section 79-603, R.C.M. 1947, permit any agency subject to this act to retain in its possession moneys that would otherwise be deposited in the state treasury.

(5) All expenditures of funds appropriated by this act shall be reported and accounted for in accordance with procedures and systems established by the department of administration pursuant to section 82-110, R.C.M. 1947.

WHEREAS, the constitution of the state of Montana prohibits discrimination based on sex; and

WHEREAS, the Montana legislature is in the process of implementing this constitutional provision; and

WHEREAS, two (2) provisions of the Revised Codes of Montana, 1947, sections 71-501 and 71-508 provide for aid to dependent children who are deprived of parental support or care by reason of the unemployment of the father and provide funding for county programs of aid to dependent children who are deprived of support and care by the unemployment of the father; and

WHEREAS, the provisions of these two sections result in different eligibility standards for fathers and mothers; and

WHEREAS, federal regulations are such as to prohibit the elimination of the sexual discrimination in these statutes.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Congress and the President of the United States are requested to effect such changes in federal statutes and regulations which will not distinguish between persons because of sex and which will permit states to eliminate such sexual discrimination as exists in statutes such as sections 71-501 and 71-508, R.C.M. 1947.

BE IT FURTHER RESOLVED, that the Secretary of State is instructed to send copies of this resolution to the President of the United States, the Secretary of the United States Senate, the Clerk of the United States House of Representatives, the Secretary of Health, Education and Welfare and to each Montana Congressman.

HeinOnline -- 1975 vol. II 1710 1975

WHEREAS, the Montana Flathead River drainage, which includes the west slope of Glacier-Waterton International Peace Park and all of Flathead Lake, is enjoyed by thousands of Montanans and Canadians because the unspoiled air and water provide an excellent region for year-around outdoor recreation, and

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the State of Montana expresses its deep concern that the development of open-pit coal mining and of other energy resources along the headwaters of the North Fork of the Flathead River, on both sides of the international border, should not be permitted to degrade the high quality of the air and water in the Flathead River drainage, and

BE IT FURTHER RESOLVED, that the State of Montana urges the instrumentalities of the governments of Canada, the Province of British Columbia, the United States, and Montana to exercise the greatest attention when reviewing and issuing mining permits for developing the coal and other energy resources along the Flathead River, the proposed Poplar River Project, Saskatchewan Project, and other river drainages and to take affirmative action in order to assure that all reasonable precautions will be taken to preserve the high quality of the air and water all along the Flathead River, Poplar River Project, Saskatchewan Project, and other rivers, and

HOUSE JOINT RESOLUTION NO. 6

WHEREAS, when the United States Congress enacted the first Social Security Act in 1935, one of the assumptions then current was that very few married women held employment outside the home, and

WHEREAS, section 202 (q) of the Social Security Act, now codified, as amended, at 42 U.S. Code section 402 (q), reduces a woman's social security entitlements under various circumstances involving her marital status and bearing no relationship to her contributions into the social security fund, and

WHEREAS, now that the United States Congress has adopted and presented to the states an Equal Rights amendment to the national constitution, the Congress should in the same spirit eliminate from the social security statutes any discriminatory classifications based upon sex.

HeinOnline -- 1975 vol. II 1714 1975

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the United States Congress should study the social security laws, and prepare amendments thereto, designed to eliminate any discrimination based upon sex or upon the assumption that most women cannot or do not combine marriage with gainful employment.

BE IT FURTHER RESOLVED, That the Secretary of State transmit copies of this resolution as petitions to the Senate and House of Representatives of the United States, and to the Montana Congressional delegation.

HOUSE JOINT RESOLUTION NO. 7

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THE PRESIDENT OF THE UNITED STATES, THE UNITED STATES SENATE BIPARTISAN AD HOC COMMITTEE ON THE WORLD FOOD CRISIS AND MONTANA'S CONGRESSIONAL DELEGATION TO FOSTER AND SPONSOR THE INCLUDED PROVISIONS OF THIS RESOLUTION DIRECTED AT RESOLVING THE WORLD FOOD CRISIS.

WHEREAS, the world food crisis is part of the larger pattern of global interdependence. The crisis is linked directly and systematically with questions of environment, population, economic relationships, political, and military power.

WHEREAS, world hunger and malnutrition are part of this complex pattern and must be attacked on two levels: immediate assistance programs to prevent starvation in many regions in the world; and a long-range program to increase food production, especially in less industrialized nations.

WHEREAS, the long-range program must strike at the root problem of underdevelopment which plagues the peoples of many nations. Plans for agricultural and livestock development require cooperation by the United States government, the poorer nations, the FAO and voluntary agencies including all religious faiths.

WHEREAS, it is not enough, however, that such development merely foster economic growth. Development must significantly reach the "little farmer" and so-called marginal people, and reduce the gap between the wealthy and the poor.

WHEREAS, moreover, the food crisis poses for the United States, both domestic and international implications. An appropriate legislative response for the United States must include the series of interrelated

HeinOnline -- 1975 vol. II 1715 1975

activities at the level of public policy—legislative program, community information and education.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

Acting through this joint august body, a program of public discussion be proposed directed toward influencing appropriate executive and legislative action which, in a systematic and organized way, will seek to achieve national policies effectively dealing with the food issue, internationally and domestically.

The fundamental premise of the program is that food is a unique commodity and a sacred resource. The guidelines for legislative initiatives meriting the support of this august body are as follows:

FIRST, increase genuine agricultural and livestock development overseas; technical assistance and development programs must be expanded to promote greater food production for less industrialized nations;

SECOND, increase funding for Food for Peace (PL480); as an immediate step, increase substantially food allocations through Title II of Food for Peace (Humanitarian Aid) and resist efforts to use food as a political and strategic weapon;

THIRD, modify U.S. trade policies to lower trade barriers and to provide just prices for imports from poor countries. Special trade preferences for these nations' exports and substantially increased adjustment assistance for adversely affected U.S. workers and industries must be part of this revised trade policy;

FOURTH, assure American farmers and ranchers of a fair return for their capital and labor. The productivity and viability of American agriculture must be maintained. Serious disruption of this sector of the economy could adversely affect the world food crisis;

FIFTH, promote more equitable distribution of resources in the United States. Areas of legislation in this regard are the following: expanding programs of food stamps and school lunches, providing special assistance to the elderly, the unemployed and the poor, revising income tax burdens and to restructuring land use policies;

SIXTH, protect both family farmers who are often subject to severe economic pressures in the agricultural chain of food production, processing and sales, and also consumers in middle and lower income categories;

SEVENTH, modify the operation of the free market system, especially the impact of the large corporation, when it stands in the way of justice;

EIGHTH, since the food crisis is a long-term problem as well as an immediate concern, it will be necessary to keep the structural dimensions of the issue, both in its factual and moral aspects, before the public, and

BE IT FURTHER RESOLVED that copies of this joint resolution be sent by the Secretary of State to the President of the United States, the United States Senate Bipartisan Ad Hoc Committee on the World Food Crisis; Senators Hatfield, Clark, McGovern, Case, and Humphrey; also,

HeinOnline -- 1975 vol. II 1716 1975

members of the Montana Congressional Delegation; Senator Mansfield, Senator Metcalf, Representative Melcher, and Representative Baucus.

Approved March 19, 1975.

WHEREAS, Montana is a large producer and processor of beef cattle, and

WHEREAS, the market price of cattle when sold by the producer is much less than the price paid for processed beef by the consumer, and

WHEREAS, beef that is raised in the state, sold in the state, and processed in the state should be priced lower than beef that passes through interstate commerce, and

WHEREAS, federal efforts to investigate beef pricing practices require that the beef be involved in interstate commerce, and

WHEREAS, any federal regulation affecting beef pricing practices would not necessarily affect beef raised, sold, and processed exclusively in Montana, and

WHEREAS, it is deemed advisable that the public be fully informed of beef pricing practices in Montana and protected against price-fixing, and

WHEREAS, the Legislature in the exercise of its powers and duties has the right to investigate any subject, hold hearings, and compel witnesses to testify.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That a select committee of nine (9) persons be appointed to investigate beef pricing practices in Montana, particularly the prices that accrue between the time the stock grower sells his cattle and the time the consumer purchases the processed beef, and to investigate the pricing practices of any other Montana livestock it deems necessary, and

BE IT FURTHER RESOLVED, that the select committee shall have the authority to conduct its investigation under the procedures defined in Part X, Chapter 75, Sections 795, 800, 801, and 802 of Mason's Manual of Legislative Procedure, including the compelling of witnesses to testify before it, and

BE IT FURTHER RESOLVED, that the select committee report any possible or alleged violations of law it discovers in connection with its

HeinOnline -- 1975 vol. II 1717 1975

BE IT FURTHER RESOLVED, that the select committee may request and shall receive the services of the Legislative Auditor and the Legislative Council if it so desires in the performance of its investigation, and

BE IT FURTHER RESOLVED, that the select committee may request the services of the various county attorneys in the performance of its investigation, and

BE IT FURTHER RESOLVED, that the select committee may hire investigators and support staff, if it so deems necessary, pursuant to proper appropriations, and

BE IT FURTHER RESOLVED, that the nine (9) committee members shall be appointed in the following manner:

(a) the President of the Senate shall appoint four (4) Senate members, not more than two (2) from the same political party;

(b) the Speaker of the House of Representatives shall appoint five (5) House members, not more than three (3) from the same political party; and

(c) the chairman shall be chosen by the Speaker of the House of Representatives and the vice chairman by the President of the Senate of the nine (9) member committee; and

BE IT FURTHER RESOLVED, that the committee report its findings and recommendations to the Forty-fifth Montana Legislature and to the Montana Congressional Delegation.

Approved February 20, 1975.

That, the U.S. Department of Agriculture continue the ACP programs, specifically cost-sharing for lining ditches of irrigation systems.

HOUSE JOINT RESOLUTION NO. 14

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING THE DEPARTMENT OF ADMINISTRATION TO PROCEED WITH DISPATCH IN IMPLEMENTING AND ENFORCING THE BUILDING CODE FOR MOBILE HOMES.

WHEREAS, many Montanans who have purchased mobile homes have found poor construction in the structures, with flimsy materials, defective wiring and plumbing, and rapid deterioration all being frequent problems, and

WHEREAS, the building codes council within the department of administration has recently responded to these problems by promulgating a building code for mobile homes sold in Montana, and

WHEREAS, the action of the building codes council will be effective only if it is vigorously enforced.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the department of administration should give top priority within its building codes enforcement programs to measures which will promptly achieve full and firm enforcement of mobile home construction standards, including the employment of enough field investigators throughout the state that complaints can be quickly investigated and consumers protected.

HOUSE JOINT RESOLUTION NO. 15

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THE COMMITTEE ON PRIORITIES TO ASSIGN A COMPREHENSIVE STUDY OF MONTANA'S FIRE PROTECTION LAWS.

WHEREAS, the problem consists of a myriad of specific fire situations, including city structural fire protection, scattered rural structural fire protection, grassland and agricultural fires, and fires involving the forests and related structures within and adjacent to the forests, and

WHEREAS, a patchwork of overlapping, complex, and obsolete laws and regulations has emerged, creating confusion to landowners and the various fire protection agencies, and resulting in duplication of services and expenses.

(1) That the committee on priorities be requested to assign a comprehensive study of Montana's fire protection laws.

WHEREAS, it is essential to the well-being not only of Montana but to the entire nation that the state of Montana and in particular the agricultural community be provided with sufficient petroleum fuels so that the state of Montana can continue to produce the foods so necessary to the health and well-being of the entire nation; and

WHEREAS, all industry in the state needs the necessary petroleum products to maintain economic and industrial development; and

WHEREAS, an adequate supply of petroleum fuels for Montana can only be supplied by refineries operating in the state of Montana; and

HeinOnline -- 1975 vol. II 1720 1975

WHEREAS, Canadian crude oil imports into the United States are being allocated among United States refineries by the National Energy Board of Canada; and

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Governor of the state of Montana, the Congress and the President of the United States request the Federal Energy Administration to assume the responsibility for and take immediate action in properly allocating crude oil imported from Canada; and

BE IT FURTHER RESOLVED, that the President is urged to recognize the importance of a national policy of maximizing food production; that the sheep industry, which is capable of producing choice red meat and a superior fiber from forage without depleting either food grains or petroleum supplies is an important part of that policy which presently requires the aid of the President to protect it from predators.

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THE FEDERAL GOVERNMENT'S ENERGY POLICY MAKERS TO CONSIDER THE NEEDS OF THE AMERICAN PEOPLE AS WELL AS THE NEEDS OF ENERGY SUPPLYING CORPORATIONS.

WHEREAS, corporations dealing in petroleum and other fossil fuels have been known to contribute large amounts of money to various state and national political campaigns, and

WHEREAS, various national administrations have been known to appoint numerous fossil fuel industry executives to decision-making positions, especially regarding national energy policy; and

WHEREAS, these appointees have considerable influence in shaping the energy policies of the United States; and

WHEREAS, the energy policy of the United States has been more rapid development of fossil fuels, at the expense of several "national sacrifice areas"; and

WHEREAS, the energy policy of the United States has not provided adequately for the consideration of energy conservation and/or alternative energy sources; and

HeinOnline -- 1975 vol. II 1740 1975

HOUSE JOINT RESOLUTION NO. 63

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING THE BONNEVILLE POWER ADMINISTRATION TO PREPARE AN IMPACT STUDY OF THE PACIFIC NORTHWEST HYDRO-THERMAL PLANNING PROGRAM.

WHEREAS, the energy resources of eastern Montana are being called upon to assist in meeting the requirements of the Pacific Northwest states, and

WHEREAS, the Pacific Northwest energy supply region, including much of Montana, is interconnected under the leadership of the Bonneville Power Administration, and

WHEREAS, the Bonneville Power Administration was established under an Act of Congress which, as amended, declares among its purposes to encourage the widest possible use of electric energy generated by federal hydroelectric projects, to prevent the monopolization of such energy by limited groups, and to give preference in the distribution of such energy to public bodies and cooperatives, and

WHEREAS, the Bonneville Power Administration, in cooperation with publicly-owned and investor-owned utilities in the Pacific Northwest, is responsible for planning for future energy needs, and has carried out such planning through the medium of a Hydro-Thermal Power Program to meet projected needs through the year 1995, and

WHEREAS, the projection of energy needs by the Bonneville Power Administration is based upon a continuation of historical trends in demand growth, which trends have indicated an exponential growth pattern, and

WHEREAS, recent implementation of energy conservation policies and the promise of alternative sources of energy supply have indicated that a continuation of exponential growth of demand for energy generated from conventional sources is by no means inevitable, and

WHEREAS, within the past years, the largest single rate of growth in the various categories of sales of firm power produced by the Bonneville Power Administration has been that of direct sales to light metals industries, which fact has been construed in some quarters to imply a policy within said Administration to justify its demand projections through promotional marketing to limited groups at the expense of public bodies and cooperatives, and

WHEREAS, in order to fully air and resolve the controversies surrounding the marketing policies and demand projections of the Bonneville Power Administration, the Governors of Oregon and Washington have urged said Administration to examine alternative energy policies and strategies through the medium of an environmental impact statement

HeinOnline -- 1975 vol. II 1741 1975

upon the overall program for meeting Pacific Northwest energy needs during the next twenty years, and

WHEREAS, such an environmental impact statement would require nothing more of the Bonneville Power Administration than the Utility Siting Act of 1973 requires of state agencies and public utilities operating in Montana, and

WHEREAS, preparation of such a statement for the Pacific Northwest region would benefit the administration of the Montana Utility Siting Act by allowing state determinations of energy needs to be made in a clear context of regional strategies for dealing with energy problems, and

WHEREAS, preparation of such a statement under the procedures of the National Environmental Policy Act of 1969 would allow the participation by concerned citizens, business firms, and local and state governments similar to the participation allowed in energy planning in Montana under the Utility Siting Act, and

WHEREAS, the Forty-fourth Montana Legislature concurs with the recommendations of the Governors of Oregon and Washington.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the Bonneville Power Administration is requested to assume lead agency responsibility for the preparation of a broad, programmatic environmental impact statement to analyze the underlying assumptions of detailed electrical energy plans and projects for the Pacific Northwest and the interaction and aggregative effect of separate projects and actions, examining at least three alternative assumptions as to future energy demands such as the three alternative forecasts set forth in the Ford Foundation Energy Policy Study.

BE IT FURTHER RESOLVED, that the Secretary of State send copies of this resolution to the President of the United States, the Secretary of the Interior, the Chairman of the Federal Council on Environmental Quality, the Administrator of the Bonneville Power Administration, the Governors and Congressional delegations of Montana, Washington, Oregon, California, Idaho, and Wyoming.

Approved March 20, 1975.

WHEREAS, firearms are, always have been, and always will be very much a part of the way of life in the great state of Montana, and

WHEREAS, the private ownership of firearms, including handguns, is the last line of defense against the criminal element, and

WHEREAS, the report of the National Advisory Commission on Criminal Justice Standards and Goals, issued in August, 1973, advocates, among other things, the confiscation of all privately owned handguns, and

WHEREAS, the people of Montana having seen that federal firearm registration is leading us closer to federal confiscation of firearms.

WHEREAS, recent Presidential action has released previously impounded funds marked for construction of highway projects across the nation; and

WHEREAS, awards of those formerly impounded funds will be made on a priority basis to states whose highway construction projects are in an advance state of design; and

WHEREAS, the Montana Department of Highways has announced plans to offer for bid more than sixty million dollars ($60,000,000) in projects before June; and

WHEREAS, Boulder River School and Hospital has faced critical staff shortages and physical plant deficiencies in all parts of the institution, and

WHEREAS, the shortages and deficiencies reached such an acute level in July of 1974 that proper safe care and treatment of the residents were no longer possible, and

WHEREAS, one hundred and three (103) residents were evacuated and immediately placed in twenty-six (26) nursing homes and hospital facilities throughout the state, and

WHEREAS, a consultation team from Boulder River School and Hospital has visited twelve (12) of these facilities and found that the residents are receiving better daily care, and in some cases, better treatment in terms of activities and therapy than they were receiving at Boulder River School and Hospital, and

WHEREAS, many of these facilities have made use of previously untapped community resources — programs and professional persons — in order to serve the needs of the residents.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

WHEREAS, the Department of Administration has no statutory authority to ban political activity on the part of public employees, and

WHEREAS, banning public employees from all political campaign activities deprives them of a political right guaranteed by Article II, sections 4 and 7 of the constitution of Montana, and

WHEREAS, banning public employees from participation in political campaigns is not essential to protect those employees from undue influence of their superiors or to protect the electoral process from the abuse of the official authority of an employer.

When a bill or resolution is postponed indefinitely, it is finally rejected and may not be acted upon again during the biennium except upon a motion of reconsideration made pursuant to rule 5-4.

5-3. No motion or proposition on a subject different from that under consideration shall be admitted under color of amendment or substitute.

5-4. Any member may, on the day the vote was taken or on the next day the house in which the action was taken is in session, move to reconsider the question. A motion to reconsider may not be withdrawn after such next legislative day without the unanimous consent of the house concerned, and thereafter any member may call it up for consideration; however, a motion to reconsider made after the fifty-fourth day of the session shall be disposed of when made. A motion to recall a bill from the other house constitutes notice to reconsider, and shall be acted on as a motion to reconsider. A motion to reconsider or to recall a bill from the other house may be made only under order of business No. 6, and under that order of business takes precedence over all motions except motions to recess or adjourn.

5-5. When a motion to reconsider is laid on the table, a two-thirds

HeinOnline -- 1975 vol. II 1752 1975

majority is required to take it from the table. When a motion to reconsider fails, the question is finally and conclusively settled.

5-6. (1) Except as provided in subsection (2) of this rule, the effect of moving the previous question, if adopted, is to close debate immediately, to prevent the moving of amendments or other subsidiary motions, and to bring to vote promptly the immediately pending main question and the adhering subsidiary motions, whether on appeal or otherwise.

(2) When the previous question is ordered on any debatable question on which there has been no debate, the question may be debated for one-half hour, one-half of such time to be given to the proponents and one-half to the opponents.

5-7. A call of the house is not in order after the previous question is ordered, unless it appears upon an actual count by the presiding officer that a quorum is not present.

5-8. The following motions are not debatable:

(1) To adjourn

(2) For a call of the house

(3) To recess

(4) For parliamentary inquiry

(5) For suspension of the rules

(6) To lay on the table

(7) For the previous question

(8) To limit, extend the limits of, or to close debate

(9) To amend an undebatable motion

(10) To divide a question

(11) To pass business in committee of the whole

(12) To take from the table

(13) A decision of the presiding officer, unless appealed or unless he submits the question to the house for advice or decision

(14) All incidental motions, such as motions relating to voting or other questions of a general procedural nature.

5-9. A member may move to divide a question if it includes two or more propositions so distinct in substance that if one thing is taken away a substantive question will remain.

5-10. No more than one amendment and no more than one substitute motion may be made to a motion. This rule permits the main motion and two modifying motions.

CHAPTER 6

Bills and Resolutions

A.—Form of Bills—Definition of Resolutions—General Provisions

HeinOnline -- 1975 vol. II 1753 1975

6-1. The only types of instruments other than bills which may be introduced in either house of the legislature are:

(1) A simple resolution is a formalized motion passed by one house only and bears the heading "House Resolution" or "Senate Resolution". It may be used to amend the rules of one house or to provide for the internal affairs of the house adopting it. It does not require three readings or a roll call vote. A member offering a simple resolution may read it in his place before introduction. When a simple resolution has been introduced, it shall be referred to a committee. Final action shall be taken on the Committee of the Whole report. The transmittal of copies of simple resolutions is the responsibility of the chief clerk or secretary of the house of origin.

A copy of every simple resolution is to be transmitted after adoption to the secretary of state by the secretary of the senate or chief clerk of the house.

(2) A joint resolution must be adopted by both houses and is not approved by the governor. It may be used to express desire, opinion, sympathy, or request of the legislature; to amend the joint rules; to ratify or propose amendments to the United States Constitution; and to direct changes to, repeal, or direct adoption of, a rule in the Montana Administrative Code. Except as otherwise provided in these rules or the Constitution of the State of Montana, a joint resolution is treated in all respects as a bill.

A copy of every joint resolution is to be transmitted after adoption to the secretary of state by the secretary of the senate or chief clerk of the house.

6-2. Bills shall be typewritten on paper eight and one-half by eleven inches with 25 numbered lines, and shall be introduced in quadruplicate. Pica type and a good black ribbon must be used. Bills shall be numbered at the foot of each page (except page one) and shall have white covers of a substantial material. In sections amending existing statutes, matter to be stricken out shall be indicated with a line through the words or part to be deleted, and new matter shall be underlined. Sections of the most recent Revised Codes of Montana repealed or amended in a bill shall be stated in the title except for general appropriation bills and bills for the codification and general revision of the laws. Introduced bills will be reproduced on white paper and distributed to legislators.

6-3. No bill, except general appropriation bills, and bills for the codification and general revision of the laws, shall contain more than one subject, which shall be clearly expressed in the title. The enacting clause of every law shall be as follows: "Be it enacted by the legislature of the state of Montana".

A bill shall be used to propose amendments to the Constitution of the State of Montana and shall not be subject to the veto of the governor (Montana Constitution, Art. VI, Sec. 10(1)).

6-4. All appropriation bills shall originate in the House of Representatives.

HeinOnline -- 1975 vol. II 1754 1975

The general appropriation bills shall embrace nothing but appropriations for the ordinary expenses of the legislative, executive and judicial departments of the state, interest on public debt and for public schools. All other appropriations shall be made by separate bills, each embracing but one subject (Montana Constitution, Art. V, Sec. 11 (4)). Appropriation bills for the operation of the legislature shall be introduced by the chairman of the house committee on appropriations.

6-5. Every statute, unless a different time is prescribed therein, takes effect on the first day of July of the year of its passage and approval. Every joint resolution, unless a different time is prescribed therein, takes effect from its passage (Sections 43-507 and 43-509, R.C.M. 1947).

B.—Introduction

6-6. Bills will be checked by the staff of the Legal Services Division of the Legislative Council prior to consideration by a committee of the legislature, for proper format, style, and legal form. A stamp shall be affixed to the bill cover and initialed indicating this review. If such stamp is not affixed at the time the bill is delivered to the appropriate committee chairman, the chairman shall cause the bill to be transmitted to the Legal Services Division for such review. Members should make every effort to present proposed bills to the Division in advance of introduction of the bill. Bills will be entered on the automated bill drafting equipment and typed to facilitate a more rapid reproduction. If a bill is not so entered prior to introduction, it will not be considered by any committee until it has been so entered.

A bill may be introduced by endorsing it with the name of a member or committee and presenting it to the chief clerk or secretary in quadruplicate. Bills, joint resolutions, and simple resolutions shall be numbered consecutively in each session of the legislature in separate series in the order of their receipt.

Any bill proposed by a legislative committee or introduced by request of an administrative or executive agency or department shall be so indicated following the names of the sponsors, "By Request of _____ (Name of Agency or Committee)".

Bills may be prefiled, numbered and preprinted prior to a legislative session. This will be the responsibility of the staff of the Legislative Council. Actual signatures may appear on the face of the prefiled bill or signatures may be obtained on a consent form from the Legislative Council. Additional sponsors may be added at the time of introduction on the first legislative day, on motion of the chief sponsor. These names will be forwarded to the Legislative Council to be included on the face of the bill following standing committee approval.

All prefiled bills will be made available to the public.

6-7. Bills may be introduced until 5 p.m. on the eighteenth legislative day, except revenue bills and appropriation bills.

All bill drafting requests must be submitted to the Legislative Council staff by 5 p.m. of the fourteenth legislative day. A sponsor of a bill drafted pursuant to a timely request, but which is not delivered by the eighteenth

HeinOnline -- 1975 vol. II 1755 1975

day by the Legislative Council, shall have forty-eight hours after delivery to introduce the bill. No other bills except revenue and appropriation bills may be introduced after 5 p.m. on the eighteenth legislative day.

Revenue bills must be introduced by 5 p.m. on the twenty-fifth legislative day. There is no time limit for introduction of appropriation bills.

Joint Resolutions affecting rules adopted in the Montana Administrative Code may be introduced and transmitted at any time during a session.

6-8. No bill may be introduced or received in a house after that house has finally rejected a bill during that session designed to accomplish the same purpose save upon approval by the rules committee of the house in which the bill is offered for introduction or reception.

Failure to override a veto does not constitute final rejection.

6-9. At least three-fourths of a standing committee must consent to the introduction of a committee bill.

C.—First Reading and Commitment

6-10. No motion affecting a bill is in order on its first reading except as provided in Joint Rule 6-6.

Upon introduction or reception of a bill, the chief clerk of the house or the secretary of the senate shall publicly post upon a listing that bill by a summary of its title in the house of origin and by a summary of its title and by its history in the second house, together with a notation of the committee to which it has been assigned, and such posting shall constitute the first reading of the bill.

6-11. No bill shall be considered or become a law unless referred to a committee and returned therefrom.

6-12. Upon introduction or reception of a bill, it shall be referred to a committee by the presiding officer.

6-13. A bill may be recommitted at any time before its passage.

D.—Amendments and Substitute Bills

6-14. No law shall be revised or amended, or the provisions thereof extended by reference to its title only, but so much thereof as is revised, amended or extended shall be reenacted and published at length.

6-15. No law shall be passed except by bill, and no bill shall be so altered or amended on its passage through either house as to change its original purpose (Montana Constitution Art. V, Sec. 11(1)).

6-16. A committee may recommend that every clause in a bill be changed and that entirely new matter be substituted so long as the new matter is relevant to the title and subject of the original bill. A substitute bill shall be considered as an amendment and not as a new bill.

6-17. The proper form of reporting a substitute bill by a committee is to propose amendments to strike out all of the bill following the enacting clause and to substitute the new bill, recommending also any necessary changes in the title. If a committee report recommending a substitute for a bill originating in the other house is adopted, the substitute bill shall be printed.

HeinOnline -- 1975 vol. II 1756 1975

6-18. Amendments to a bill by the second house shall not be further amended by the house in which the bill originated, but must either be accepted or rejected. If the amendments are rejected, a conference committee may be requested by the house in which the bill originated.

6-19. If a majority of a house recommends the passage of a bill originating in that house after it has been returned from a committee, not less than six hundred copies of the bill shall be printed on canary paper with all amendments incorporated into the printed copies. Bills referred to the bills committee of the house of origin for printing must be reported within three days unless further time is granted by that house.

E.—Engrossing and Enrolling

6-20. When a bill has been reported favorably by committee of the whole of the house of origin and the report has been adopted, the bill shall be engrossed under the direction of the bills committee, and when reported correctly engrossed by the committee shall be placed on the calendar for third reading on the succeeding legislative day. Committee of the whole amendments shall be included in the engrossed bill. Copies of the engrossed bill to be distributed to legislators will be reproduced on blue paper. If a bill is unamended, contains no clerical errors, and is neatly written, it may be engrossed without retyping.

If a bill is amended by the standing committee or committee of the whole in the second house, the amendments will be included in a "reference" bill and distributed in the second house for third reading consideration. The amendments will also be reproduced and attached to the reference bill. If the bill passes on third reading, copies of the reference bill and second house amendments will be distributed in the original house.

6-21. When a bill has passed both houses it shall be enrolled by the Legislative Services Division of the Legislative Council as an act of the legislature under the direction of the bills committee of the house of origin. An original and three duplicate typewritten copies of the bill shall be enrolled, free from all corrections and errors, with a margin of two inches at the top and one inch on each side, with twenty-five unnumbered lines to the page. In sections amending existing statutes new matter shall be underlined, and matter stricken with a line through it shall be omitted. The typewriting shall be done with a black record ribbon, pica type, on paper 8-½ inches wide and 11 inches long. The original and two copies only of the bill shall be red lined. The history of the bill shall also be enrolled and placed in back of the bill in a white manuscript cover, upon which is written the number of the bill and the title.

When the enrolling has been completed, the bill shall be examined by the author and the bills committee and reported correctly enrolled.

The correctly enrolled bill shall be delivered to the presiding officer of the house in which the bill originated. The presiding officer shall announce from the rostrum, the announcement to be entered in the journal, the specific bills to be signed by him and shall designate a time when such bill shall be signed, and he shall sign the original and two copies of each bill delivered to him not later than the next legislative day after it has been reported correctly enrolled, unless the bill is delivered on the

HeinOnline -- 1975 vol. II 1757 1975

last legislative day in which event it shall be signed that day. The fact of signing shall be entered upon the journal no later than the next legislative day. At any time after the report of a bill correctly enrolled and before the signing, if a member signifies his desire to examine the bill, he shall be permitted to do so. The bill shall then be transmitted to the other house where the same procedure shall be followed.

The original and two copies signed by the presiding officer of each house shall be presented by the bills committee to the governor. The bills committee shall take a receipt from the governor and shall report to the house the day and hour of such presentation, which shall be entered in the journal. The original and the unsigned copy shall be filed with the secretary of state. Signed copies with chapter numbers assigned pursuant to Section 82-2209, shall be filed with the clerk of the supreme court and the Legislative Services Division of the Legislative Council.

F.—Second Reading—Committee of the Whole

6-22. All bills which have been reported by a committee, accepted by the house concerned and printed, shall be posted on the calendar for consideration by committee of the whole. The sergeants-at-arms of the respective houses shall record the time each bill is received and the time the bill is placed on members' desks. Until the fiftieth legislative day, one day must elapse between the time a committee approved bill is placed on the members' desks and consideration by committee of the whole. Bills shall be arranged on the calendar in numerical order unless they are companion bills or are otherwise ordered by the house or committee of the whole of the house concerned.

6-23. Every bill considered in committee of the whole shall be read by a summary of its title and by its history and considered section by section.

6-24. Prior to adoption of a committee of the whole report, a member may move to segregate a bill. If the motion prevails, the bill remains on second reading.

6-25. When a committee of the whole report on a bill is rejected the bill shall remain on second reading.

6-26. Either house may resolve itself into a committee of the whole by approval of a motion for that purpose. So far as may be applicable, the rules governing each house shall be observed when that house resolves itself into a committee of the whole, except as follows:

(1) The only motions in order are: to amend; to recommend passage or nonpassage; to recommend concurrence or nonconcurrence; to indefinitely postpone; to pass consideration; to rise; to rise and report; and to rise and report progress and ask leave to sit again.

(2) The committee may not appoint subcommittees.

(3) The committee may not punish its members for misconduct, but may report disorder to the house concerned.

(4) Unless otherwise prescribed by either house before going into committee of the whole, a member may speak as often as he is recognized and for as long each time as is allowed in debate in the particular house.

HeinOnline -- 1975 vol. II 1758 1975

6-27. After a committee of the whole has been formed, the presiding officer shall appoint a chairman to preside. Upon resuming the chair, the presiding officer shall receive the report of the chairman of the committee and the house shall take action on the report.

G.—Third Reading—Governor's Veto

6-28. No bill shall become a law except by vote of a majority of all the members present in each house, nor unless on its final passage the vote be taken by ayes and noes, and the names of those voting be entered on the journal (Montana Constitution, Art. V, Sec. 11(1) and (2)).

Any vote in one house on a bill proposing an amendment to the Montana State Constitution where the mathematical possibility exists of obtaining the necessary two-thirds (⅔) vote of the legislature will cause the bill to progress as though it had received the majority vote.

6-29. Every bill shall be read three times prior to passage, either by title or by summary of title as provided in these rules. The first reading shall be as prescribed in Joint Rule 6-10; the second prior to debate in committee of the whole; and the third, which shall be by complete title, prior to final passage. No bill shall receive more than one reading on the same day except on the last legislative day. No amendment may be offered on the third reading.

6-30. (1) Each bill passed by the legislature, except bills proposing amendments to the Montana Constitution, bills ratifying proposed amendments to the United States Constitution, resolutions, and referendum measures of the legislature, shall be submitted to the governor for his signature. If he does not sign or veto the bill within five days after its delivery to him if the legislature is in session or within 25 days if the legislature is adjourned, it shall become a law. The governor shall return a vetoed bill to the legislature with a statement of his reasons therefor.

(2) The governor may return any bill to the legislature with his recommendation for amendment. If the legislature passes the bill in accordance with the governor's recommendation, it shall again return the bill to the governor for his reconsideration. The governor shall not return a bill for amendment a second time.

(3) If after receipt of a veto message, two-thirds of the members present approve the bill, it shall become law.

(4) If the legislature is not in session when the governor vetoes a bill, he shall return the bill with his reasons therefor to the legislature as provided by law. The legislature may reconvene to reconsider any bill so vetoed.

(5) The governor may veto items in appropriation bills, and in such instances the procedure shall be the same as upon veto of an entire bill (Montana Constitution, Art. VI, Sec. 10).

6-31. Upon receipt of a veto message the presiding officer shall read the message. After the reading a member may move that the governor's veto shall be overridden. A vote on the motion shall be determined by

HeinOnline -- 1975 vol. II 1759 1975

roll call. If two-thirds of the members present vote "aye" the veto is overridden. If two-thirds of the members present do not vote "aye" the veto is sustained.

6-32. If the governor returns a bill to the originating house with his recommendations for amendment, such house shall reconsider the bill under its rules relating to amendment offered in committee of the whole. The bill is then subject to the following procedures:

(a) The originating house shall transmit to the second house, for consideration under its rules relating to amendments in committee of the whole, the bill and the originating house's approval or disapproval of the governor's recommendations.

(b) If both houses approve the governor's recommendations the bill shall be returned to the governor for his reconsideration.

(c) If both houses disapprove the governor's recommendations the bill shall be returned to the governor for his reconsideration.

(d) If one house disapproves the governor's recommendations and the other house approves, then either house may request a conference committee which may be a free conference committee.

(i) If both houses adopt a conference committee report, the bill in accordance with the report shall be returned to the governor for his reconsideration.

(ii) If a conference committee fails to reach agreement or if its report is not adopted by both houses the governor's recommendations shall be considered not approved and the bill shall be returned to the governor for further consideration.

H.—Transmittal of Bills

6-33. Each house shall transmit to the other with any bill all relevant papers. When a house bill is transmitted from the house of representatives to the senate, the secretary of the senate shall give a dated receipt for the bill to the chief clerk of the house. When a senate bill is transmitted to the house of representatives, the chief clerk of the house shall give a dated receipt to the secretary of the senate.

6-34. No bills, except for appropriation bills, revenue bills and amendments considered by joint committee need to be acted upon (save for reference to a committee by the presiding officer) if transmitted from one house to the other after the forty-fifth legislative day, but shall be held pending in the house to which it is transmitted unless two-thirds of the members present and voting shall determine that the bill shall be acted upon. Amendments, except to appropriation bills and revenue bills, shall likewise be deferred for consideration if transmitted after the fifty-fifth legislative day thereof.

Appropriation and revenue bills shall be transmitted from the original house on or before the fiftieth day unless two-thirds of the members present and voting in the receiving house shall determine that the bill may be transmitted after the fiftieth day.

6-35. When a bill has received its third reading or has been rejected, the house that considered the bill shall immediately transmit it to the other house with notice of its action.

HeinOnline -- 1975 vol. II 1760 1975

6-36. All bills reported out of a committee of the legislature having an effect on the revenues, expenditures, or fiscal liability of the state, except appropriation measures carrying specific dollar amounts, shall include a fiscal note incorporating an estimate of such effect. The Legislative Council staff shall indicate at the top of each bill prepared for introduction that a fiscal note may be necessary under this rule. Fiscal notes shall be requested by the presiding officer of either house, who shall determine the need for the note at the time of introduction, based on the Legislative Council staff recommendation.

The state budget director, in cooperation with the agency or agencies affected by the bill, is responsible for the preparation of the fiscal note and shall return the same within six (6) days, unless further time is granted by the presiding officer or committee making the request based upon a written statement from the budget director that additional time is necessary to properly prepare the note.

A completed fiscal note shall be submitted by the budget director to the presiding officer who requested it, who shall refer it to the committee considering the bill. All fiscal notes shall be printed and placed on the members' desks.

Fiscal notes shall, where possible, show in dollar amounts the estimated increase or decrease in revenues or expenditures, costs which may be absorbed without additonal funds, and long-range financial implications. No comment or opinion relative to merits of the bill shall be included; however, technical or mechanical defects may be noted.

A fiscal note also may be requested on a bill and on an amendment by:

(1) a committee considering the bill, or

(2) a majority of the members of the house in which the bill is to be considered, at the time of second reading, or

(3) the chief sponsor through the presiding officer.

The budget director shall make available on request to any member of the legislature all background information used in developing a fiscal note (Sections 43-1001 through 43-1006, R.C.M. 1947).

CHAPTER 7
Committees

7-1. (1) The committee on legislative administration of each house shall consider all matters concerned with seating, mileage and per diem, legislative employees, the control of the legislative property, and the budgeting for and expenditure of appropriations for the operation of the legislature, in cooperation with the business manager.

(2) All expenditures of money appropriated for the operation of the legislature must be approved by the committee on finance and claims in the senate or the committee on appropriations in the house.

7-2. A standing committee shall submit a written report in triplicate on all bills or matters referred to it within 7 days after reference, unless

HeinOnline -- 1975 vol. II 1761 1975

at the request of the committee and for good cause shown, further time is granted by the house concerned.

7-3. If the members of a committee cannot agree on a report, the majority and minority of the committee present at a committee meeting may submit separate reports. Only one minority report may be submitted. Such reports shall be entered at length on the journal, unless otherwise ordered by the house concerned.

7-4. All committees shall keep minutes of their meetings and, at the close of the session, shall make five complete copies and shall turn the original of the minutes over to the chief clerk of the house or secretary of the senate for delivery to the historical society. The majority and minority leader of each house and the Legislative Council shall each be given one copy of the minutes.

7-5. The committee on bills and journal, the rules committee, and conference committees may report at any time, except during a call of the house or when a vote is being taken. Reports from the bills and journal committee shall stand approved without formal action.

7-6. All bills providing for an appropriation of public moneys may first be considered by a joint committee composed of the members of the senate committee on finance and claims and the house committee on appropriations, and then by each separately. Meetings of the joint committee shall be held upon call of the chairman of the house committee on appropriations who shall be chairman of the joint committee.

7-7. The chairman of each committee has general control and direction of the hall and committee room of the committee over which he presides, subject to the control of the presiding officer under rule 1-3. Except as provided in Joint Rule 7-6, the chairman of the senate committee shall be chairman of all joint committees.

7-8. If either house requests a conference and appoints a committee for the purpose of discussing an amendment on which the senate and the house of representatives cannot agree, the other house shall appoint a committee consisting of the same number of members. They shall meet at a convenient time, to be agreed upon by their chairman, and having conferred, shall report to their respective houses the result of their conference. A conference committee shall confine itself to the disputed amendment.

If either house requests a free conference committee and the other house concurs, appointments will be made the same as above. A free conference committee may discuss a bill in its entirety and is not confined to a particular amendment.

7-9. In joint committees other than conference committees, members vote individually and not by houses. Because conference committees are joint meetings of separate committees, in conference committees the committees from each house vote separately, and a majority of each committee must agree before any action may be taken.

7-10. When a conference committee report is filed with the secretary or clerk the same shall be read under order of business No. 3, select

HeinOnline -- 1975 vol. II 1762 1975

committees, and placed on the calendar for consideration on second reading. If recommended favorably by the committee of the whole, it may be considered on third reading the same legislative day. On the final legislative day a conference committee report shall be placed on the calendar for immediate consideration on second reading and shall be further considered on third reading the same legislative day.

CHAPTER 8
Rules and Journal

8-1. Each house shall keep a journal of its proceedings, and may, in its discretion, from time to time, publish the same, and the ayes and noes on any question shall, at the request of any two members, be entered on the journal.

8-2. The proceedings of each house which shall be entered on its journal include:

(1) the title and number of each bill when it is introduced; subsequent references may be by number only;

(2) every motion and the name of the member making it;

(3) proposed constitutional amendments which have been voted for by two-thirds of the members (Montana Constitution, Art. XIV, Sec. 8);

(4) committee reports;

(5) roll call votes;

(6) messages from the governor and the other house;

(7) an entry of the oath taken by the members (Sec. 43-209, R.C.M. 1947).

8-3. The bills and journal committee of each house shall supply the director of the Legislative Services Division of the Legislative Council with the contents of the daily journal to be programmed on automated equipment, examine its journal, distribute a daily journal to all legislators, correct any errors, and report each legislative day immediately after roll call.

8-4. The journal of the senate must be authenticated by the signature of the president, and the journal of the house of representatives by the signature of the speaker. The distribution of the completed journals shall be made by the Legislative Services Division of the Legislative Council (Sec. 43-304, R.C.M. 1947).

8-5. (1) A joint rule may be repealed or amended only with the concurrence of both houses, under the procedures adopted by each house for the repeal or amendment of its own rules.

(2) A joint rule governing the procedure for handling bills may be temporarily suspended by the consent of two-thirds of the members of either house, insofar as it applies to the house suspending it.

(3) Any rules committee report recommending a change in joint rules shall be referred to the other house for concurrent action. Any new rule or any change in the rules of either house shall be transmitted to the other house for informational purposes.

HeinOnline -- 1975 vol. II 1763 1975

8-6. Mason's Manual of Legislative Procedure governs the proceedings of the senate and house of representatives in all cases not covered by these rules.

8-7. The Legislative Council shall codify and publish in one volume the rules of the senate, the rules of the house of representatives and the joint rules of the senate and house of representatives. Upon adoption, the secretary of the senate and the chief clerk of the house of representatives shall provide the office of the Legislative Council with one copy of all motions or resolutions amending senate, house or joint rules, and with copies of all minutes and reports of the rules committees. After the rules have been published, the Legislative Council shall distribute copies as directed by the senate and house of representatives.

8-8. Pursuant to the authority established in sections 43-901 through 43-904, the following fee schedule is established for the legislative proceedings:

One complete set of the proceedings of any regular session, $200; an additional $75 is required for mailing by first-class mail; an additional $100 is required for airmail delivery.

One complete set of the proceedings of any special session, $25.

Single copies of bills, resolutions or amendments may be purchased according to the length of the document as follows:

41-100 pages.....$ .75

101-200 pages.....$1.00

Over 200 pages.....$2.00

CHAPTER 9
Voting Procedure

9-1. Except as provided in Joint Rule 9-2, every member present when a question is put shall vote unless the house of which he is a member excuses him.

9-2. A member who has a personal or private interest in any measure or bill proposed or pending before the legislature shall disclose the fact to the house of which he is a member, and shall not vote thereon.

9-3. Amendments to the constitution may be proposed by any member of the legislature. If adopted by an affirmative roll call vote of two-thirds of all the members of the legislature, the amendment shall be deemed approved by the legislature (Montana Constitution, Art. XIV, Sec. 8).

HeinOnline -- 1975 vol. II 1764 1975

9-4. When a measure requiring the concurrence of two-thirds of the members is under consideration, a majority vote is sufficient to decide any question relating to the measure short of third reading.

9-5. A roll call vote shall be taken on the request of two members.

9-6. On a roll call vote the names of the members shall be called alphabetically, unless an electrical voting system is used. A member may not vote or change his vote after the decision is announced from the chair. A member may not explain his vote until after the decision is announced from the chair.

9-7. (1) On third reading the question shall be stated as follows: "Senate (or house) bill number _____ having been read three several times, the question is, shall the bill pass (or be concurred in)."

SENATE JOINT RESOLUTION NO. 25

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA URGING THAT PRESIDENT FORD RELEASE IMPOUNDED FUNDS WHICH HAVE BEEN EARMARKED FOR THE NATIONAL FOREST PROGRAM AND THAT THE CONGRESS, RECOGNIZING THE SERIOUSNESS OF THE CURRENT UNEMPLOYMENT PROBLEM AND FUTURE FORESTRY NEEDS OF THE NATION, PROVIDE THE ADDITIONAL APPROPRIATIONS NECESSARY TO IMPLEMENT AT LEAST THE MODERATE SUPPLY ALTERNATIVE OF THE NATIONAL FOREST ENVIRONMENTAL PROGRAM FOR THE FUTURE.

WHEREAS, the national forests in Montana are established by law and dedicated to the principles of multiple-use management which provide for a continuing supply of a variety of goods and services for the benefit of the American people, and

WHEREAS, the national forests in Montana, together with the thousands of small owner woodlands, are the major source of raw materials for Montana's wood-using industries, and

WHEREAS, a strong, solvent forest products industry is essential for the future welfare of the state of Montana and this nation, and

WHEREAS, wood products from the forest are a renewable resource that requires less energy in their manufacture than substitutes and contribute directly to the energy pool, and

WHEREAS, the volume and quality of tomorrow's timber supplies are dependent upon capital investments in planting and thinning, and

WHEREAS, almost fifty percent (50%) of small owner woodlands in Montana are lying idle or poorly stocked and together with much of the national forest land are in need of planting of forest improvement and would benefit directly from assistance and incentive funds provided under this program, and

HeinOnline -- 1975 vol. II 1774 1975

WHEREAS, failure to make these investments in planting programs and timber stand improvement projects in Montana's forests will result in a serious timber shortage and economic chaos for Montana's timber industries, and

WHEREAS, revenues generated from the various products produced by the national forests have historically enriched the treasury of the United States more than the appropriations that have been allocated to the Forest Service, and

WHEREAS, funds amounting to ten million dollars have been impounded by President Ford and Montana's share of those impounded funds would be five hundred thirty-one thousand dollars, and

WHEREAS, if the National Forest Environmental Program for the future were fully funded at the moderate supply alternative level there would be additional employment created in this state for over a thousand people as well as providing youth conservation corps and job corps training for hundreds of Montana's unemployed young people, and

WHEREAS, Congress, using an expanded program of tree thinning and planting could readily provide jobs for one thousand people to offset jobs being lost and to help build homes.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the President be requested to take note of the grave unemployment problem in Montana and release the funds as part of his avowed program to put people back to work.

BE IT FURTHER RESOLVED, that the members of this Legislature are opposed to this fund withholding action and respectfully request the President to release the funds without delay.

SENATE JOINT RESOLUTION NO. 27

A JOINT RESOLUTION OF THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA REQUESTING THE PRESIDENT AND THE CONGRESS OF THE UNITED STATES

HeinOnline -- 1975 vol. II 1775 1975

WHEREAS, an ever-increasing jobless rate in the state of Montana demands that immediate steps be taken to create new jobs and maintain present jobs; and

WHEREAS, various proposals have been made for providing jobs including public service jobs to reduce the jobless rate; and

WHEREAS, whatever solution is finally found, an administrative structure would be needed to implement that solution, and

WHEREAS, funds made available to the United States through taxation for the purpose of developing highway transportation systems are now being impounded and held back against the best interests of the people who paid the taxes to provide them; and

WHEREAS, the expenditure of highway trust fund money in this time of recessionary economics would provide jobs and create needed capital to promote the retention of many more jobs without necessitating the creation of additional administrative structures in government; and

WHEREAS, the impoundment of highway construction funds has prevented the construction of vital highway projects and allowed known safety hazards to go on uncorrected to the detriment of the safety and general welfare of the people of Montana; and

WHEREAS, the impoundment of highway construction funds has led to uncertainty and inefficiency in the administration of the Department of Highways by preventing the establishment of reasonable, orderly, and sustained highway programs; and

WHEREAS, the taxpayers of Montana and the nation have sustained great losses in purchasing power with their money impounded during a period when construction-related costs have inflated by forty-two percent (42%); and

WHEREAS, it is clear that the best use of the impounded funds would be to put Montana workers on the job building vitally needed public highways and improving the general economic climate with all the auxiliary job benefits their paychecks provide.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF MONTANA:

That the President and the Congress of the United States is requested to take whatever action is necessary to release impounded highway construction funds in a manner that is designed to promote a reasonable, orderly, and sustained highway program.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF THE STATE OF MONTANA:

THAT THE FOLLOWING RULES ARE ADOPTED:

SENATE RULES

CHAPTER 1

Presiding Officer — Decorum, Order and Debate

S1-1. At the beginning of each biennium the senate shall choose a president from its membership who shall be the presiding officer. In case of the absence or disqualification of the president, the president pro tempore of the senate shall perform the duties of the president until the vacancy is filled or the disability removed.

S1-2. The senate shall, at the beginning and close of each regular session, and at such other times as may be necessary, elect one of its members president pro tempore. The senate shall choose its other officers, and shall judge of the elections, returns, and qualifications of its members.

S1-3. The president and president pro tempore, when acting as presiding officer of the senate, shall vote as any other member of the senate.

S1-4. The president may name a senator to perform the duties of the chair, when the president pro tempore is not present in the senate chamber. The senator who is so named is vested during such time with all the powers of the president; but he does not lose the right to vote on any question while presiding.

S1-5. No senator shall speak more than twice on any one motion or question without unanimous consent of the senate, unless he has introduced or proposed the motion or question under debate, in which case he may speak twice and also close the debate. However, a senator who has spoken shall not speak again on the same motion or question to the exclusion of a senator who has not spoken.

S1-6. On order of business No. 8 — In addition to other methods a recorded vote may be made in the following manner: the chair may call for a voice vote to accept or reject a question. If the vote is other than unanimous, the chair may ask that the lesser number on the question

HeinOnline -- 1975 vol. II 1789 1975

indicate their vote by standing. The secretary will then record the vote of those standing. The chair may then rule that unless excused those not standing and present have voted on the prevailing side of the question and that their vote be recorded as such. If there was a unanimous voice vote, all those present will be recorded as having voted for the question.

S1-7. Only the following persons may be admitted to the floor of the senate during sessions: legislators, legislative officers and employees whose presence is necessary for the conduct of the business of the session, accredited members of the press, radio and television, former legislators. The rules committee shall be allowed to make exceptions for visiting dignitaries.

CHAPTER 4
Order of Business

S4-1. On order of business No. 2 (reports of standing committees), no debate shall be had on any report unless a minority report has been submitted. Any member seeking a reconsideration of the senate's action on the adoption of a committee report shall do so on order of business No. 6 by motion to reconsider. Any member may make such motion and need not have voted on the prevailing side. This rule shall apply notwithstanding any joint rule to the contrary.

A bill reported from committee without recommendation shall be ordered printed and placed on second reading.

CHAPTER 5
Motions

S5-1. All proper motions on second reading are debatable. If a motion to reconsider third reading action on a bill or resolution is carried, there shall be no further action on that bill or resolution until the succeeding legislative day.

CHAPTER 6
Bills and Resolutions

S6-1. Any bill or resolution may be introduced during a special session, provided however, that the Rules Committee shall determine which bills or resolutions shall be considered during a special session, including bills or resolutions carried over from previous sessions. This rule shall apply to both house and senate bills or resolutions.

CHAPTER 7
Committees

S7-1. The senate shall elect a committee on committees consisting of 3 members. The committee on committees, with the approval of the senate, shall appoint standing and select committees of the senate, and senate membership on joint committees except conference committees and special committees. The president shall appoint all conference committees and special committees with the advice of the majority and minority floor leaders. The senate may change the membership of any committee on one day's notice.

15. Taxation

S7-2. The majority leader shall be an ex-officio member of all committees in order to establish a quorum.

S7-3. If any final vote on a bill in a standing committee results in a tie vote, the bill shall be reported out of committee without recommendation and advanced to second reading without further motion.

S7-4. When a conference committee report is filed with the secretary, the same shall be read under order of business No. 3, Select Committees, and placed on the calendar the succeeding legislative day for consideration on second reading. If recommended favorably by the committee of the whole, it may be considered on third reading the same legislative day.

CHAPTER 8

BE IT FURTHER RESOLVED, that it is the understanding of the Senate, if Senate Bills 2 and 13, and House Bills 114 and 663 are enacted into law, and are read in conjunction with Chapters 299, 341, 372, 397, and 427, Laws of 1975, that section 84-301, R.C.M. 1947, will have been cumulatively amended so as to read as follows:

"**84-301. Classification of property for taxation.** For the purpose of taxation the taxable property in the state shall be classified as follows:

Class One. The annual net proceeds of all mines and mining claims, except coal mines, after deducting only the expenses specified and allowed by section 84-5403; also where the right to enter upon land, to explore or prospect, or dig for oil, gas, coal or mineral is reserved in land or received by mesne conveyance (exclusive of leasehold interests), devise or succession by any person or corporation, the surface title to which has passed to or remains in another, the state department of revenue shall determine the value of the right to enter upon said tract of land for the purpose of digging, exploring, or prospecting for gas, oil, coal or minerals, and the same shall be placed in this classification for the purpose of taxation.

Class Two. All agricultural and other tools, implements and machinery, gas and other engines and boilers, threshing machines and outfits used therewith, automobiles, motor trucks and other power-driven cars, vehicles of all kinds except mobile homes, boats and all watercraft, harness,

saddlery and robes and except as provided in Class Five (a) of this section, all poles, lines, transformers, transformer stations, meters, tools, improvements, machinery and other property used and owned by all persons, firms, corporations, and other organizations which are engaged in the business of furnishing telephone communications, exclusively to rural areas, or to rural areas and cities and towns provided that any such city or town has a population of eight hundred (800) persons or less; and provided further, that the average circuit miles for each station on the system is more than one and one-quarter (1 ¼) miles.

Class Three. Livestock, poultry, and unprocessed products of both; furniture and fixtures used in commercial activities; the annual gross proceeds of underground coal mines; and all office or hotel furniture and fixtures, except improvements included in Class Nine.

Class Four. (a) All land, town and city lots, with improvements, except improvements included in Class Nine, and all trailers affixed to land owned, leased, or under contract or purchase by the trailer owner, manufacturing and mining machinery, fixtures and supplies, except as otherwise provided by the constitution of Montana, and except as such property may be included in Class Five, Class Seven or Class Eight.

(b) Mobile homes without regard to the ownership of the land upon which they are situated, except those held by a distributor or dealer of mobile homes as part of his stock in trade, and except as such property may be included in Class Eight.

Class Five. (a) All poles, lines, transformers, transformer stations, meters, tools, improvements, machinery and other property used and owned by co-operative rural electrical and co-operative rural telephone associations organized under the laws of Montana except those within the incorporated limits of a city or town in which less than ninety-five per cent (95%) of the electric consumers and/or telephone users are served by a co-operative organization, and as to the property enumerated in this sub-section (a) within incorporated limits of a city or town in which less than ninety-five per cent (95%) of the electric consumers or users will be served by a co-operative organization, such property shall be put in Class Two.

(b) All unprocessed agricultural products either on the farm or in storage, irrespective of whether said products are owned by the elevator, warehouse or flour mill owner or company storing the same, or any other person whomsoever, except all perishable fruits and vegetables in farm storage and owned by the producer, and excepting livestock and poultry and the unprocessed products of both.

(c) The dwelling house, and the lot on which it is erected, owned and occupied by any resident of the state, who has been honorably discharged from active service in any branch of the armed forces, who is rated one hundred per cent (100%) disabled due to a service-connected disability by the United States veterans administration or its successors.

In the event of the veteran's death, the dwelling house, and the lot on which it is erected, so long as the surviving spouse remains unmarried and the owner and occupant of the property, shall remain within this classification.

HeinOnline -- 1975 vol. II 1798 1975

Class Six. Property formerly included in this class is now classified by section 84-308, R.C.M. 1947.

Class Seven. (a) All new industrial property. New industrial property shall mean any new industrial plant, including land, buildings, machinery and fixtures which, in the determination of the state department of revenue, is used by a new industry during the first three (3) years of operation not having been assessed prior to July 1, 1961, within the state of Montana. New industry shall mean any person, corporation, firm, partnership, association, or other group which establishes a new plant or plants in this state for the operation of a new industrial endeavor, as distinguished from a mere expansion, reorganization, or merger of an existing industry or industries. Provided, however, that new industrial property shall be limited to industries that manufacture, mill, mine, produce, process or fabricate materials, or do similar work in which capital and labor are employed and in which materials unserviceable in their natural state are extracted, processed or made fit for use or are substantially altered or treated so as to create commercial products or materials; industries that engage in the mechanical or chemical transformation of materials or substances into new products in the manner defined as manufacturing in the 1972 Standard Industrial Classification Manual, prepared by the United States office of management and budget; and in no event shall the term new industrial property be included to mean property used by retail or wholesale merchants, commercial services of any type, agriculture, trades or professions. New industrial property does not include a plant which will create an adverse impact on existing state, county, or municipal services. The department shall promulgate regulations for the determination of what constitutes an adverse impact taking into consideration the number of people to be employed and the size of the community in which the location is contemplated. Once the department has made an initial determination that the industrial facility qualifies as new industrial property, the department shall then upon proper notice hold a hearing to determine if the new industrial classification should be retained by the property. The local taxing authority may appear at the hearing, and it also may waive its objection to retention of this classification if the industry agrees to the prepayment of taxes sufficient to satisfy tax requirements created by the location and construction of the facility during construction period.

In the event of a prepayment of taxes, the maximum amount or prepayment shall be the amount without the application of the Class 7 (a) to such property.

If a major new industrial facility qualifies under Class 7 (a) the reduction of its yearly payment of property taxes for reimbursement of its prepaid taxes as provided for in section 84-41-105, R.C.M. 1947, shall not begin until the Class 7 qualification expires. And provided further, that new industrial property shall not be included to mean property which is used or employed in any industrial plant which has been in operation in this state for three (3) years or longer. Any person, corporation, firm, partnership, association or other group seeking to qualify its property for inclusion in this class shall make application to the state department of

HeinOnline -- 1975 vol. II 1799 1975

revenue in such manner and form as may be required by said department.

(b) Business inventories. Business inventories shall include goods intended for sale or lease in the ordinary course of business, and shall include raw materials and work in progress with respect to such goods, but shall not include goods actually leased or rented on the lien date, or mobile homes held by a dealer or distributor as a part of his stock in trade.

(c) Air pollution control equipment as defined in section 69-3923.

(d) A capital investment in a recognized nonfossil form of energy generation, to the extent provided under section 84-7403.

Class Eight. (a) Any improvement on real property, trailers affixed to land or mobile home belonging to any person who qualifies under any one or more of the hereinafter set forth categories, with appurtenant land not exceeding five (5) acres, which together have a market value of not more than twenty-seven thousand five hundred dollars ($27,500), which dwelling is owned or under a contract for deed, and which is actually occupied for at least ten (10) months per year as the primary residential dwelling of:

(1) a widow sixty-two (62) years of age or older, whether with or without minor dependent children, who qualifies under the income limitations of (4), or

(2) a widower sixty-two (62) years of age or older, whether with or without minor dependent children, who qualifies under the income limitations of (4), or

(3) a widow or widower with minor or dependent children regardless of age, who qualifies under the income limitations of (4), or

(4) a recipient or recipients of retirement or disability benefits whose income from all sources is not more than six thousand dollars ($6,000) for a single person and six thousand eight hundred dollars ($6,800) for a married couple total per annum whether said dwelling is occupied by a single person or a married couple. Provided, further, that one who applies for classification of property under this class must make an affidavit to the state department of revenue on a form as may be provided by the state department of revenue supplied without cost to the applicant, as to his income, if applicable, as to his retirement benefits, if applicable, or, as to his marital status, if applicable, and to the fact that he or she actually occupies or maintains as his or her primary residential dwelling, such land and improvements with right of the county welfare board to investigate the applicant, on the completion of the form, as to answers given on the form. Provided, further, the assessed value of said property shall not be increased during the life of the recipient of retirement benefits or widow or widower covered under this class, unless the owner-resident makes a substantial improvement in the dwelling. For the purposes of the affidavit required for classification of property under this class, it shall be sufficient if the applicant signs a statement swearing to or affirming the correctness of the information supplied, whether or not the statement is signed before a person authorized to administer oaths, and

HeinOnline -- 1975 vol. II 1800 1975

mails the application and statement to the department of revenue. This signed statement shall be treated as a statement under oath or equivalent affirmation for purposes of section 94-7-203, R.C.M. 1947, relating to the criminal offense of false swearing.

(b) A capital investment in a building for an energy conservation purpose, to the extent provided under section 84-7403.

Class Nine. The incremental increase in the value of real estate attributable to repairing, maintaining, or improving existing improvements.

Class Ten. The annual gross proceeds of coal mines using the strip mining method.

Class Eleven. Centrally assessed utility allocations after deductions of locally assessed properties and except as provided in Class Two for rural telephones and Class Five (a) for cooperatives, and all other property not included in the ten (10) preceding classes."

BE IT FURTHER RESOLVED, that if any of the foregoing bills fails to be enacted into law, that the understanding of the Senate as to the arrangement of sections 84-202 and 84-301, as expressed in this resolution, is modified only by deletion of the amendatory material not enacted and conforming the rearrangement of enacted amendatory material to such deletion.

BE IT FURTHER RESOLVED, that the Secretary of the Senate send a copy of this resolution to the Allen Smith Company, Indianapolis, Indiana.

Approved April 19, 1975.
